2003-2005 GENERAL CATALOG

Montgomery Community College issues this catalog to furnish information about the institution and its programs. The College makes every effort to meet the needs and desires of its students. However, special circumstances may require the College to cancel classes or programs due to insufficient enrollment or funding. Montgomery Community College reserves the right to make such decisions as warranted. Therefore, the provisions set forth in this publication are not to be regarded as an irrevocable contract between the student and the College. The College also reserves the right at any time to request that a student withdraw when such action is considered to be in the best interest of the student or the institution.

Message from the President

Welcome to Montgomery Community College!

Welcome to one of the most beautiful counties in North Carolina. Located in the midst of a lakes, its Uwharrie countryside, its farmlands and hollows, Montgomery County strongly resembles the character of the county. Such character is embodied in the hearts and souls of our staff, faculty and students.

unique community colleges in the Community College System. A beautiful county with its Mountains, its sandy and gentle rolling valleys. Community College character of our county. in the hearts and souls of

The people of the county are just as wonderful as our lovely environment with their caring spirit, passion for living, and love of their families, their faith, and the area in which they live. The students work very hard to achieve their educational dreams and give of themselves to the activities and efforts of the college. The faculty and staff have a strong passion for their work, a love for the students, and a caring and faithful spirit that carries them through their many responsibilities and activities. We are a family, opening our arms to those who wish to become a part of that family.

Unique programming includes our pottery, taxidermy, forestry, and gunsmithing programs, while students may also study in the associate in science or arts programs, along with numerous associate in applied science programs of study such as business administration, early childhood, emergency medical science, and information technology. Services are also available for those seeking new skills, for those needing English as a second language, for dislocated workers, for industries needing technology training for employees and for those needing literacy assistance.

We look forward to serving you, our students, whether you are in the classroom or are reaching your educational goals through distance learning. The Board of Trustees, faculty and staff of MCC are committed to providing quality educational instruction, training and support to help you achieve your educational dream. Thank you for giving us such a wonderful opportunity.

Mary P. Kirk, Ed.D.
President

The College

HISTORY OF MONTGOMERY COMMUNITY COLLEGE

The State Board of Education issued a charter to Montgomery Technical Institute on September 7, 1967. As directed by law, eight members were appointed to the Board of Trustees. In November 1967, administrative and teaching personnel were employed. Extension classes were conducted in 1967-68, and full-time curriculum students were accepted in August 1968. The institution's first students were graduated in June 1969. Adult Basic Education and adult high school diploma programs began in October 1968. In June 1968, a building on Page Street in Troy was occupied as a temporary location of Montgomery Technical Institute.

On June 3, 1971, the State Board of Education approved Montgomery Technical Institute as a charter technical institution, effective July 1971. In compliance with law, four additional trustees were appointed by the Governor on December 1, 1971. Responsibility for local control of the College was given to the Board of Trustees, including the President of the Student Government Association who serves as an ex-officio member of the Board of Trustees.

In October 1975, the citizens of Montgomery County passed a bond issue authorizing the construction of a new campus of 64,000 square feet of space on a 149 acre tract of land. The State Board of Education Department of Community Colleges accredited Montgomery Technical Institute on December 7, 1978, and on December 19, 1978, the Southern Association of Colleges and Schools affirmed its accreditation. The Commission of Colleges of the Southern Association of Colleges and Schools reaffirmed the Institute's accreditation on December 19, 1983.

Montgomery Technical Institute became Montgomery Technical College in 1983 in accordance with legislative and board approval, and in September 1987, the Board of Trustees and Montgomery County Commissioners voted for the name to be officially changed to Montgomery Community College as authorized by the North Carolina General Assembly. On December 19, 1993, the Commission on Colleges of the Southern Association of Colleges and Schools reaffirmed Montgomery Community College's accreditation to offer associate degrees, diplomas, and certificates.

The College

The Montgomery Community College campus includes facilities of approximately 125,000 square feet on 153 acres of land. The most recent addition to the campus is the Business, Industry, Technology Resource Center. The building was financed by \$2.6 million in matching funds from the state through a statewide bond referendum passed by local citizens and North Carolina voters in 1992. The Montgomery County School Board voted in 1994 to transfer approximately four acres of land to Montgomery Community College to be used for the facility and parking.

The Business, Industry, Technology Resource Center contains 44,800 square feet of floor space utilized for an electronic library, a totally interactive classroom to transmit and receive real-time voice, video, and data on the North Carolina Information Highway (NCIH), and classrooms/laboratories. The Center is designed to serve as a facilitation site for training both on campus and within a work place, and employers can utilize the Center for training all levels of staff.

ACCREDITATION

Montgomery Community College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award associate degrees, diplomas, and certificates. The Associate in Applied Science Degree in Medical Assisting is also accredited by the American Association of Medical Assistants; and the Practical Nursing Diploma Program is approved by the North Carolina Board of Nursing. Graduates of the Basic Law Enforcement Training Certificate Program are qualified to take certification examinations mandated by the North Carolina Criminal Justice Education and Training Standards Commission and/or the North Carolina Sheriffs' Education Training Standards Commission.

THE MONTGOMERY COMMUNITY COLLEGE FOUNDATION

The Montgomery Community College Foundation is a nonprofit organization whose mission is to secure funds from private sources to enhance the budgetary position of the College and its students. The Foundation is organized to receive gifts of money and/or property through contributions from individuals, businesses, industries, civic organizations, and fund raising events. The Foundation is governed by a Board of Directors consisting of community leaders from across Montgomery County. These Directors review and plan the Foundation's operations; manage the gifts and funds, including investments; and approve the disbursement of all Foundation monies.

NON-DISCRIMINATION STATEMENT

Montgomery Community College has filed with the federal government an Assurance of Compliance with all requirements imposed by or pursuant to Title VI of the Civil Rights Act of 1964 and the Regulations issued thereunder. Under the Assurance, Montgomery Community College is committed not to discriminate against any person on the grounds of race, creed, color, sex, age, handicap, or national origin in the admission policies and practices relating to the treatment of students and other individuals, including the provision of services, financial aid, and other benefits, and including the use of any building, structure, room, space, materials, equipment, facility or other property.

VISION, MISSION, AND GOALS

Montgomery Community College is a comprehensive, public two-year college and member institution of the North Carolina Community College System. The College has developed and implemented formal planning and evaluation procedures in order to meet the needs of the students and the community. All planning at the College begins with the vision statement, and mission statement, and then all goals, objectives, and activities are linked back to the vision and mission statements.

VISION

Montgomery Community College will be a place of discovery, critical thinking, and educational excellence; a centerpiece for life-long learning – for our students, faculty, staff, and community.

MISSION STATEMENT

Montgomery Community College will provide quality educational opportunities including basic skills, occupational, associate, and pre-baccalaureate programs; support economic development by offering workforce training and retraining; improve the quality of life for individuals and the community; and respond to the changing needs of the local, state, and global environment.

COLLEGE GOALS

- GOAL 1:** Develop and implement *instructional programs and services*, both traditional and distance learning offerings, that are consistent with the assessed needs of the constituent groups in the College's service area and with state and national standards, including training and retraining of the workforce.
- GOAL 2:** Utilize *technology* to provide information services that support quality, personalized instruction.
- GOAL 3:** Provide *facilities* for student learning that capitalize on state-of-the-art instructional applications.
- GOAL 4:** Insure that services are provided to industry, small businesses, and other *community initiatives* to facilitate economic growth.
- GOAL 5:** Provide an environment that supports employing and retaining a quality *faculty and staff* and promotes enhanced student learning, achievement, and development.
- GOAL 6:** Maintain overall *fiscal stability*.
- GOAL 7:** Maintain an on-going program that insures continual improvement and a high standard of *institutional effectiveness*, consistent with the expectations of governing and accrediting agencies.

North Carolina Community College System Performance Measures

In 1999, the North Carolina State Board of Community Colleges adopted 12 performance measures for accountability. This action was in response to a mandate from the North Carolina General Assembly to review past performance measures and define standards of performance to ensure programs and services offered by community colleges in North Carolina were of sufficient quality. The North Carolina Community College System has designated the 12 measures as the System's core indicators of student success.

Montgomery Community College Performance for 2000-2001

Performance Measure	State Standard	MCC's Performance
Progress of Basic Skills Students	75%	67%
Passing Rates on Licensure & Certification Examinations for First-Time Test Takers	• Aggregate institutional passing rate 80% Minimum accepted performance on any single reported exam 70%	78%
Goal Completion for Completers	95%	100%
Employment of Graduates	95%	96.08%
Performance of College Transfer Students	Equivalent to native students 82.9%	*
Passing Rates of Students in Developmental Courses	70%	76%
Success Rate of Developmental Students in Subsequent College-Level Courses	No statistically significant difference between developmental and non-developmental students	Developmental 92% Non-Developmental 87%
Student Satisfaction of Completers & Non-Completers	90%	98%
Curriculum Student Retention & Graduation	60%	74%
Employer Satisfaction with Graduates	85%	94%
Business/Industry Satisfaction with Services Provided	90%	99%
Program Enrollment: Three-Year Average Annual Enrollment of 10	0	1

*Number too small to report without violating students' privacy.

LIBRARY AND INFORMATION SERVICES

The mission of the Montgomery Community College Library is to provide access to information in a variety of formats and to serve as an integral part of the College's teaching, learning, research, and service to on-campus and distance education students, faculty, staff, and community in direct support of the mission of the College. To accomplish this mission the Library continually works to:

- build, with the collaboration of faculty, a collection of resources appropriate to the curriculum and to the current and future needs of the College community;
- utilize current technologies to provide a system of organization and physical access to the collection of the library and to sources beyond the collection;
- design and deliver instruction and consultation about the organization, content, and use of learning resources that includes instruction that is user-based, on demand, and customizable;
- provide a functional, accessible, attractive, user-centered physical facility to support and increase the use of learning and information resources;

The MCC Library has a carefully selected and growing collection of more than 15,000 volumes, subscriptions to 100 current periodicals, and a variety of non-print information sources. Library patrons have access to NC LIVE, a collection of online databases that provide access to newspapers, magazines, journals, and a variety of reference sources, many with full text. The MCC Library is located in the Business, Industry, Technology Resource Center (Building 200).

Library patrons are encouraged to use the library for study, research, self-improvement, and browsing. Professional staff are on duty to assist with reference, research, and reading guidance. The staff provides assistance and orientation in the use of the information center and its resources.

DISTANCE LEARNING

Distance Learning is an educational and/or training delivery system in which the majority of instruction occurs when the student and instructor are not in the same place and may employ audio, video, or computer technologies. Distance Learning at MCC includes video teleconferencing using the North Carolina Information Highway (NCIH) and online computer technologies.

The mission of Distance Learning at MCC is to provide accessibility to educational options which are not bound by time or place. To accomplish this mission, Distance Learning continually works to:

- provide options for students who may not be able to come to campus regularly because of physical limitations, work and family commitments, or by preference;
- enable students who prefer to learn through non-traditional media to have access to educational content in different formats;
- have distance learning parallel and supplement traditional course offerings and include comparable course outcomes.

VISITORS

Visitors to the College are welcome during normal operating hours and at other times by appointment. Visitors should check with the Information Desk or the President's Office when coming on campus. Either of these locations will provide information and directions.

Student Services

ADMISSION INFORMATION

ADMISSION (CURRICULUM PROGRAMS)

Montgomery Community College is a state-supported institution operating under an "open door" admission policy. This means that any person, whether a high school graduate or non-graduate, who is 18 years old or older and who is able to benefit from further formal education will be served by the institution.

The open door policy does not mean there are no restrictions on admission into specific programs. It does mean these restrictions are flexible enough to allow students opportunities for admission into specific programs when they demonstrate aptitude for these programs as determined by personal interest, academic background, placement tests, and personal interviews. If an academic deficiency exists, applicants will be given an opportunity to remove the deficiency by taking preparatory work.

Persons between 16 and 18 years of age who have special needs may be considered for admission with the approval of the local superintendent of schools and/or parents or guardian. Montgomery Community College and the Montgomery County Board of Education have a dual enrollment agreement for high school students age 16-18. High school students may earn college credit which may be applied to a degree at Montgomery Community College or transferred to another college while completing the normal requirements for high school graduation. Information concerning high school student admissions is presented later in this section under ***Specific Admission Requirements***. Note: The North Carolina General Assembly has approved admission for academically gifted students under the age of 16. Consult the Admissions Office for specific requirements concerning enrollment of students under the age of 16.

Academic Information & Policies

GENERAL ADMISSION PROCEDURES

All students are admitted to Montgomery Community College without regard to race, sex, color, creed, age, handicap, religion or national origin. Applicants for admission into curriculum programs should complete the following general admission procedures:

1. Complete and return the admission application to Student Services.
2. Submit an official high school or General Educational Development (GED) transcript and official transcripts from all colleges attended. An official transcript is one mailed directly from the high school, college or other institution to the Admissions Office at MCC. It is the applicant's responsibility to request that transcripts be sent.
3. Appear for a preadmission interview when notified by the Admissions Office.
4. Take any required preadmission tests when notified by the Admissions Office.
5. Complete any additional requirements for specific curricula.

Address correspondence concerning admission to curriculum programs to:

Admissions Office
Montgomery Community College
1011 Page Street
Troy, NC 27371

Phone: 910-576-6222
E-mail: fryek@mcc.montgomery.cc.nc.us

All admission procedures should be completed at least four weeks prior to actual enrollment into a program. However, some curriculum programs at Montgomery Community College have limited enrollment and prospective students are advised to apply early. When an enrollment quota for a class/program has been filled or the class/program has a specific prerequisite requirement, the applicant will be placed on a waiting list and notified by the Admissions Office. When all information is received, the applicant's academic record will be assessed and the applicant will be notified concerning acceptance and enrollment procedures. An applicant applying fewer than four weeks prior to enrollment may be notified to follow registration procedures as a walk-in student on Registration Day.

ASSOCIATE DEGREE PROGRAMS

A high school diploma or the equivalent is required of all applicants for degree programs. The GED or Adult High School (AHS) diploma is acceptable. GED scores must meet North Carolina standards with a total score of 2250, with no single test score below 410, and with an average score of 450. Associate degree programs require an applicant to complete assessment inventories in numerical skills, algebra skills, writing skills, and reading skills.

STAND-ALONE DIPLOMA & CERTIFICATE PROGRAMS

A high school diploma, GED, or Adult High School diploma is preferred for entrance into a stand-alone diploma or certificate program. However, consideration is given to any applicant whose interest and ability make successful completion of a diploma or certificate program likely. Applicants without a high school diploma or GED may be required to demonstrate an ability-to-benefit by successfully completing an assessment inventory. Some diploma and certificate programs may require an applicant to complete assessment inventories in reading and numerical skills after acceptance.

RESIDENT STATUS FOR ADMISSION INTO CURRICULUM PROGRAMS

The following policy applies to priorities for admission into programs with established enrollment maximums:

1. Up to 75 days prior to the beginning of a term, applicants from Montgomery and contiguous counties are given priority on available openings on a first-come, first-qualified basis. Contiguous counties include: Anson, Davidson, Moore, Randolph, Richmond, Rowan, and Stanly.
2. After the 75-day period, applicants are accepted on a first-come, first-qualified basis regardless of their county or state of residence.
3. Students already enrolled have a priority status equal to Montgomery and contiguous counties and may transfer from night to day and day to night within the same program when space permits.
4. Residency classification is determined by the Dean of Student Services. Appeals regarding residency decisions may be made in writing to the President at the College.

RE-ADMISSION

Former students who left Montgomery Community College in good standing are encouraged to re-enroll for further study. Students who have been out one term or longer should contact the Admissions Office to have their academic file reactivated. If a conference with a counselor or academic advisor is required, the student will be notified. Course work previously taken at Montgomery Community College will be evaluated for credit according to merit and relevance. Students being readmitted are required to satisfy requirements for graduation according to the current approved standards for their particular curriculum.

Practical Nursing students must complete the program within a three-year period. Students not completing the program within three years will be required to retake the major nursing courses and Anatomy and Physiology courses.

Former students desiring to re-enter from academic suspension must do so through the Student Services Counselor. Former students who were withdrawn for disciplinary reasons must have approval from the Dean of Student Services to re-enroll at the College.

STUDENT CLASSIFICATIONS

Audit Student – a student registered for a course for which he/she does not wish to receive credit. This student is not required to take examinations; otherwise, participation and attendance in class is the same as a credit student. Fees for auditing a class are the same as those for credit. Certain curricula with special requirements may have no courses open for "audit." After registration, a student has until mid-term to change a registration to "audit" with the Registrar.

Concurrently Enrolled Student – one enrolled in more than one community college at the same time. The first college that the student registers with and where they are pursuing their degree is the home college. Additional colleges in which the student enrolls simultaneously are the receiving colleges.

High School Student – a student enrolled through the provisions of the Huskins Bill (NCAC2C.0305). The N.C. General Assembly has also approved admission for academically gifted students under the age of 16. (Consult the Admissions Office for specific requirements concerning those under the age of 16.)

International Student – a student from another country enrolled on an F-1 student visa. Proficiency in the English language, exhibited by a TOEFL score not more than two years old of at least 550 on the paper-based test or 213 on the computer-based test, satisfactory academic records, and a local sponsor are important factors in the admission decision for all international applicants seeking an F-1 student visa.

Freshman - those students who have earned fewer than 32 hours of credit.

Full-time Student - one who is registered for 12 or more semester hours credit.

Part-time Student - one who is registered for 11 or less semester hours of credit.

Provisional Students (Deferred Acceptance Status) - enrolled as a full- or part-time student yet unable to complete pre-admission or assessment requirements before the registration period. When the student has fulfilled all requirements, he/she will be enrolled in good standing. The student must fulfill all requirements by the end of his/her first term or he/she may not be allowed to re-enroll. Special considerations for extenuating circumstances beyond the end of the first term requirements may be waived by the Dean of Student Services

Regular Curriculum Student - a curriculum student enrolled for the purpose of obtaining a degree, diploma, or certificate at a rate of pursuit to ensure timely graduation

Academic Information & Policies

Special Credit Student – one registered for a course(s) to meet an individual educational need, but who has not expressed intent to complete a curriculum. If a Special Credit student decides to complete a curriculum, he/she must submit an "Application for New Major/Minor/Directory Change" and meet regular admission and assessment requirements. Special Credit Students are not eligible for Financial Assistance or Veteran Educational Benefits.

Students With Special Needs – students enrolled through the provisions of Section 504 of the Rehabilitation Act of 1973 and/or the Americans with Disabilities Act. It is the student's responsibility to make his/her disability known in a timely manner and to request any necessary academic adjustments in writing prior to registration. To determine the student's eligibility for services, documentation of disability may be required of students requesting academic adjustments or auxiliary aids.

SPECIFIC ADMISSION REQUIREMENTS

ALLIED HEALTH PROGRAMS

A high school diploma, GED that meets North Carolina standards (as stated above), or Adult High School diploma is required of all applicants for all Allied Health Programs. Applicants must demonstrate the potential for academic achievement as evidenced by successful completion of assessment inventories. Upon initial inquiry, prospective applicants will be given the minimum score recommendations in the areas of writing skills, reading skills, algebra skills, and numerical skills. (Note: Practical Nursing students utilizing the ASSET placement test are not required to take the algebra skills assessment.) Those applicants selected for admission may be asked to attend an information session conducted by college personnel. Students not meeting admissions criteria will be counseled regarding removal of deficiencies.

All applicants selected for admission into an allied health program must meet physical and emotional health requirements necessary to provide safe health care. An "Applicant Medical Form" will be provided by the Admissions Office. Applicants must submit to the Admissions Office the completed form which includes the results of a physical examination performed by a licensed physician. The "Applicant Medical Form" must be reviewed for satisfactory results prior to final acceptance as a regular curriculum student. Additional admission information concerning Allied Health programs is listed under each major in the program section.

BASIC LAW ENFORCEMENT TRAINING (BLET)

A high school diploma, GED, or Adult High School diploma is required for admission into the BLET program and the applicant must be at least 20 years of age. Applicants must submit a completed Medical History Statement (Forms F-1 and F-2) which includes results of a physical examination conducted by a licensed physician to the Criminal Justice Department prior to registration. Medical History forms are available from the Admissions Office. BLET applicants are required to take a reading skills assessment inventory.

CONCURRENT ENROLLMENT WITHIN THE COMMUNITY COLLEGE SYSTEM

Students may enroll in more than one community college at the same time. The first college that the student registers with and where they are pursuing their degree is the "home college." Additional colleges in which the student enrolls simultaneously are the "receiving colleges."

Students will not be charged additional tuition at the "receiving college" when registered for 16 or more credit hours at the "home college" when the following condition is met. The student must present a letter from the "home college" that includes:

1. verification of credit hours registered for at the "home college";
2. verification of tuition status at the "home college"; and
3. a list of specific courses that the student is approved to register for at the "receiving college" to include any telecourses, independent study courses, and non-traditional delivery courses (i.e. Internet, Information Highway, etc.).

In addition, if the total credit hours at both colleges exceed 22 credit hours, the student's advisor at the "home college" must stipulate approval for the student to take any hours beyond 22 credit hours.

When the student is registered for less than 16 credit hours at the "home college," the above conditions must be met *and* the student must pay tuition charges for up to 16 credit hours total at the "receiving college." Tuition charges are in accordance with the rate set by the North Carolina Community College System and the General Assembly. Note: Additional steps may be required for admission into specific classes. Consult with the Admissions Office for more information.

HIGH SCHOOL STUDENTS

High school students may attend Montgomery Community College through the provisions of the policy set forth by the State Board of Community Colleges as cited in NCAC2C.0305 which permits high school students to enroll in a community colleges under the following conditions:

1. the student must be at least 16 years of age;
2. the student must be recommended by the chief administrative public school officer and approved by the President of the community college;
3. the principal must certify that the student is taking at least three (3) high school courses and is making appropriate progress toward graduation (or in the case of courses offered in the summer) must certify that such student took at least three (3) high school courses during the preceding year. (**Exception:** To accommodate students whose high schools have adopted block schedules, the requirement of enrollment in three high school courses is interpreted as the equivalent to enrollment in high school courses for one half of the school day). Note: When the majority of instruction delivered will be *after* the student has actually graduated from high school, such students are not considered to be dually enrolled and are not eligible for the tuition exemption.
4. enrollment of high school students cannot displace adult college students.

Academic Information & Policies

In addition, major and general education courses numbered 100 and above from the Common Course Library are eligible for the concurrent enrollment of high school students. (High School students may not take any remedial or transitional courses in which the course number is lower than 100.) **Note:** The N.C. General Assembly has approved admission for academically gifted students under the age of 16. Consult the Admissions Office for specific requirements concerning enrollment of students under the age of 16.

INTERNATIONAL STUDENTS

Montgomery Community College is approved by the U.S. Immigration and Naturalization Service for attendance by foreign students. Proficiency in the English language, exhibited by a TOEFL score not more than two years old of at least 550 on the paper-based test or 213 on the computer-based test, satisfactory academic records, and a local sponsor are important factors in the admission decision for all international applicants seeking an F-1 student visa.

Foreign students must have graduated from a secondary school that is equivalent to secondary school in the U. S. Placement tests are required for all foreign (F-1) applicants. Students should contact a university in their native country for information about the Test of English as a Foreign Language (TOEFL). Foreign applicants should write to the Admissions Office at Montgomery Community College for additional information. Foreign-born U.S. citizens and resident aliens possessing an I-551 card will be administered and placed under regular admission policies.

All admission requirements must be fulfilled before the student is considered for acceptance and before school officials will issue the I-20 Certificate of Eligibility. International students desiring admission into the College's Internet classes will be treated as an out-of-state student for tuition purposes and are not required to meet the requirements listed above. However, the student must know the English language as there are no translations provided.

SPECIAL CREDIT STUDENTS

Admission as a Special Credit Student requires completion of a Montgomery Community College Application for Admission and the satisfaction of any necessary prerequisite course requirements. Special credit students may not displace a returning *regular curriculum student* in a class required for his/her degree.

STUDENTS WITH SPECIAL NEEDS

Montgomery Community College seeks to comply fully with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act. Our goal is to ensure qualified students equal opportunity and access to all programs and facilities. It is the student's responsibility to make his/her disability known in a timely manner. Students should request any necessary academic adjustments in writing prior to registration. To determine the student's eligibility for services, documentation of disability may be required of all students requesting academic adjustments or auxiliary aids. Documentation may include results of medical, psychological, or emotional diagnostic tests, or other professional evaluations for verification of the need for adjustments or aids. Montgomery Community College will, where possible, seek assistance from outside agencies (i.e., Division of Vocational Rehabilitation, and other organizations).

Appropriate testing accommodations are available upon request for students with special needs. Students with learning disabilities must provide documentation and have the documentation evaluated before requests for accommodations will be granted.

ASSESSMENT (PLACEMENT) INVENTORIES

The American College Testing (ACT) Service ASSET/COMPASS assessment inventories are given to new students in associate degree programs to determine academic readiness. The results are used for advising and placement purposes.

All associate degree students will be assessed in numerical skills, writing skills, algebra skills, and reading skills. Stand-alone diploma and certificate students may be assessed in reading and numerical skills. BLET students are required to take the reading assessment only. Special credit students are assessed only when necessary to satisfy a prerequisite course requirement.

Students should complete the assessment inventories prior to registration for proper advising and placement. Information about score requirements is available in the Student Services Office. After testing, each student will receive a copy of his/her ASSET/COMPASS Student Advising Report listing scores obtained and course recommendations based on these scores.

Students needing additional educational preparation will be advised regarding removal of deficiencies. For students enrolled in associate degree programs, deficiencies in writing, algebra, reading, or numerical skills must be removed prior to taking any course work in English composition or mathematics respectively. Additionally, the removal of any reading deficiency must begin immediately or no later than the first term of work after assessment. A reading competency is required for graduation from associate degree programs.

Academic Information & Policies

Students meeting the following criteria may be exempted from taking specified sections of ASSET/COMPASS:

- Students with a score of 490 or above on the verbal portion and a score of 500 or above on the math portion of the SAT may be exempt from applicable section(s) on ASSET or COMPASS.
- Students who have taken the ACT will be advised on the appropriate sections to take.
- Students who have taken English composition, reading or math courses at another college or university that are equivalent to the entry level courses at Montgomery Community College and received a grade of "C" or better may not be required to take the related assessment inventories.
- Students with a score of 3 or higher on the CEEB Advanced Placement English exam may be exempted from the Writing and Reading Skills sections.

Students may retest on ASSET or COMPASS based upon recommendation of the testing coordinator. A student may test only twice while enrolled at the College.

Applicants to any Allied Health Program must take the required assessment inventories to meet entrance requirements. Emergency Medical Science, Medical Assisting, and Practical Nursing applicants are **not** exempt from taking ASSET/COMPASS.

Special assessment accommodations for students with special needs are also available upon request along with appropriate documentation. Students with special needs should contact the Counselor prior to scheduling their placement test to ensure that appropriate accommodations will be provided.

FINANCIAL INFORMATION

CURRICULUM FEES POLICY

1. All campus students will pay the required student activity fees, insurance fees, and relevant miscellaneous fees. (The student activity fee may be waived for full or permanent part-time employees taking classes pending annual SGA approval.)
2. Incarcerated students will not pay any tuition or fees as stipulated by law.
3. High school students taking classes off campus (including Distance Learning) at their respective high schools through articulation agreements/contracts in conjunction with their regularly scheduled high school classes will not pay student activity fees or accident insurance fees since they are participating as a direct part of their educational training through the Huskins Bill. However, these students may be required to pay any relevant fees and malpractice insurance relating to their program of study.
4. High school students taking college classes on campus as part of their daily high school schedule through articulation agreements/contracts will pay the accident insurance and any other relevant course/program fees including malpractice insurance relating to their program of study. Student activity fees will not be charged since students are participating as a part of their regularly scheduled high school day.
5. All charges will be stipulated and approved in the articulation agreement/contract signed with a particular high school and copies will be given to Student Services and the Business Office for proper assessment of charges.
6. High school students taking courses through Montgomery Community College under the dual enrollment policy that are not as a direct result of an articulation agreement/contract are expected to pay tuition, student activity fees, and insurance fees required of all regular MCC campus students. These dual enrolled high school students must obtain permission to enroll at MCC as stipulated by law.

STUDENT INSURANCE FEE

Accident Insurance

Mandatory for all students \$1.25 per term

Liability Insurance

Mandatory for Practical Nursing students \$15.00 per academic year

Mandatory for Medical Assisting students \$15.00 per academic year

Mandatory for Emergency Medical Science students \$61.50 per academic year

Other options are available at additional costs. See someone in Student Services for more information on student insurance.

ACTIVITY FEE

All curriculum students are required to pay a \$38 activity fee each year. This activity fee is budgeted by the Student Ambassadors and the Student Government Association and is used for special activities and other student-oriented activities and events.

Academic Information & Policies

GRADUATION FEE

Students are expected to pay the graduation fee by March 1. Graduation fees are:

High School Completion (GED & Adult High School) \$18

Curriculum Programs \$30

*For each additional award (degree, diploma or certificate) add \$5

NOTE: Graduation fees are subject to change at the discretion of the College depending upon increased prices from our supplier.

TECHNOLOGY FEE

All curriculum students are expected to pay a technology fee of \$16 each term.

MISCELLANEOUS FEES

GSM 111	Gunsmithing I	\$25
GSM 120	Gunsmithing Tools	\$75
GSM 225	Gunmetal Refinishing	\$15
MED 140	Exam Room Procedures I	\$8
MED 150	Lab Procedures I	\$10
Professional Crafts: Clay (Pottery)		\$35 per semester
Taxidermy		\$20 per semester

All fees are subject to change.

TEXTBOOKS & SUPPLIES

Textbooks and supplies are available through the CBA Bookstore on the MCC campus. Depending on the program of study, students can expect to pay between \$200 and \$300 for textbooks per term. Certain educational programs require the student to purchase books, uniforms, tools, and/or supplies to effectively complete the course and enter employment. These costs vary according to the program in which the student is enrolled. A list of approximate costs and items needed can be provided by the department of interest. Purchase is directly related to the College's Policy of Ownership.

Policy of Ownership: All projects produced by the student with institutional supplies, materials, tools, and equipment are the property of the College. However, students have the option of purchasing their own supplies, materials, and tools. The projects produced are then the personal property of the student, and the College will charge only for the institutional consumables used by the student in producing the project.

Academic Information & Policies

TUITION

Tuition and registration fees, set by the North Carolina State Board of Community Colleges and the General Assembly, are subject to change. Tuition and fees are payable at registration.

Tuition for full-time in-state students carrying 16 or more semester hours credit is \$624 (\$39 per credit hour). Tuition for full-time out-of-state students carrying 16 or more semester hours credit is \$3,052.00 (\$190.75 per credit hour).

Currently, North Carolina residents age 65 and over may be exempt from tuition in accordance with Chapter 606 of the 1975 Session Laws. However, this tuition waiver does not apply when students over age 65 are enrolled under the Course Repetition Policy or in Self-Supporting Classes. **This tuition waiver is established by the North Carolina State Board of Community Colleges and the General Assembly and is subject to change.**

Community college students desiring to enroll in two or more colleges without paying additional tuition must provide a letter from the home college stating enrollment and tuition status as outlined in the Concurrent Enrollment Policy.

TUITION CLASSIFICATION (RESIDENCY)

A legal resident of North Carolina is one who has established residence in this state. Students should know their residence status for tuition payment and understand the regulations governing residence status.

General Statute 16-143.1 (b) passed by the 1973 General Assembly of North Carolina reads:

To qualify for in-state tuition, a legal resident must have maintained his/her domicile in North Carolina for at least the 12 months immediately prior to his/her classification as a resident for tuition purposes. **In order to be eligible for such classification, the individual must establish that his/her presence in the state during such twelve month period was for purposes of maintaining a bona fide domicile rather than for purposes of mere temporary residence incident to enrollment in an institution of higher education;** further (1) if the parents (or court appointed legal guardian) of the individual seeking resident classification are (is) bona fide domiciliaries of this state, this fact shall be *prima facie* evidence of domiciliary status of the individual applicant and (2) if such parents or guardian are not bona fide domiciliaries of this state, this fact shall be *prima facie* evidence of non-domiciliary status of the individual.

Because a student lives in North Carolina for one year does not guarantee resident status has been met. The student must satisfy requirements set forth by the General Assembly of North Carolina and the State Residence Committee. A copy of these policies and procedures is available for review in Student Services.

REFUNDS

Lab & Activity Fee Refunds

Lab and/or activity fees collected at registration will be refunded only in the event of a 100% withdrawal by the student prior to the beginning of the semester/term or in the event that a class in which the student is officially registered fails to materialize due to insufficient enrollment. All student refund requests will be disbursed two weeks from receipt in the Business Office.

Tuition Refunds

If a student has to withdraw from the College or drop a class(es), tuition refunds may be granted. Requests for tuition refunds must be made to Student Services. A tuition refund shall not be made except under the following circumstances:

1. A 100 percent refund shall be made if the student officially withdraws prior to the first day of class(es) of the academic term as noted in the Academic Calendar. Also, a student is eligible for a 100 percent refund if the class in which the student is officially registered fails to materialize due to insufficient enrollment.
2. A 75 percent refund shall be made if the student officially withdraws from the class(es) prior to or on the official 10 percent point of the term.
3. For classes beginning at times other than the first week (seven calendar days) of the term, a 100 percent refund shall be made if the student officially withdraws from the class prior to the first class meeting. A 75 percent refund shall be made if the student officially withdraws from the class prior to or on the 10 percent point of the class.
4. Refunds are not permitted by law, under most circumstances, after the 10 percent point of the term.

In addition, where a student, having paid the required tuition for a term dies during the term (prior to or on the last day of examinations at the College the student was attending), all tuition and fees for the term may be refunded to the estate of the deceased. (Since a curriculum student is charged hour-for-hour up to 16 credit hours, a refund is not applicable unless the credit hours enrolled were reduced to less than 16.)

Tuition Refunds for Title IV (Financial Aid) Recipients

Students who are attending Montgomery Community College for the first time and who receive Title IV funds are subject to pro rata refund calculations as specified by the Department of Education. Should such a student withdraw on or before the 60 percent point of the enrollment period, the College will utilize either the current state policy or statutory pro rata refund (whichever calculates the larger refund). Refunds on behalf of student financial aid recipients must be distributed in the following order (based on MCC's current Title IV Participation Agreement):

1. Federal Pell Grant
2. Federal Supplemental Educational Opportunity Grant
3. Other student financial aid programs (Title IV)
4. Other federal, state, private or institutional sources of aid
5. The student

Academic Information & Policies

The Higher Education Amendments of 1998 have replaced all prior statutory language concerning the return of Title IV funds. The effective date of the new provisions was October 7, 2000. The new provisions are published in the *Montgomery Community College Financial Assistance Handbook*.

FINANCIAL ASSISTANCE

The primary purpose of student aid is to provide financial resources to students who would otherwise be unable to pursue post-secondary education. The Financial Aid Staff at MCC will attempt to meet the needs of all students, to the extent funding will permit, in an ethical manner.

Most financial assistance is awarded on the basis of demonstrated financial need. Though it is felt that the primary responsibility for financing post-secondary education rests with the student and his/her family, every effort is made to provide necessary supplemental funding to insure that no student is denied the opportunity to attend Montgomery Community College due to financial limitations. Strict confidentiality is maintained in regard to all aspects of financial assistance.

To apply for financial aid, students must complete the **Free Application for Federal Student Aid (FAFSA)**. These forms are available in the Student Services Division.

Essentially, aid is packaged from the following sources: **Pell Grant, SEOG (Supplemental Grant), Federal Work Study and scholarships**. In addition, Vocational Rehabilitation and several specific scholarship awards are available through the Financial Aid Office. Financial assistance for childcare services may be available to applicants who meet certain federal guidelines. Childcare financial assistance is dependent upon available funding. The Financial Aid Staff is available to assist individuals with information or completion of application forms in connection with financial assistance. All Title IV (financial aid) recipients are responsible for following specific guidelines and regulations concerning Title IV programs. These specific guidelines and regulations are listed in the Financial Assistance Handbook.

VETERAN INFORMATION. MCC is approved by the North Carolina State Approving Agency for the enrollment of persons eligible for educational assistance benefits from the U.S. Department of Veteran Affairs (VA). Entitled veterans, eligible spouses and dependent children who have been fully accepted and have registered for classes may be CERTIFIED to the U.S. DVA Regional Office as enrolled and in pursuit of an approved program of education.

The veteran student is responsible for requesting copies of transcripts from the last high school and all colleges attended. Official transcript(s) are required and must be sent directly from all previously attended schools to Montgomery Community College. **Students cannot be certified to receive benefits until all transcripts have been received and evaluated.**

Academic Information & Policies

Note: MCC is a Servicemembers Opportunity College [SOC] and serves as a home college for servicemembers and their adult family members enrolling in degree programs that are part of the SOCAD system.

WORKFORCE INVESTMENT ACT (WIA). The Workforce Investment Act (WIA) is a federally funded program designed to assist students that are determined to be economically disadvantaged individuals the opportunity to participate in a one- or two-year occupational training program through the Community College System. The purpose of the WIA program is to discontinue the need for subsidized income by training individuals to successfully enter the workforce. If the student is eligible, the WIA program will assist the student with tuition, fees, special supplies, books, and insurance. The program also provides additional services including counseling, career assessment, job development and job search assistance. To maintain eligibility, the student must maintain a grade point average of 2.0 or better in each semester that they are enrolled. In order to determine eligibility, all applicants must verify income for six months prior to application, supply proof of age (driver's license or birth certificate) and Social Security Number. By law, male applicants are required to submit proof of selective service registration. Strict confidentiality is maintained in regard to all aspects of the WIA program.

STUDENT LIFE

Students at Montgomery Community College have specific educational needs. They are learning a trade; learning for advancement on a present job; learning to read; expressing themselves on paper or on canvas; preparing to enter a four-year college; preparing for a new career; and learning because of intellectual curiosity. Some are employed full-time; some part-time; and some are unemployed or retired. Many have family and job responsibilities. From this diversity of people, comes one common factor — each is an individual with a desire to learn.

Montgomery Community College offers a formal education in a relaxed atmosphere. Classrooms and restrooms are designed to be easily accessible to handicapped students. Lounge areas are available where students may eat, relax, and visit with each other.

Academic Information & Policies

CAMPUS CRIME REPORT

Under the Student Right-to-Know and Campus Security Act, Montgomery Community College must report crime incidences in an annual security report that contains certain statistics, policies and a description of programs that promote campus safety. This report is on file and is available for review in the business office.

<u>Crime</u>	<u>2000</u>	<u>2001</u>	<u>2002</u>
Aggravated Assault	0	0	0
Burglary	0	0	0
Motor Vehicle Theft	0	0	0
Criminal Homicide	0	0	0
Sex Offenses	0	0	0
Robbery	0	0	0
Arson	0	0	0
<u>On-Campus Referrals</u>			
Drug Abuse Violations	0	0	0
Liquor Law Violations	0	0	0
Weapons Possession Violations	0	0	0
<u>On-Campus Arrests</u>			
Drug Abuse Violations	0	0	0
Liquor Law Violations	0	0	0
Weapons Possession Violations	0	0	0

CHILD CARE SERVICES

Montgomery Community College offers daytime services on a space-available basis for children of faculty, staff, students, and community citizens. Children must be between 3 years of age to kindergarten age for services. A fee is charged for childcare services.

Note: Due to insurance regulations, children are not allowed to accompany a parent to class or *to be left unattended on campus. The College assumes no liability for injuries incurred by children on campus.*

CIVIL RIGHTS COMPLAINTS (DUE PROCESS)

Students who feel they have been deprived of their civil rights should express their grievance in writing to their advisor with a copy going to the MCC Accounting Specialist. Should the complaint involve the advisor in such a way that the student feels he/she cannot take the complaint to the advisor, then the initial written complaint may be made directly to the Accounting Specialist. If the Accounting Specialist is unable to resolve the complaint, the student may appeal in writing to the Montgomery Community College AD HOC Compliance Committee. This committee is composed of the Dean of Instruction (for curriculum students) or the Dean of Continuing Education & Community Services (for Continuing Education students) and two other representatives to be designated by the President of the College.

Academic Information & Policies

If the Committee is unable to resolve the complaint, further institutional appeal may be made in writing directly to the President of the College. If the complaint remains unresolved, the student should follow steps D and E under **Procedural Due Process** in the **Student Conduct and Code** section of the Student Handbook. Further appeals may be made directly to the Office of Civil Rights, U.S. Dept. Of Education, 101 Marietta Tower Suite 2300, Atlanta, GA 30323.

COUNSELING AND ASSESSMENT SERVICES

Counseling and assessment services are designed to give professional assistance to students. Information concerning entrance and graduation requirements, financial assistance, employment trends, job opportunities, transfer opportunities, labor market information, student activities, and appropriate referral to support agencies are some of the services provided. Students are seen on a walk-in basis or by appointment made with the Counselor, whose office is located in Building 100 in the Career Center.

Additionally, Montgomery Community College offers effective and comprehensive **Career Center** services to its students, alumni and citizens in the community. These services include academic vocational assessment, career planning and development, job seeking/retention and employment referrals, and career counseling. The Career Center houses a library of current occupational and educational information including books, pamphlets, videos, and computer-assisted career planning and employment-related information. Students who are unsure of their vocational interests are encouraged to take an interest or personality inventory.

While students may receive services and assistance from WIA, the College has also coordinated additional JobLink services with the Employment Security Commission (ESC), Department of Social Services (DSS with WorkFirst); Vocational Rehabilitation (VR), and Montgomery County Schools (JobReady/School-to-Work) program.

Counseling services are designed to give professional assistance to students with academic, career and life skills, and personal concerns.

Academic counseling is provided to assist students in understanding the various types of curriculum programs that are available at the College. Clarification of program qualifications and prerequisites are carefully explained. Academic tutorial assistance may be provided to students who may be in jeopardy of academic failure. Students are encouraged to contact the Counselor early in the semesters to arrange for tutorial assistance.

Career and personal/life skills counseling is provided to assist students in career/decision-making skills, job-seeking skills, employment referrals, assessment and testing, and personal/life skills. When necessary, the Counselor may make (with the student's permission) referrals to community resources and/or agencies if additional assistance is needed to secure academic success while in College.

Academic Information & Policies

Students with special needs/disabilities may receive auxiliary support services as well to assist in reaching their academic goals. Reasonable accommodations may be provided to help secure academic success on campus and in the instructional setting. It is the student's responsibility to notify the Counselor if special services are needed. Appropriate documentation of any special need or disability is required prior to receiving services rendered by the College.

Transfer counseling is provided to assist students who are interested in transferring to a four-year institution. The Counselor works along with the student's advisor to secure a transfer process that will result in a positive transition both personally and academically. Information concerning college transfer opportunities is located in the Career Center.

STUDENT INFORMATION ACCESS AND RELEASE

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT

The Family Educational Rights and Privacy Act of 1974 provides many safeguards regarding the confidentiality of and access to student records.

1. Students may review their educational records by making a written request to the Registrar.
2. Student records will not be reviewed by third parties unless permission is obtained in writing from the student. Exceptions may be made for instructors and administrators if the information is for educational purposes. Exceptions may also be made for parents who claim the students as dependents and for auditing or accrediting organizations. The Dean of Student Services will make the final decision concerning access to records.
3. Official transcripts will be issued only when a written request is received from the student. Transcripts from high schools or other colleges will not be released.
4. MCC does not publish or distribute directory information or any personally identifiable information.
5. Authorities with court orders are permitted to review records in the presence of Student Services administrative staff only.

FIRST AID

First aid kits are located in Student Services. Accidents that happen in class should be reported to the instructor and to the Student Services Office.

HOUSING

Since the College has no dormitory facilities, students who wish to live away from home must make their own living arrangements. The College takes no responsibility for locating or supervising student housing. Students are encouraged to use student bulletin boards, local newspapers, and a list of local Realtors as tools in obtaining housing.

ORIENTATION

All new students are expected to participate in an orientation program conducted by the Student Services Staff. The purpose of orientation is to acquaint the student with the campus, faculty, student leaders, and support services, as well as to discuss policies and regulations of the College. Topics may include: calendar of events, student conduct, academic advising process, financial assistance, veteran benefits, student activities, child care facilities, attendance policy, withdrawal from class or college, grading system, grade reports, refund policy, placement policy, counseling services, transitional studies program, high school and GED completion information (when applicable), SGA, catalog revisions, policies and procedures regarding educational records and privacy of those records, and procedural due process.

STUDENT ATTIRE

Montgomery Community College frequently has prospective students, employers and other visitors on campus. In addition, companies seeking to relocate or open new industries may have representatives visiting the campus. Therefore, although MCC students may dress informally, students are encouraged to be clean and dress properly. To ensure safety and to minimize disruptions to other students, shirts and shoes are required at all times.

STUDENT CONDUCT

Students are expected to conduct themselves like mature adults at all times. Violations are handled in accordance with policies set forth in the **STUDENT CODE** which is printed in the *Student Handbook*.

STUDENT GOVERNMENT ASSOCIATION (SGA)

All curriculum students at Montgomery Community College are members of the Student Government Association (SGA) and have the opportunity to participate in the organization and control of student affairs. The SGA is the official governing agency representing the students. Students receive experience in responsible citizenship through participation in student government activities. Activities such as sports, dances, picnics, socials, and student publications are supervised and approved by the SGA, the SGA advisor, and the Dean of Student Services, as well as the President's Administrative Cabinet at the College.

Academic Information & Policies

SGA Clubs & Organizations. There are various clubs and organizations at Montgomery Community College for students to join. Each club/organization has a faculty or staff advisor and an elected representative to the Student Government Association. (More information on each club is available in the *Student Handbook*.) MCC clubs/ organizations are:

Alpha Beta Chi (ABC: Early Childhood Club)
Autobody Club
Business Technologies Club
Criminal Justice Club
Epsilon Sigma Pi (ESP: EMS)
Forestry Club
Gunsmithing Society
Human Services Club
Literary Guild
Medical Assisting Club
Pottery Club
Practical Nursing Club
Sigma Kappa Delta (English Honor Society)
Student Ambassadors

STUDENT RESPONSIBILITIES

All students are responsible for the proper completion of their academic program. They must also maintain the required grade point average, know their academic standing, and meet all graduation requirements. Advisors and counselors are available to assist students, but final responsibility for program requirements rests with the student.

STUDENT SERVICES

The mission of Student Services is to provide high quality service to all students. Student Services professionals work in partnership with faculty and other college personnel to help ensure that student success in a broad sense is possible through strategies that develop knowledge, skills, good attitudes, self-determination and the ability to control one's environment.

Student Services activities include: admissions, assessment, counseling (academic, career and personal), registration and records, financial aid, veterans assistance, public relations, job referral, transfer student assistance, recruiting and coordination of student activities.

TELEPHONES

Public telephones are located in the Student Lounge area in Building 100 and in the Main Lobby of Building 200. Callers should be considerate of fellow students and limit calls to ten minutes. NOTE: Only in cases of an emergency will messages be delivered to students in class.

TRANSCRIPTS

Upon written request, the College will provide students with copies of their academic and financial aid transcripts. Students may receive or have transmitted, copies of transcripts only on themselves. MCC reserves the right to deny transcripts or copies of records not required to be made available by the Family Educational Rights and Privacy Act in any of the following situations:

1. the student has an unpaid financial obligation to the College;
2. the student has an overdue library book(s), equipment, or materials belonging to the College; and
3. there is an unresolved disciplinary action against the student.

TUTORIAL SERVICES

The College provides tutorial services for those students who may be at risk of academically failing a course. The referral process may occur under the following conditions:

1. ***Instructor Referral*** -The instructor may refer a student to the Counselor for tutorial services based on the individual's academic performance in class.
2. ***Student Referral*** -The student may refer themselves for tutorial services if they feel that they do not have a clear understanding of the course content, based on the results of the instructor's academic assessment.

Students interested in tutorial assistance should consult with the Counselor in the Career Center. Final authorization for tutorial services lies with the Dean of Instruction.

Academic Information & Policies

ACADEMIC ADVISING

Academic advising is a process that assists students in the clarification of their life/career goals and in the development of educational plans for the realization of their goals. It is a decision-making process by which students realize their maximum educational potential through communication and information exchanges with an advisor. Academic advising is ongoing and multifaceted, and is the responsibility of both student and advisor. The advisor serves as a coordinator of learning experiences through course and career planning and as a consultant concerning class performance, problems, and college activities. The advisor also serves as an agent of referral to other campus agencies as necessary. Each student is assigned an academic advisor from his/her major field of study after acceptance.

ACADEMIC FORGIVENESS POLICY

MCC recognizes that certain factors (age, maturity, preparation, etc.) play important roles in a student's academic progress. Therefore, after a five (5) year period of time, below average performance on prior work attempted may no longer be used to compute the student's GPA.

ACADEMIC LOAD (CREDIT HOURS)

A full-time student is one who is enrolled in 12 or more hours of course work per term. Average full-time enrollment for most students will vary between 16 and 21 hours of credit. Students who wish to carry more than 22 credit hours must have prior approval from their academic advisor unless their curriculum requirements, as stated in the Catalog, require more than 22 hours in a term. This includes all credit hours from concurrent enrollment arrangements with other post secondary institutions. Course schedules and course loads should be planned through consultation with a counselor and approved by the student's advisor.

Academic Information & Policies

Each course listed is followed by a notation on the number of semester hours credit it carries. Normally, the number of semester hours earned is based on the number of class, laboratory, or shop hours spent under the supervision of the course instructor per week for the term. One semester hour credit is given for each hour of class per week; for each two hours of laboratory work per week; for each three hours of manipulative laboratory or shop per week; or for each ten hours of practicum per week. Contact hours are the number of actual hours a student is in attendance during one week.

ADVANCED STANDING

Montgomery Community College has established policies and procedures which may permit students to enter certain curriculum programs with advanced standing. The following means of awarding credits are approved by the College but are not used in GPA calculation and will generate no grade points.

ADVANCED PLACEMENT FOR HIGH SCHOOL STUDENTS (AP). The College Entrance Examination Board (CEEB) sponsors an advanced placement program that enables high school students to complete college-level courses while still in high school. CEEB examinations are offered in the high school by Educational Testing Service (ETS). Students wishing to receive credit for CEEB Advanced Placement tests must have their scores submitted to the Registrar for evaluation.

Any student who has passed either AP English exam with a score of 3 or higher will be exempted from the Writing and Reading Skills sections of ASSET/COMPASS and will be given college credit for ENG 111 Expository Writing.

Any student who has scored 3 or higher on the AP language and composition component and a 4 or higher on the literature and composition component will receive credit for ENG 111 Expository Writing and one elective course in humanities.

ADVANCED PLACEMENT FOR EARNED HIGH SCHOOL CREDITS. Students may earn credit for college-level courses based on completion of specified high school courses through articulation agreements with Montgomery Community College. For a complete list of high school courses and their MCC equivalents, contact an area high school counselor or the Registrar at MCC.

ARMED FORCES AND SERVICE SCHOOLS, PROFESSIONAL CERTIFICATION, AND EXPERIENTIAL LEARNING. Students desiring credits for experiences through the military service, professional certification, and experiential learning must do so through the Credit-by-Examination Policy. (Exception: EMS bridging students may provide documentation of state and/or national exam certifications in lieu of Credit-by-Examination. Students transferring credits from the Community College of the Air Force may do so in accordance with the Transfer of Credit Policy.)

Academic Information & Policies

COLLEGE LEVEL EXAMINATION PROGRAM (CLEP). Credit may be allowed for up to 25 percent of college work based on appropriate scores of the CLEP subject area exams. CLEP subject examinations are evaluated based on the American Council on Education's (ACE) recommended scores where appropriate to the student's program of study. Recommended scores may be obtained from the Admissions Officer or the Counselor.

CONTINUING EDUCATION UNITS (CEU's). Students desiring to transfer credits into the curriculum division from a course completed while enrolled in a Continuing Education Program at an accredited post-secondary institution may do so according to the following guidelines:

1. The Student Services Staff will assess whether the courses or units are relevant to curriculum.
2. Credit hours will be awarded at a value of one-tenth (1/10) of the total contact hours successfully completed.
3. All passing grades (C or above) will be considered for credit. No CEUs will be used in computing the GPA.
4. No more than 25 percent of the curriculum's total credit hours required for graduation can be continuing education units.
5. Proficiency examinations may be required before CEU credits are awarded.

CREDIT-BY-EXAMINATION. A student who can demonstrate proficiency in a subject area may request a credit-by-examination in that subject in order to accelerate his/her studies. A student requesting this type of credit must follow specified guidelines. The student must:

1. Register for the course according to regular registration procedures set forth by the College. Registration for the course is waived if credit is awarded through the North Carolina High School to Community College Articulation Agreement, for college credit in English and literature through the school Advanced Placement AP) courses, for courses through approved professional certifications in the EMS program and for any regularly scheduled approved Credit-by-Examinations given prior to registration.
2. Complete the Application for Credit-By-Examination unless the course has been given prior approval to be administered on an individual or group basis.
3. Submit the completed application to the appropriate divisional chairperson or lead instructor and Dean of Instruction.
4. Schedule a time to complete the test with the assigned supervising instructor. The examination should be completed prior to the end of the drop/add period to afford the student the opportunity to add another class in its place. The credit-by-examination **must** be completed by the 10 percent reporting date of the term of application for credit to be awarded.
5. Complete a drop/add form if the examination is successfully completed. Tuition refunds will not be issued for credit hours earned through credit-by-examination.
6. The credit-by-examination may be attempted only once for each course. A student who has previously received a grade of "F," "D," or "I," for the course is not eligible to attempt a credit-by-examination for that course.

TRANSFER OF CREDITS

Applicants wishing to transfer credit from another accredited institution of higher education must request official transcripts showing credit earned before any evaluation toward credit can be made. No grade lower than a "C" may be transferred. All course credit will be evaluated on merit and relevance. Course credit over ten (10) years old must be approved by the Dean of Student Services.

For Practical Nursing students, major courses and Anatomy and Physiology credits must have been completed within the last three (3) years to be considered for credit. The College reserves the right to accept or reject credits earned at other institutions or to require the successful completion of appropriate proficiency through the Credit-By-Examination Policy before awarding credits. The final decision on transfer credit is determined by the Dean of Student Services.

ADVERSE WEATHER POLICY (MCC CLOSING)

Should it be necessary to close the College due to severe or adverse weather conditions, the announcements will be made on the radio and television stations listed below and on the MCC telephone (voicemail) if there is electrical power at the College. (Note: severe weather may include snow, sleet, freezing rain, severe thunderstorms, flooding, tornadoes, and hurricanes.)

TV Channels:

ATTENDANCE

Students are expected to attend all scheduled classes for which they are registered. Although special circumstances may cause a student to be absent, regular attendance is essential to satisfy regular course objectives. The instructor will evaluate student absences and will determine whether absences are excused or unexcused. Students who anticipate an absence should contact the instructor before the class meets. Should prior notice to the instructor be impossible, the student should expect to explain the absence upon return to class.

All work missed during absences must be made up. Failure to make up work which is missed will adversely affect the student's final grade for the course. To receive credit for a course, a student must attend 80 percent of class and 80 percent of lab hours. When absences total more than 20 percent of the total contact hours for the course, a student *will be dropped* from a class. If extenuating circumstances exist, the drop may be waived by the Dean of Student Services.

When students are absent from class excessively, the instructor should initiate follow-up procedures by (1) contacting the student, and (2) notifying Student Services prior to the student missing 20 percent of the class. Additionally, Instructors must notify Student Services in writing (Unofficial Drop Form) when dropping a student from their class.

CATALOG OF RECORD

Montgomery Community College operates under the semester system. Fall and Spring semesters are each sixteen (16) weeks in length. Summer Sessions are eight to ten (8-10) weeks in length. Students in continuous attendance (summer term excepted) may graduate under the provisions of the catalog in effect on their date of entry into their current curriculum or under the requirements of a subsequent issue. Students not in continuous attendance must graduate under the provisions of the catalog in effect on their last entry date into the curriculum or subsequent issues. The catalog of record for a student who does a change of major is the catalog in effect at the time the change of major is effective.

CLASS/PROGRAM CANCELLATIONS

Montgomery Community College makes every effort to meet the needs and desires of its students. However, special circumstances may require the College to cancel classes or programs due to insufficient enrollment or funding. The College reserves the right to make such decisions as warranted. Students will receive 100 percent tuition refunds in the event of class or program cancellations or students may choose another class or program.

COURSE REPETITION POLICY

For membership hour reporting purposes, a student may not take a course more than twice in a five year period. Additionally, a course may not be taken twice during the same term on either a credit or an audit basis. Regular tuition charges apply for students repeating a class. Any student who has completed a course with a grade of "C" or better may not displace a new student for the course. This policy applies to students in both categories listed below:

1. **Improving Academic Standing.** A student may repeat courses in which he/she has earned a grade below a "C" in an effort to earn a higher grade or raise the overall Grade Point Average (GPA). The higher of the grades will be used as the grade of record in computing the cumulative GPA. All grades received will remain on the student's transcript.
2. **Improving Mastery of Course Content.** A student may repeat a course that he/she has already completed to add to his/her mastery of course content.

COURSE RESIDENCY REQUIREMENTS

A minimum of 25 percent of the total number of credit hours required for graduation in a particular program **must** be taken at Montgomery Community College. No more than 75 percent of required credit hours can be accepted as transfer credit.

COURSE SUBSTITUTION POLICY

Substitution courses must be approved by the appropriate divisional chairperson or the Dean of Instruction. Course substitutions by students will be very limited and must be of a special nature. The College reserves the right to substitute courses whenever necessary and in the best interest of the students or the College. Course substitutions may not exceed 25 percent of the credit hours required for graduation.

GRADING SYSTEM

Montgomery Community College uses a grade-point system to determine each student's academic standing. This standing is determined by the Grade-Point Average (GPA). To determine the GPA, numerical values called "grade points" or "quality points" are assigned to each grade. Grade points are assigned for each letter. A letter grade is used to indicate the quality of a student's work in a course. The grading systems is as follows:

<u>Grade</u>	<u>Explanation</u>	<u>Quality Points Per Credit Hour</u>
A (93-100)	Outstanding	4
B (86-92)	Above Average	3
C (78-85)	Average	2
D (70-77)	Passing	1
F (Below 70)	Failure	0
I	Incomplete	No Credit
W	Official Withdrawal	No Credit
AU	Audit of a Course	No Credit
CE	Credit by Proficiency Exams	
S	Satisfactory Progress	
U	Unsatisfactory	
CT	Credit by Transcript	Transfer Credit
NG	No Grade Issued by Instructor	No Credit
*	An asterisk immediately following a grade indicates that the course is not applicable to the student's current program of study, that the course has been repeated, or that the grade was earned in a transitional course. These grades are not included in the totals for GPA calculations.	

Marks of AU, CE, and CT are not considered as credit hours attempted nor are quality points awarded. The mark of CE will result in the recording of proper credit hours according to the course's assigned value. Incomplete (I) will be given when circumstances justify additional time to complete the course. Any incomplete grade not removed by the end of the succeeding term will be changed to an "F," unless additional time is granted by the

Academic Information & Policies

instructor. Incomplete grades will not be considered for credit hours attempted until the grade is changed by the instructor or is reverted to an "F" due to lack of proper action by the student. When removing an incomplete grade, the student should not re-register for the course but work with the instructor on an open-lab basis.

GRADE CONTESTING POLICY

All students enrolled in classes at Montgomery Community College have the right to contest grades assigned to them. The following procedures should be followed:

1. Students should schedule an appointment to discuss the matter with the instructor who has assigned the grade and request that the instructor review the basis for the grade. If the disagreement about the grade is resolved in this discussion, grade change action, where needed, should originate through the instructor.
2. If not resolved here, the student may present his/her case in writing to the appropriate divisional chairperson or lead instructor.
3. A final review may be made by the Dean of Instruction in consultation with the Dean of Student Services and/or all individuals involved. If the grade is declared invalid and set aside, the student may be given a comprehensive examination by the department involved to establish a grade.

The right to contest a grade expires at the end of the term following the one in which the grade was assigned. The time limit will be waived only in unusual circumstances. When a student contests a grade assigned by an instructor no longer employed by the College, Step One above does not apply. The Grade Contesting Policy should be followed to prevent future academic probation or suspension action. This is the first step in the appeals process for academic probation and suspension policies.

GRADUATION REQUIREMENTS

A student must:

1. Satisfy course requirements by completing at least 25 percent of the semester credit hours in a degree, diploma or certificate program through instruction offered by the institution awarding the degree
2. Be enrolled at MCC during the term for which program requirements are completed. This may be waived only when extenuating circumstances exist and with the approval of the Dean of Student Services and the appropriate instructor. (Note: MCC is a Servicemembers Opportunity College [SOCAD] and serves as a home college for servicemembers and their adult family members enrolling in degree programs that are part of the SOCAD system.)
3. Complete the prescribed courses to meet the minimum number of credit hours required for a degree, diploma, or certificate.
4. Possess an overall 2.00 GPA.
5. Remove all financial obligations to MCC.
6. Associate degree students must satisfy the reading competency specified by the College.

HONORS AND AWARDS

ALL-AMERICAN SCHOLAR PROGRAM. The All-American Scholar program includes students who have earned a 3.30 or higher grade point average. Students are nominated by faculty and Student Services staff.

ALL-USA ACADEMIC TEAM. The All-USA Academic Team includes students who are pursuing an Associate of Arts, Associate of Science or Associate of Applied Science degree. Students must have a cumulative grade-point average of not less than 3.25. Two students are eligible for nomination each academic year.

DEAN'S LIST. The Dean's List is composed of students who are enrolled for at least 12 semester hours credit, excluding developmental studies hours and proficiency hours, and earn a GPA of at least 3.00 in their major for the term with no incomplete grades and no grade lower than a "B."

HONORS LIST. The Honors List is composed of students who are enrolled for 6-11 semester hours credit, excluding developmental studies hours and proficiency hours, and earn a GPA of at least 3.00 in their major for the term with no incomplete grades and no grade lower than a "B."

MINORITY LEADERSHIP AWARDS. The National Collegiate Minority Awards includes students who have demonstrated dependability, citizenship, leadership, enthusiasm, responsibility and support of his/her College. A minimum grade point average of 3.00 is required. Students are recommended by faculty and Student Services staff.

NATIONAL DEAN'S LIST. This is a national foundation that recognizes outstanding students. Students awarded this distinction are eligible for the foundation's scholarships. Students are nominated by the Registrar and must complete a biographical data form before they are officially inducted into the National Dean's List Foundation.

PRESIDENT'S LIST. The President's List is composed of students who are enrolled for at least 12 semester hours credit, excluding developmental studies hours and proficiency hours, and earn a GPA of 4.00 in their major for the term with no incomplete grades.

WHO'S WHO AMONG STUDENTS IN AMERICAN JUNIOR COLLEGES. Students are chosen for nomination to Who's Who on the basis of scholarship ability, participation and leadership in academic and extracurricular activities, citizenship and service to Montgomery Community College, and potential for future achievement.

INDEPENDENT STUDY

Students may, if unusual circumstances exist, register for Independent Study in some classes. Students must complete the Application for Independent Study and obtain approval from the supervising instructor, divisional chairperson and the Director of Academic Programs. Completed applications should be submitted to the Registrar at least one week prior to the student registering. After a student is registered for an independent study class, he/she must arrange a study time with the instructor of the class and must meet with the instructor at least once prior to the 10 percent reporting date for the class. Students not following this procedure will be dropped from the independent study class. The student's registration form will show a scheduled time for independent study. However, the time is used for computer purposes only and may not be the actual time a student is meeting with the instructor. Each meeting time is individually scheduled by the instructor with each student registered for independent study.

The fees charged for independent study are the same as those fees charged for in-class credit courses. Certain curricula, because of special requirements, may not be approved for independent study. Those students receiving veteran benefits or financial aid are not eligible for independent study for pay purposes except when approved for special study in transitional studies courses.

INMATE EDUCATION

Montgomery Community College offers educational programs and courses to the residents of the local prison system. The local system includes Southern Correctional Institution and Southern Correctional Institutional Minimum Unit.

REGISTRATION

Courses are offered as outlined in each program area. Each individual must officially register for each course he/she attends. Registration is held at designated times each term as indicated in the Academic Calendar. Student Services will notify new applicants concerning times and other special registration procedures. Registration is not complete until all fees are paid or deferred by the Business Office and the student obtains a receipt from the Business Office. The receipt and registration form must be presented to each instructor upon enrolling in any course. No person can participate in or attend any course unless he/she is officially registered.

SOCIAL SECURITY NUMBERS

Social Security Numbers are used for the purpose of identification only. Students desiring that their Social Security Number not be used for this purpose should contact the Registrar. A number will be assigned in lieu of the Social Security Number. The assigned number will be used on all academic records including transcripts, registration forms and grade reports. (Note: A student's actual Social Security Number is required for all financial aid programs and services.)

STANDARDS GOVERNING STUDENT ENROLLMENT

ACADEMIC STANDARDS OF PROGRESS. Each student is expected to maintain satisfactory academic progress toward a degree, diploma or certificate. At the end of each term, a student's GPA for that term and his/her cumulative GPA are examined. *Special Standards of Progress for Emergency Medical Science, Practical Nursing, and Medical Assisting students are published in the Emergency Medical Science Handbook, Medical Assisting Technology Handbook, and Practical Nursing Handbook. These standards replace those for curriculum students.*

GRADE POINT AVERAGE TO DETERMINE STANDARDS OF PROGRESS. The Grade Point Average is computed by dividing the total quality points earned by the total credit hours attempted. A student whose cumulative GPA falls below the standard listed in the following chart will be placed on academic probation. To satisfy graduation requirements, a 2.00 cumulative GPA is required for A.A., A.S., A.G.E., A.A.S., diploma and certificate programs.

<u>Attempted Credit Hours</u>	<u>Degree & Diploma Programs</u>	<u>Associates in Arts & Sciences</u>	<u>Certificate Programs</u>
1 - 18	1.00	2.00	2.00
19 - 35	1.50	2.00	2.00
36+	2.00	2.00	2.00

Satisfactory Academic Progress for Financial Aid. Financial aid recipients must meet satisfactory progress standards that are both **qualitative and quantitative**. These standards are governed by the U.S. Department of Education and Montgomery Community College.

Qualitative measurement of satisfactory progress. Each financial aid recipient must abide by the currently approved institutional policy of satisfactory progress published in the Catalog. Students failing to obtain the required GPA in any term will be placed on financial aid probation. Students receiving financial aid must progress toward successful program completion at an acceptable rate. The maximum time frame for program completion for all financial aid recipients may not exceed 150 percent of the published length of the program measured in credit hours. For example, if a program requires 60 credit hours to complete, the student will be allowed 90 credit hours to complete the program and still receive financial aid. Students receiving Federal financial assistance will be allowed to pursue one major and one minor simultaneously. However, the standards of satisfactory progress must be met for each program and will be evaluated each term.

Academic Information & Policies

Quantitative measurement of satisfactory progress. To insure that each financial aid recipient is progressing toward successful program completion, each student is required to complete 67 percent of all credit hours attempted. Credit hours attempted and completed will be evaluated at the end of each term. All hours attempted will be counted including grades of Incomplete, Withdrawal (after the published drop/add date), repetitions, credit-by-exam and transfer credits from other institutions. Transitional courses numbered below 100 are not included in the quantitative measure. Financial aid students may attempt a total of 30 semester hours in transitional course work if testing indicates need. Financial aid students should request all transcripts from other institutions that they have attended. Students on financial aid probation may have their funds held until the end of the probation term.

Students failing to meet the standards of academic progress (both qualitative and quantitative) may receive financial assistance for one additional term while on financial aid probation, but must meet the standards by the end of that term. Students on financial aid probation who do not maintain satisfactory academic progress are subject to suspension or termination of their financial assistance. Students wishing to appeal a financial aid probation status or a suspension/termination of financial assistance must follow the Appeals Process for Academic Probation and Suspension as outlined in the College Catalog.

ACADEMIC PROBATION. Students whose academic progress is unsatisfactory as determined by the cumulative GPA will be placed on academic probation. Students on academic probation are required to consult with a counselor and may be required to reduce their course load, repeat courses, or register for transitional studies classes to strengthen their educational background. Students failing to see a counselor by the end of the term in which they are notified of probationary status will not be allowed to re-enroll for the next term. Students may remove themselves from academic probation by re-establishing the minimum GPA standing for credit hours attempted.

ACADEMIC SUSPENSION. Each term students remain on academic probation, they must earn at least a "C" average or better until the GPA standard is met. Failure to earn this average may result in academic suspension for a period of at least one term. For pay purposes, veterans and financial aid recipients may not be continued in certified status beyond one term while below the standards of progress required to graduate without special counseling and approval. The Student Services Counselor and the student's academic advisor will determine specific guidelines for the removal of academic deficiencies and the conditions for the student to continue his/her program of study.

APPEALS PROCESS FOR ACADEMIC PROBATION & SUSPENSION. The Grade Contesting Policy should be followed to prevent future academic probation/suspension action. This is the first step in the appeals process for academic probation and suspension policies.

At the discretion of the Counselor and with concurrence of the appropriate advisor, students may request a waiver of the one term suspension to continue studies, provided the Counselor and advisor determine the need for additional time for proper adjustment to the academic environment.

REINSTATEMENT FROM ACADEMIC SUSPENSION. Students must make a written request for reinstatement after having been on suspension for a minimum of one term. For the term following reinstatement, students must take the appropriate course work determined by the Counselor and may be subject to dismissal for one academic year for that particular program of study if they fail to meet conditions stipulated by the Counselor. Entry into another program of study during a suspension period may be approved only by the Student Services Counselor. No student may be reinstated from academic suspension more than two times over any consecutive three year period in the same program of study.

TRANSFER OPPORTUNITIES

COMPREHENSIVE ARTICULATION AGREEMENT. In an effort to simplify and facilitate transfer of credit between community colleges and the University of North Carolina System, the University's Board of Governors and the State Board of Community Colleges have developed and approved a Comprehensive Articulation Agreement. This agreement addresses the transfer of students between institutions in the North Carolina Community College System and from that system to constituent institutions of the University of North Carolina. It applies to all North Carolina community colleges and all constituent institutions of the University of North Carolina System. These courses are identified in the *Course Descriptions* section of this catalog.

ARTICULATION AGREEMENTS WITH OTHER PUBLIC AND PRIVATE INSTITUTIONS. Montgomery Community College also has formal transfer agreements with many other public and private four-year colleges and universities. Courses from these institutions are *not* addressed in the Comprehensive Articulation Agreement and are considered on an individual basis with each private institution. **Note:** Each institution has its own means of evaluating the appropriateness of transfer credit. The receiving institution is the final authority regarding transfer credit. Students are advised to consult a counselor at MCC and the Admission Office at the senior institution for additional information.

In addition, some senior institutions maintain a cumulative grade point average (GPA) for their students. Therefore, any grade earned at MCC may possibly be considered in computing a GPA at any senior institution. Additionally, grades lower than "C" may disqualify students from consideration under the terms of the Comprehensive Articulation Agreement (CAA) and grade point averages will be computed again by the senior institution. For final approval of courses to be transferred from MCC, students should *consult with the institution that they plan to transfer to prior to registering for the course at MCC*.

UNOFFICIAL DROP BY INSTRUCTOR

College policy requires that a student be dropped when the student gives notice of withdrawal or has been absent from class for two consecutive weeks without making personal contact with the instructor indicating intention to continue in the course. A student may also be dropped from a course for disciplinary reasons.

A student dropped for excessive absences or other reasons may be readmitted through Student Services. Permission to re-enroll will be given only with approval of the instructor. Absences must have been for a good reason and personal contact with the instructor must have been made to give or receive information or assignments relative to the course. All work missed during the period of absence must be made up to the satisfaction of the instructor. The grade issued for classes from which the student has been **unofficially dropped** is "F." Students may remove the grade of "F" by following the Official Withdrawal procedures.

WITHDRAWAL FROM THE COLLEGE

A student who wishes to withdraw from the College or from an individual course should complete an official withdrawal form in Student Services. All required signatures should be obtained as indicated on the form. This will protect the student's scholastic standing, his/her right to re-enroll, and transfer credits. No student will be allowed to officially withdraw from any classes after the term has ended.

- *Failure to officially withdraw* may result in a grade of "F" for the student on all courses for which he/she is enrolled.
- If a student completes the *Official Withdrawal* process, the student may be given a grade of "W" for his/her class(es). Quality points will not be computed nor credit given.

A student who withdraws from a course or the College *after the 75% point of the term* may be given a grade of "F" on all courses. Quality points will be computed unless the withdrawal is due to circumstances beyond the student's control. When extenuating circumstances exist, the Dean of Student Services must approve the waiver of the grade of "F."

Curriculum Programs of Study

Associate in Arts (A.A.) and Associate in Science (A.S.)

An Associate in Arts or an Associate in Science Degree consists of 64-65 semester hours credit. The curricula are designed to parallel the freshman and sophomore level course work at a four-year college or university and to transfer toward a baccalaureate degree. These college transfer programs are part of the Comprehensive Articulation Agreement. This agreement addresses the transfer of students between institutions in the North Carolina Community College System and the institutions of the University of North Carolina System.

Associate in Applied Science (A.A.S.)

An Associate in Applied Science Degree consists of 64-76 semester hours credit. Curriculum programs of study leading to an A.A.S. degree are composed of collegiate level studies and are designed to prepare students for employment as technicians in semi-professional fields.

Associate in General Education (A.G.E.)

An Associate in General Education consists of 64-76 semester hours credit. Upon successful completion of the General Education course of study, Montgomery Community College will award the Associate Degree in General Education.

Diploma and Certificate Programs

A diploma program consists of 36-48 SHC, and a certificate program consists of 12-18 semester hours credit. These curricula are designed to prepare students for skilled or semi-skilled employment in a specific occupation. Diploma and/or certificate options are offered in some A.A.S. degree programs, and credits earned from these options may be applied toward the higher level credential. These options are noted in the individual program sections of this catalog.

Curriculum Programs of Study

General Occupational Technology

General Occupational Technology is an A.A.S. degree program consisting of 64-76 semester hours credit. The program is individualized for students according to their occupational interests and needs. This program is designed to aid graduates in becoming more effective workers and becoming better qualified for advancement within their field of employment.

Developmental Studies

Developmental studies courses are designed to ensure student success in academic course work. These courses are scheduled for students who need college preparatory course work according to placement scores and who need to complete course requirements for entry into a specific curriculum. Developmental studies courses provide students with assistance through various instructional methodologies including computer-assisted instruction, classroom presentations, cooperative learning, tutoring to supplement the classroom experience, and peer-assisted review sessions. Classes may be offered in a classroom or laboratory setting and may incorporate multimedia materials to enhance the learning process. Developmental courses begin with course number "0" (i.e. Eng 070). Tuition fees apply to these courses, and the courses carry credit hours; however, the credits earned in these courses do not apply to the credit hours required for graduation in degree programs of study.

ACCOUNTING (A25100) A.A.S. Degree

The Accounting curriculum is designed to provide students with the knowledge and the skills necessary for employment and growth in the accounting profession. Accountants assemble and analyze, process, and communicate essential information about financial operations.

In addition to course work in accounting principles, theories, and practice, students will study business law, finance, management, and economics. Related skills are developed through the study of communications, computer applications, financial analysis, critical thinking skills, and ethics.

Graduates should qualify for entry-level accounting positions in many types of organizations including accounting firms, small businesses, manufacturing firms, banks, hospitals, school systems, and governmental agencies. With work experience and additional education, an individual may advance in the accounting profession.

Curriculum Programs of Study

ASSOCIATE IN ARTS (A10100) A.A. Degree

ASSOCIATE IN SCIENCE (A10400) A.S. Degree

The Associate in Arts and Associate in Science degrees are granted for planned programs of study consisting of a minimum of 64 and a maximum of 65 semester hours of college transfer courses. Courses are approved for transfer through the Comprehensive Articulation Agreement. Courses may also transfer through bilateral agreements between institutions. Courses offered through bilateral agreements may not transfer to all receiving institutions.

Curriculum Programs of Study

COURSE REQUIREMENTS FOR ASSOCIATE IN ARTS & ASSOCIATE IN SCIENCE Day & Evening Programs

			Class Hours	Lab Hours	Work Experience/ Clinical Hours	Credit Hours
<u>English Composition (6 SHC)</u>						
Two courses in English composition are required.						
ENG	111	Expository Writing	3	0	0	3
ENG	112	Argument-Based Research	3	0	0	3
ENG	113	Literature-Based Research	3	0	0	3
ENG	114	Professional Research & Reporting	3	0	0	3

Humanities/Fine Arts (12 SHC)**

Four courses from at least three of the following discipline areas are required: music, art, drama, dance, foreign languages, interdisciplinary humanities, literature, philosophy, communications, and religion. At least one course must be a literature course and one must be a communications.

ART	111	Art Appreciation	3	0	0	3
ART	283	Ceramics I	0	6	0	3
COM	231	Public Speaking	3	0	0	3
ENG	233	Major American Writers	3	0	0	3
ENG	243	Major British Writers	3	0	0	3
MUS	110	Music Appreciation	3	0	0	3
REL	221	Religion in America	3	0	0	3

Social/Behavioral Sciences (12 SHC)

Four courses from at least three of the following discipline areas are required: anthropology, economics, geography, history, political science, psychology, and sociology. At least one course must be a history course.

HIS	131	American History I	3	0	0	3
HIS	132	American History II	3	0	0	3
PSY	150	General Psychology	3	0	0	3
SOC	210	Introduction to Sociology	3	0	0	3

Natural Science/Mathematics (14 SHC)

Natural Sciences (8 SHC):

(For Associate in Arts: Two courses, including accompanying laboratory work, from the biological and physical science disciplines are required.)

BIO	111	General Biology I	3	3	0	4
BIO	112	General Biology II	3	3	0	4

(For Associate in Science: A two-course sequence in general biology or general chemistry is required.)

Courses may be chosen from the following:

BIO	111	General Biology I	3	3	0	4
BIO	112	General Biology II	3	3	0	4
CHM	151	General Chemistry I	3	3	0	4
CHM	152	General Chemistry II	3	3	0	4

Curriculum Programs of Study

			Class Hours	Lab Hours	Work Experience/ Clinical Hours	Credit Hours
Mathematics (6 SHC)						
(For Associate in Arts:	At least one course in introductory mathematics is required; the other course may be selected from among other quantitative subjects, such as computer science and statistics)					
CIS 110	Introduction to Computers		2	2	0	3
MAT 171	Precalculus Algebra		3	0	0	3
Other courses may be chosen from:						
MAT 140	Survey of Math		3	0	0	3
MAT 151	Statistics		3	0	0	3
(For Associate in Science:	At least one course in mathematics at the precalculus algebra level or above is required; the other course may be a higher level mathematics course or may be selected from among other quantitative subjects, such as computer science and statistics.)					
CIS 110	Introduction to Computers		2	2	0	3
MAT 171	Precalculus Algebra		3	0	0	3
MAT 172	Precalculus Trigonometry		3	0	0	3

Other Required Hours (20-21 SHC Electives)*

For Associate in Arts: A minimum of 20 SHC of college transfer general education, elective, and/or pre-major courses is required.

For Associate in Science: A minimum of 14 SHC of college transfer courses in mathematics, natural sciences, computer science, and/or other pre-major courses is required. The remaining 6-7 elective hours may be selected from the following:

ART 283	Ceramics I		0	6	0	4
BIO 140	Environmental Biology		3	0	0	3
BIO 140A	Environmental Biology Lab		0	3	0	1

Total Semester Hours Required For Associate in Arts degree: 64/65

Total Semester Hours Required For Associate in Science degree: 64

Notes:

- 1) All degree graduates of Montgomery Community College must demonstrate competency in the basic use of computers. To satisfy this requirement, students may utilize one of the following three options:
 - a. Provide evidence of computer courses taken in high school or at another college;
 - b. Take a computer course at MCC; or
 - c. Take the MCC Computer Competency Test.
- 2) Students must meet the receiving university's foreign language and/or health and physical education requirements, if applicable, prior to or after transfer to the senior institution.
- 3) Three (3) SHC in Speech/Communication may be substituted for 3 SHC in Humanities/Fine Arts. Speech/Communication may not substitute for the literature component.

ASSOCIATE IN GENERAL EDUCATION

(A10300)

Associate Degree

The Associate in General Education (AGE) curriculum is designed for individuals wishing to broaden their education, with emphasis on personal interest, growth and development. Course work includes study in the areas of humanities and fine arts, social and behavioral sciences, natural sciences and mathematics, and English composition. Opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and the basic use of computers will be provided. Through these skills, students will have a sound base for lifelong learning. Graduates are prepared for advancement within their field of interest and become better qualified for a wide range of employment opportunities. All courses in the program are college-level courses. Many of the courses are equivalent to college transfer courses; however, the program is not principally designed for college transfer.

Curriculum Programs of Study

COURSE REQUIREMENTS FOR ASSOCIATE IN GENERAL EDUCATION Day & Evening Program Associate Degree

General Education Core (15 SHC Total)

English Composition (6 SHC)

Humanities/Fine Arts (3 SHC)

Students may select courses from the following discipline areas: music, art, drama, dance, foreign languages, interdisciplinary humanities, literature, philosophy, communications, and religion.

Social/Behavioral Sciences (3 SHC)

Students may select courses from the following discipline areas: anthropology, economics, geography, history, political science, psychology, and sociology.

Natural Sciences/Mathematics (3 SHC)

Natural Sciences

Students may select courses from the following discipline areas: astronomy, biology, chemistry, earth sciences, physics, and/or general science.

- or -

Mathematics

Students may select courses from the following discipline areas: college algebra, trigonometry, calculus, computer science, and statistics.

Other Required Hours/Electives (49-50 SHC)

Other required hours/electives include additional general education and professional courses. A maximum of 7 SHC in health, physical education, college orientation, and/or study skills may be included as other required hours.

Courses to select from are located in the Course Description section of this Catalog (p. 114).

Total Semester Hours Required for Associate in General Education: 64/65

Curriculum Programs of Study

AUTOBODY REPAIR (D60100) Diploma/Certificate

The Autobody Repair curriculum provides training in the use of equipment and materials of the autobody repair trade. The student studies the construction of the automobile body and techniques of autobody repairing, rebuilding, and refinishing.

The course work includes autobody fundamentals, industry overview, and safety. Students will perform hands-on repairs in the areas of non-structural and structural repairs, MIG welding, plastics and adhesives, refinishing, and other related areas.

Graduates of the curriculum should qualify for entry-level employment opportunities in the automotive body and refinishing industry. Graduates may find employment with franchised independent garages, or they may become self-employed.

Note: The Autobody Repair Evening Certificate Program is offered based on student demand.

BASIC LAW ENFORCEMENT TRAINING (C55120) Certificate

Basic Law Enforcement Training (BLET) is designed to give students essential skills required for entry-level employment as law enforcement officers with state, county, or municipal governments, or with private enterprise.

This program utilizes topics and methods of instruction mandated by the State Commission. General subjects include criminal, juvenile, civil, traffic, and alcoholic beverage laws; investigative, patrol, custody, and court procedures; emergency responses; and ethics and community relations.

Successful graduates receive a curriculum certificate and are qualified to take certification examinations mandated by the North Carolina Criminal Justice Education and Training Standards Commission and/or the North Carolina Sheriff's Education and Training Standards Commission.

BUSINESS ADMINISTRATION (A25120) A.A.S. Degree/Diploma/Certificate

The Business Administration curriculum is designed to introduce students to the various aspects of the free enterprise system. Students will be provided with a fundamental knowledge of business functions, processes, and an understanding of business organizations in today's global economy.

Course work includes business concepts such as accounting, business law, economics, management, and marketing. Skills related to the application of these concepts are developed through the study of computer applications, communication, team building, and decision making.

Through these skills, students will have a sound business education base for life-long learning. Graduates are prepared for employment opportunities in government agencies, financial institutions, and large to small business or industry.

CRIMINAL JUSTICE TECHNOLOGY

(A55180)

A.A.S. Degree

The Criminal Justice Technology curriculum is designed to provide knowledge of criminal justice systems and operations. Study will focus on local, state, and federal law enforcement, judicial processes, corrections, and security services. The role of the criminal justice system within society will be explored.

Emphasis is on criminal justice systems, criminology, juvenile justice, criminal and constitutional law, investigative principles, ethics, and community relations. Additional study may include issues and concepts of government, counseling, communications, computers, and technology.

Employment opportunities exist in a variety of local, state, and federal law enforcement, corrections, and security fields. Examples include police officer, deputy sheriff, county detention officer, state trooper, intensive probation/parole surveillance officer, correctional officer, and loss prevention specialist.

CULINARY TECHNOLOGY (C55200) Certificate

The Culinary Technology curriculum provides specific training required to prepare students to assume positions as trained culinary professionals in a variety of food service settings including full service restaurants, hotels, resorts, clubs, catering operations, contract food service, and health care facilities.

Course offerings emphasize practical application, a strong theoretical knowledge base, and professionalism and provides the critical competencies to successfully meet industry demands. Courses also include sanitation, food/beverage service and control, baking, garde manager, American/international cuisines, food production, and hospitality supervision.

Graduates should qualify for entry-level positions such as line cook, station chef, and assistant pastry chef. American Culinary Federation certification is available to graduates. With experience, graduates may advance to positions such as sous-chef, executive chef, or food service manager.

EARLY CHILDHOOD ASSOCIATE (A55220) A.A.S. Degree/Diploma/Certificates

The Early Childhood Associate curriculum prepares individuals to work with children from infancy through middle childhood in diverse learning environments. Students will combine theories with practice in actual settings with young children under the supervision of qualified teachers.

Course work includes child growth and development; physical/nutritional needs of children; care and guidance of children; and communication skills with parents and children. Students will foster the cognitive/language, physical/motor, social/emotional and creative development of young children.

Graduates are prepared to plan and implement developmentally appropriate programs in early childhood settings. Employment opportunities include child development and child care programs, preschools, public and private schools, recreational centers, Head Start programs, and school age programs.

ELECTRICAL & ELECTRONICS TECHNOLOGY (A35220) A.A.S. Degree/Diploma/Certificate

The Electrical/Electronics Technology curriculum is designed to provide training for persons interested in the installation and maintenance of electrical/electronics system found in residential, commercial and industrial facilities.

Training, most of which is hands-on, will include such topics as DC/AC theory, basic wiring practices, digital electronics, programmable logic controllers, industrial motor controls, the National Electric Code, and other subjects as local needs require.

Graduates should qualify for a variety of jobs in the electrical/electronics field as an on-the-job trainee or apprentice, assisting in the layout, installation, and maintenance of electrical/electronic systems.

EMERGENCY MEDICAL SCIENCE (A45340) A.A.S. Degree

The Emergency Medical Science curriculum is designed to prepare graduates to enter the workforce as paramedics. Additionally, the program can provide an Associate Degree for individuals desiring an opportunity for career enhancement.

The course of study provides the student an opportunity to acquire basic and advanced life support knowledge and skills by utilizing classroom instruction, practical laboratory sessions, hospital clinical experience, and field internships with emergency medical service agencies.

Students progressing through the program may be eligible to apply for both state and national certification exams. Employment opportunities include ambulance services, fire and rescue agencies, air medical services, specialty areas of hospitals, industry, educational institutions, and government agencies.

Note: Clinical externships in the Emergency Medical Science Program are supervised by an instructor and an on-site resource person. Students do not receive monetary compensation for their externship experience.

Emergency Medical Science Bridging Opportunity

A bridging opportunity is available in the Emergency Medical Science degree program for incoming students who are currently certified at the EMT-Paramedic level. The bridging program gives students credit for life experiences through certifications.

Qualification:

EMS Bridging students who meet the following criteria will receive credit for their experiences: upon completion of the standardize national or state exam.

(1) have obtained Paramedic certification from the National Registry or North Carolina;

(2) documented 4200 hours patient care time at the Paramedic level; and

(3) have current certifications of:

Basic Cardiac Life Support - Health Care Provider (BCLS),

Advanced Cardiac Life Support - Provider (ACLS),

Prehospital Trauma Life Support (PHTLS) and/or Basic Trauma Life Support (BTLS).

Course Credit:

Qualified bridging students will receive credit for the following courses:

EMS 110 EMT Basic

EMS 120 Intermediate Interventions

EMS 121 EMS Clinical Practicum I

EMS 130 Pharmacology I for EMS

EMS 131 Advanced Airway Management

EMS 220 Cardiology

EMS 221 EMS Clinical Practicum II

EMS 150 Emergency Vehicles and EMS Communication

EMS 230 Pharmacology II for EMS

EMS 231 EMS Clinical Practicum III

EMS 250 Advanced Medical Emergencies

EMS 270 Life Span Emergencies

EMS 240 Behavioral Emergencies

EMS 140 Rescue Scene Management

EMS 241 EMS Clinical Practicum IV

EMS 260 Advanced Trauma Emergencies

EMS 285 EMS Capstone

Associate in Applied Science Degree Requirements:

EMS Bridging students must take all general education courses required in the Emergency Medical Science degree program and the following EMS courses:

EMS 280 EMS Bridging

EMS 235 EMS Management

EMS 210 Advanced Patient Assessment

FOREST MANAGEMENT TECHNOLOGY
(A15200)
A.A.S. Degree

The Forest Management Technology curriculum is designed to help students acquire technical knowledge, understanding, and abilities in developing, conserving, and utilizing forest resources.

Students develop an understanding and ability in the principles and practices of forest resource management. Students will spend much of their time in field training situations where emphasis is placed on the practical application of this knowledge and skill.

Graduates should be qualified for entry into positions as forest technicians with federal, state, and private forestry enterprises. Graduates will have competencies in forest protection, forest management, forest procurement and in performing various related technical activities.

GENERAL OCCUPATIONAL TECHNOLOGY (A55280) A.A.S. Degree

The General Occupational Technology curriculum provides individuals with an opportunity to upgrade their skills and to earn an associate degree by taking courses suited for their occupational interests and/or needs.

The curriculum content will be individualized for students according to their occupational interests and needs. A program of study for each student will be selected from associate degree level courses offered by the College.

Graduates will become more effective workers, better qualified for advancements within their field of employment, and become qualified for a wide range of entry level employment opportunities.

GUNSMITHING

(A30200)

A.A.S. Degree/Diploma/Certificate

The Gunsmithing curriculum is designed to provide the student with the required skills needed to refurbish metal and wood as applicable to firearms, to diagnose malfunctions for repair, and to accomplish more complex custom gunsmithing tasks.

Course work includes manufacturing of tools used in the gunsmithing trade, restoration of firearms, stock making, barrel work, repair work, and custom work. The student will accomplish this work by performing actual gunsmithing tasks in a "hands-on" environment.

Graduates should qualify as professional gunsmiths, able to complete any task in general gunsmithing.

Curriculum Programs of Study

HUMAN SERVICES TECHNOLOGY

(A45380)

A.A.S. Degree/Diploma/Certificate

The Human Services Technology curriculum prepares students for entry-level positions in institutions and agencies that provide social, community, and educational services. Along with core courses, students take courses that prepare them for specialization in specific human service areas.

Students will take courses from a variety of disciplines. Emphasis in core courses is placed on development of relevant knowledge, skills, and attitudes in human services. Fieldwork experience will provide opportunities for application of knowledge and skills learned in the classroom.

Graduates should qualify for positions in mental health, child care, family services, social services, rehabilitation, correction, and educational agencies. Graduates choosing to continue their education may select from a variety of transfer programs at senior public and private institutions.

Note: Human Services Technology is offered on the MCC campus through a collaborative agreement with Stanly Community College.

INDUSTRIAL SYSTEMS TECHNOLOGY (A50240)

A.A.S. Degree/Diploma/Certificate

The Industrial Systems Technology curriculum is designed to prepare or upgrade individuals to service, maintain, repair, or install equipment for a wide range of industries. Instruction includes theory and skill training needed for inspecting, testing, troubleshooting, and diagnosing industrial equipment and physical facilities.

Students will learn technical skills in blueprint reading, electricity, hydraulics/pneumatics, machining, welding, and various maintenance procedures. Practical application in these industrial systems will be emphasized and additional advanced course work may be offered.

Upon completion of any of the various levels of this curriculum, graduates should gain the necessary practical skills and related technical information to qualify for employment or advancement in the various areas of industrial systems technology.

INFORMATION SYSTEMS TECHNOLOGY (A25260) A.A.S. Degree/Diploma/Certificate

The Information Systems curriculum is designed to prepare graduates for employment with organizations that use computers to process, manage, and communicate information. This is a flexible program, designed to meet community information system needs.

Course work includes computer systems terminology and operations, logic, operating systems, database, data communications/networking, and related business topics. Studies will provide experience for students to implement, support, and customize industry-standard information systems.

Graduates should qualify for a wide variety of computer-related, entry-level positions that provide opportunities for advancement with increasing experience and ongoing training. Duties may include systems maintenance and troubleshooting, support and training, and business applications design and implementation.

**INFORMATION SYSTEMS TECHNOLOGY/
NETWORK ADMINISTRATION AND SUPPORT
(A2526D)
A.A.S. Degree**

Network Administration and Support is a concentration under the curriculum title of Information Systems. This curriculum prepares students to install and support networks and develops strong analytical skills and extensive computer knowledge. Course work includes extensive hands-on experience with networks. Classes cover media types, topologies, and protocols with installation and support of hardware and software, troubleshooting network and computer problems, and administrative responsibilities.

Graduates should qualify for positions such as LAN/PC administrator, microcomputer support specialist, network control operator, communications technician/analyst, network/computer consultant, and information systems specialist. Graduates should be prepared to sit for certification exams which can result in industry-recognized credentials.

INTERNET TECHNOLOGIES (A25290) A.A.S. Degree

The Internet Technologies curriculum is designed to prepare graduates for employment with organizations that use computers to disseminate information via the Internet internally, externally, and/or globally. The curriculum will prepare students to create and implement these services.

Course work includes computer and Internet terminology and operations, logic, operating systems, databases and data communications/networking, and related topics. Studies will provide opportunities for students to implement, support, and customize industry-standard Internet technologies.

Graduates should qualify for career opportunities as webmasters, Internet and intranet administrators, Internet applications specialists, Internet programmers and Internet technicians. Government institutions, industries, and other organizations employ individuals who possess the skills taught in this curriculum.

MEDICAL ASSISTING (A45400) A.A.S. Degree

The Medical Assisting curriculum prepares multi-skilled health care professionals qualified to perform administrative, clinical, and laboratory procedures.

Course work includes instruction in scheduling appointments, coding, and processing insurance accounts, billing, collections, medical transcription, computer operation; assisting with examinations/treatments, performing routine laboratory procedures, electrocardiography, supervised medication administration; and ethical/legal issues associated with patient care.

Graduates of CAAHEP accredited medical assisting programs may be eligible to sit for the American Association of Medical Assistants Certification Examination to become Certified Medical Assistants. Employment opportunities include physician's offices, health maintenance organizations, health departments, and hospitals.

Specific Admission Information: In addition to the general admission requirements for the College, Medical Assisting students must have the physical ability to reach and stand for sustained periods and must have visual acuity to determine accuracy, neatness, and thoroughness of work, as well as auditory competence and manual dexterity. Students must have documentation of passing a physical examination and Hepatitis B series before entering Lab Procedures. The series must be completed before clinical externship. Additionally, current CPR certification is required prior to the clinical externship.

Note: Clinical externships are supervised by an instructor and an on-site resource person. Students do not receive monetary compensation for their externship experience.

OFFICE SYSTEMS TECHNOLOGY

(A25360)

A.A.S. Degree/Diploma/Certificate

The Office Systems Technology curriculum prepares individuals for positions in administrative support careers. It equips office professionals to respond to the demands of a dynamic computerized workplace.

Students will complete courses designed to develop proficiency in the use of integrated software, oral and written communication, analysis and coordination of office duties and systems, and other support topics. Emphasis is placed on non-technical as well as technical skills.

Graduates should qualify for employment in a variety of positions in business, government, and industry. Job classifications range from entry-level to supervisor to middle management.

PRACTICAL NURSING
(D45660)
Diploma

The Practical Nursing curriculum prepares individuals with the knowledge and skills to provide nursing care to children and adults. Students will participate in assessment, planning, implementing, and evaluating nursing care.

Graduates are eligible to apply to take the National Council Licensure Examination (NCLEX-PN) which is required for practice as a Licensed Practical Nurse. Employment opportunities include hospitals, rehabilitation/long term care/home health facilities, clinics, and physician's offices.

Specific Admission Information: The application deadline is February 1 for the upcoming Fall Semester Program. The testing deadline is March 1 for the upcoming Fall Semester Program.

Note: Clinical experiences in the Practical Nursing Program are supervised by an instructor and/or an on-site resource person. Students do not receive monetary compensation for their clinical experience.

PROFESSIONAL CRAFTS: CLAY
(A30300)
A.A.S. Degree/Diploma/Certificate

The Professional Crafts: Clay curriculum is designed to prepare individuals for employment as professional potters in pottery related fields. Using traditional and contemporary concepts, instruction includes technical knowledge, design skills, and marketing and business essentials.

Course work includes development of basic and advanced throwing skills with emphasis on form and design. Study will include pottery studio and marketing procedures.

Graduates will be able to open and operate their own pottery business, work for existing pottery businesses, or transfer to a four-year degree program.

Course Descriptions

		Class Hours	Lab Hours	Work Experience/ Clinical Hours	Credit Hours
ACA 111	College Student Success	1	0	0	1
Prerequisites:					
Corequisites:					
This course introduces the college's physical, academic, and social environment and promotes the personal development essential for success. Topics include campus facilities and resources; policies, procedures, and programs; study skills; and life management issues such as health, self-esteem, motivation, goal-setting, diversity, and communication. Upon completion, students should be able to function effectively within the college environment to meet their educational objectives.					
ACC 120	Principles Of Financial Accounting	3	2	0	4
Prerequisites:					
Corequisites:					
This course introduces business decision-making accounting information systems. Emphasis is placed on analyzing, summarizing, reporting, and interpreting financial information. Upon completion, students should be able to prepare financial statements, understand the role of financial information in decision-making and address ethical considerations. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).</i>					
ACC 121	Principles of Managerial Accounting	3	2	0	4
Prerequisites: ACC 120					
Corequisites:					
This course includes a greater emphasis on managerial and cost accounting skills. Emphasis is placed on managerial accounting concepts for external and internal analysis, reporting and decision-making. Upon completion, students should be able to analyze and interpret transactions relating to managerial concepts including product-costing systems. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).</i>					
ACC 129	Individual Income Taxes	2	2	0	3
Prerequisites:					
Corequisites:					
This course introduces the relevant laws governing individual income taxation. Topics include tax law, electronic research and methodologies, and the use of technology for preparation of individual tax returns. Upon completion, students should be able to analyze basic tax scenarios, research applicable tax law, and complete various individual tax forms.					

Course Descriptions

ACC 140 Payroll Accounting		1	2	0	2
Prerequisites: ACC 115 or ACC 120					
Corequisites:					
This course covers federal and state laws pertaining to wages, payroll taxes, payroll tax forms, and journal and general ledger transactions. Emphasis is placed on computing wages; calculating social security, income, and unemployment taxes; preparing appropriate payroll tax forms; and journalizing/posting transactions. Upon completion, students should be able to analyze data, make appropriate computations, complete forms, and prepare accounting entries using appropriate technology. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
ACC 150 Accounting Software Applications		1	2	0	2
Prerequisites: ACC 115 or ACC 120					
Corequisites:					
This course introduces microcomputer applications related to accounting systems. Topics include general ledger, accounts receivable, accounts payable, inventory, payroll, and correcting, adjusting, and closing entries. Upon completion, students should be able to use a computer accounting package to solve accounting problems. <i>This course is also available through the Virtual Learning Community (VLC).</i>					
ACC 220 Intermediate Accounting I		3	2	0	4
Prerequisites: ACC 121					
Corequisites:					
This course is a continuation of the study of accounting principles with in-depth coverage of theoretical concepts and financial statements. Topics include generally accepted accounting principles and an extensive analyses of financial statements. Upon completion, students should be able to demonstrate competence in the conceptual framework underlying financial accounting, including the application of financial standards.					
ACC 225 Cost Accounting		3	0	0	3
Prerequisites: ACC 121					
Corequisites:					
This course introduces the nature and purposes of cost accounting as an information system for planning and control. Topics include direct materials, direct labor, factory overhead, process, job order, and standard cost systems. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered.					
AHR 120 HVACR Maintenance		1	3	0	2
Prerequisites:					
Corequisites:					
This course introduces the basic principles of industrial air conditioning and heating systems. Emphasis is placed on preventive maintenance procedures for heating and cooling equipment and related components. Upon completion, students should be able to perform routine preventive maintenance tasks, maintain records, and assist in routine equipment repairs.					
ART 111 Art Appreciation		3	0	0	3
Prerequisites:					
Corequisites:					
This course introduces the origins and historical development of art. Emphasis is placed on the relationship of design principles to various art forms including but not limited to sculpture, painting, and architecture. Upon completion, students should be able to identify and analyze a variety of artistic styles, periods, and media. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.</i>					

Course Descriptions

ART 281 Sculpture I

Prerequisites: ART*122

Corequisites:

This course provides an exploration of the creative and technical methods of sculpture with focus on the traditional processes. Emphasis is placed on developing basic skills as they pertain to three-dimensional expression in various media. Upon completion, students should be able to show competence in variety of sculptural approaches. This course has been approved for transfer through the Comprehensive Articulation Agreement.

ART 282 Sculpture II

0 6 0 3

Prerequisites: ART*281

Corequisites:

This course builds on the visual and technical skills learned in ART 281. Emphasis is placed on developing original solutions to sculptural problems in a variety of media. Upon completion, students should be able to express individual ideas using the techniques and materials of sculpture. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

ART 283 Ceramics I

6 0 0 3

Prerequisites:

Corequisites:

This course provides an introduction to three-dimensional design principles using the medium of clay. Emphasis is placed on fundamentals of forming, surface design, glaze application, and firing. Upon completion, students should be able to demonstrate skills in slab and coil construction, simple wheel forms, glaze technique, and creative expression. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 284 Ceramics II

0 6 0 3

Prerequisites: ART*283

Corequisites:

This course covers advanced hand building and wheel techniques. Emphasis is placed on creative expression, surface design, sculptural quality, and glaze effect. Upon completion, students should be able to demonstrate a high level of technical competence in forming and glazing with a development of three-dimensional awareness. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

ART 285 Ceramics III

0 6 0 3

Prerequisites: ART*284

Corequisites:

This course provides the opportunity for advanced self-determined work in sculptural and functional ceramics. Emphasis is placed on developing the technical awareness of clay bodies, slips, engobes, and firing procedures necessary to fulfill the student's artistic goals. Upon completion, students should be able to demonstrate a knowledge of materials and techniques necessary to successfully create original projects in the clay medium. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

AUB 111 Painting & Refinishing I

2 6 0 4

Prerequisites:

Corequisites:

This course introduces the proper procedures for using automotive refinishing equipment and materials in surface preparation and application. Topics include federal, state, and local regulations, personal safety, refinishing equipment and materials, surface preparation, masking, application techniques, and other related topics. Upon completion, students should be able to identify and use proper equipment and materials in refinishing following accepted industry standards.

Course Descriptions

AUB 112	Painting & Refinishing II		2	6	0	4
Prerequisites:	AUB 111					
Corequisites:						
This course covers advanced painting techniques and technologies with an emphasis on identifying problems encountered by the refinishing technician. Topics include materials application, color matching, correction of refinishing problems, and other related topics. Upon completion, students should be able to perform spot, panel, and overall refinishing repairs and identify and correct refinish problems.						
AUB 114	Special Finishes		1	2	0	2
Prerequisites:	AUB 111					
Corequisites:						
This course introduces multistage finishes, custom painting, and protective coatings. Topics include base coats, advanced intermediate coats, clear coats, and other related topics. Upon completion, students should be able to identify and apply specialized finishes based on accepted industry standards.						
AUB 121	Non-Structural Damage I		1	4	0	3
Prerequisites:						
Corequisites:						
This course introduces safety, tools, and the basic fundamentals of body repair. Topics include shop safety, damage analysis, tools and equipment, repair techniques, materials selection, materials usage, and other related topics. Upon completion, students should be able to identify and repair minor direct and indirect damage including removal/repairing/ replacing of body panels to accepted standards.						
AUB 122	Non-Structural Damage II		2	6	0	4
Prerequisites:						
Corequisites:						
This course covers safety, tools, and advanced body repair. Topics include shop safety, damage analysis, tools and equipment, advanced repair techniques, materials selection, materials usage, movable glass, and other related topics. Upon completion, students should be able to identify and repair or replace direct and indirect damage to accepted standards including movable glass and hardware.						
AUB 131	Structural Damage I		2	4	0	4
Prerequisites:						
Corequisites:						
This course introduces safety, equipment, structural damage analysis, and damage repairs. Topics include shop safety, design and construction, structural analysis and measurement, equipment, structural glass, repair techniques, and other related topics. Upon completion, students should be able to analyze and perform repairs to a vehicle which has received light/moderate structural damage.						
AUB 132	Structural Damage II		2	6	0	4
Prerequisites:	AUB 131					
Corequisites:						
This course provides an in-depth study of structural damage analysis and repairs to vehicles that have received moderate to heavy structural damage. Topics include shop safety, structural analysis and measurement, equipment, structural glass, advanced repair techniques, structural component replacement and alignment, and other related topics. Upon completion, students should be able to analyze and perform repairs according to industry standards.						

Course Descriptions

AUB 134 Autobody MIG Welding	1	4	0	3
Prerequisites:				
Corequisites:				
This course covers the terms and procedures for welding the various metals found in today's autobody repair industry with an emphasis on personal/environmental safety. Topics include safety and precautionary measures, setup/operation of MIG equipment, metal identification methods, types of welds/joints, techniques, inspection methods, and other related topics. Upon completion, students should be able to demonstrate a basic knowledge of welding operations and safety procedures according to industry standards.				
AUB 136 Plastics & Adhesives	1	4	0	3
Prerequisites:				
Corequisites:				
This course covers safety, plastic and adhesive identification, and the various repair methods of automotive plastic components. Topics include safety, identification, preparation, material selection, and the various repair procedures including refinishing. Upon completion, students should be able to identify, remove, repair, and/or replace automotive plastic components in accordance with industry standards.				
BAF 110 Principles of Banking	3	0	0	3
Prerequisites:				
Corequisites:				
This course covers the fundamentals of bank functions in a descriptive fashion. Topics include banks and the monetary system, the relationship of banks to depositors, the payment functions, bank loans and accounting, regulations, and examinations. Upon completion, students should be able to demonstrate an understanding of the business of banking from a broad perspective.				
BAF 131 Fund of Bank Lending	3	0	0	3
Prerequisites: ACC *120				
Corequisites:				
This course introduces the basic knowledge and skills needed to be an effective lender. Topics include the functions of the loan interview and credit investigation, the "C"s of credit, elements of loan documentation, and warning signs of problem loans. Upon completion, students should be able to demonstrate an understanding of the credit functions and regulatory issues affecting this key banking function.				
BAF 141 Law & Banking: Principles	3	0	0	3
Prerequisites:				
Corequisites:				
This course provides an overview of the legal aspects of banking and the legal framework within which banks function. Topics include the court system, consumer protection, tangible and intangible property ownership, and the legalities and regulations of bank transactions. Upon completion, students should be able to discuss the non-technical aspects of the legal system and how these affect the bank's organization and operation.				
BAF 222 Money and Banking	3	0	0	3
Prerequisites:				
Corequisites:				
This course provides a fundamental treatment of how money and banks function in the U.S. and world economics. Topics include the roles of money in the US economy, the functions of the Federal Reserve Board, and the workings of monetary and fiscal policies. Upon completion, students should be able to explain how the monetary economy functions, how banks are creators of money, and the impact of the Federal Reserve.				

Course Descriptions

BAF 232 Consumer Lending	3	0	0	3
Prerequisites:				
Corequisites:				
This course details the many types of credit arrangements in which a finance charge is paid for the privilege of repaying debt in delayed payments. Topics include consumer credit policy, the loan process, servicing and collecting loans, consumer compliance, and evaluating credit risks. Upon completion, students should be able to identify collection policies and procedures, explain principles of credit evaluation, define open-end credit, and describe indirect lending.				
BAF 244 Bank Management	3	0	0	3
Prerequisites:				
Corequisites:				
This course introduces the handling of day-to-day bank activities. Emphasis is placed on the objectives, planning, structure, control, and interrelationship of various bank departments. Upon completion, students should be able to demonstrate an understanding of bank objectives and policies and the administration of deposits, loans, and other investments.				
BIO 111 General Biology I	3	3	0	4
Prerequisites:				
Corequisites:				
This course introduces the principles and concepts of biology. Emphasis is placed on basic biological chemistry, cell structure and function, metabolism and energy transformation, genetics, evolution, classification, and other related topics. Upon completion, students should be able to demonstrate understanding of life at the molecular and cellular levels. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.</i>				
BIO 112 General Biology II	3	3	0	4
Prerequisites: BIO 111				
Corequisites:				
This course is a continuation of BIO 111. Emphasis is placed on organisms, biodiversity, plant and animal systems, ecology, and other related topics. Upon completion, students should be able to demonstrate comprehension of life at the organismal and ecological levels. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.</i>				
BIO 140 Environmental Biology	3	0	0	3
Prerequisites:				
Corequisites:				
This course introduces environmental processes and the influence of human activities upon them. Topics include ecological concepts, population growth, natural resources, and a focus on current environmental problems from scientific, social, political, and economic perspectives. Upon completion, students should be able to demonstrate an understanding of environmental interrelationships and of contemporary environmental issues. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.</i>				
BIO 140A Environmental Biology Lab	0	3	0	1
Prerequisites:				
Corequisites: BIO 140				
This course provides a laboratory component to complement BIO 140. Emphasis is placed on laboratory and field experience. Upon completion, students should be able to demonstrate a practical understanding of environmental interrelationships and of contemporary environmental issues. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.</i>				

Course Descriptions

BIO 163 Basic Anatomy & Physiology 4 2 0 5

Prerequisites:

Corequisites:

This course provides a basic study of the structure and function of the human body. Topics include a basic study of the body systems as well as an introduction to homeostasis, cells, tissues, nutrition, acid-base balance, and electrolytes. Upon completion, students should be able to demonstrate a basic understanding of the fundamental principles of anatomy and physiology and their interrelationships. (First priority for enrollment will be given to practical nursing education students.)

BIO 165 Anatomy and Physiology I 3 3 0 4

Prerequisites:

Corequisites:

This course is the first of a two-course sequence which provides a comprehensive study of the anatomy and physiology of the human body. Topics include the structure, function, and interrelationship of organ systems with emphasis on the processes which maintain homeostasis. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and their interrelationships.

BIO 166 Anatomy and Physiology II 3 3 0 4

Prerequisites: BIO 165

Corequisites:

This course is the second in a two-course sequence which provides a comprehensive study of the anatomy and physiology of the human body. Topics include the structure, function, and interrelationship of organ systems with emphasis on the processes which maintain homeostasis. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and the interrelationships of all body systems.

BIO 175 General Microbiology 2 2 0 3

Prerequisites: BIO*110 or BIO*163 or BIO*166 or BIO*169

Corequisites:

This course covers principles of microbiology with emphasis on microorganisms and human disease. Topics include an overview of microbiology and aspects of medical microbiology, identification and control of pathogens, disease transmission, host resistance, and immunity. Upon completion, students should be able to demonstrate knowledge of microorganisms and the disease process as well as aseptic and sterile techniques. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

BPR 111 Blueprint Reading 1 2 0 2

Prerequisites:

Corequisites:

This course introduces the basic principles of blueprint reading. Topics include line types, orthographic projections, dimensioning methods, and notes. Upon completion, students should be able to interpret basic blueprints and visualize the features of a part.

BUS 110 Introduction to Business 3 0 0 3

Prerequisites:

Corequisites:

This course provides a survey of the business world. Topics include the basic principles and practices of contemporary business. Upon completion, students should be able to demonstrate an understanding of business concepts as a foundation for studying other business subjects.

BUS 115 Business Law I 3 0 0 3

Prerequisites:

Corequisites:

This course introduces the ethics and legal framework of business. Emphasis is placed on contracts, negotiable instruments, Uniform Commercial Code, and the working of the court systems. Upon completion, students should be able to apply ethical issues and laws covered to selected business decision-making situations.

Course Descriptions

BUS 121	Business Math		2	2	0	3
Prerequisites:						
Corequisites:						
This course covers fundamental mathematical operations and their application to business problems. Topics include payroll, pricing, interest and discount, commission, taxes, and other pertinent uses of mathematics in the field of business. Upon completion, students should be able to apply mathematical concepts to business.						
BUS 137	Principles of Management		3	0	0	3
Prerequisites:						
Corequisites:						
This course is designed to be an overview of the major functions of management. Emphasis is placed on planning, organizing, controlling, directing, and communicating. Upon completion, students should be able to work as contributing members of a team utilizing these functions of management.						
BUS 153	Human Resource Management		3	0	0	3
Prerequisites:						
Corequisites:						
This course introduces the functions of personnel/human resource management within an organization. Topics include equal opportunity and the legal environment, recruitment and selection, performance appraisal, employee development, compensation planning, and employee relations. Upon completion, students should be able to anticipate and resolve human resource concerns.						
BUS 225	Business Finance		2	2	0	3
Prerequisites: ACC 120						
Corequisites:						
This course provides an overview of business financial management. Emphasis is placed on financial statement analysis, time value of money, management of cash flow, risk and return, and sources of financing. Upon completion, students should be able to interpret and apply the principles of financial management.						
BUS 230	Small Business Management		3	0	0	3
Prerequisites:						
Corequisites:						
This course introduces the challenges of entrepreneurship including the startup and operation of a small business. Topics include market research techniques, feasibility studies, site analysis, financing alternatives, and managerial decision making. Upon completion, students should be able to develop a small business plan.						
BUS 260	Business Communication		3	0	0	3
Prerequisites: ENG 111						
Corequisites:						
This course is designed to develop skills in writing business communications. Emphasis is placed on business reports, correspondence, and professional presentations. Upon completion, students should be able to communicate effectively in the work place.						
BUS 280	R.E.A.L. Small Business		4	0	0	4
Prerequisites:						
Corequisites:						
This course introduces hands-on techniques and procedures for planning and opening a small business, including the personal qualities needed for entrepreneurship. Emphasis is placed on market research, finance, time management, and day-to-day activities of owning/operating a small business. Upon completion, students should be able to write and implement a viable business plan and seek funding.						

Course Descriptions

CET 245	Internet Servers		2	3	0	3
Prerequisites:	CSC*134					
Corequisites:						
This course covers the setup and management of Internet server hardware and software. Topics include TCP/IP, FTP, SMTP, and SNMP; installation and configuration of server software for WWW, FTP, DNS, news, mail, and listserve services; and other topics. Upon completion, students should be able to set up and maintain Internet servers.						
CHM 151	General Chemistry I		3	3	0	4
Prerequisites:						
Corequisites:						
This course covers fundamental principles and laws of chemistry. Topics include measurement, atomic and molecular structure, periodicity, chemical reactions, chemical bonding, stoichiometry, thermochemistry, gas laws, and solutions. Upon completion, students should be able to demonstrate an understanding of fundamental chemical laws and concepts as needed in CHM 152. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.</i>						
CHM 152	General Chemistry II		3	3	0	4
Prerequisites:	CHM 151					
Corequisites:						
This course provides a continuation of the study of the fundamental principles and laws of chemistry. Topics include kinetics, equilibrium, ionic and redox equations, acid-base theory, electrochemistry, thermodynamics, introduction to nuclear and organic chemistry, and complex ions. Upon completion, students should be able to demonstrate an understanding of chemical concepts as needed to pursue further study in chemistry and related professional fields. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.</i>						
CIS 110	Introduction to Computers		2	2	0	3
Prerequisites:						
Corequisites:						
This course provides an introduction to computers and computing. Topics include the impact of computers on society, ethical issues, and hardware/software applications, including spreadsheets, databases, word processors, graphics, the Internet, and operating systems. Upon completion, students should be able to demonstrate an understanding of the role and function of computers and use the computer to solve problems.						
CIS 111	Basic PC Literacy		1	2	0	2
Prerequisites:	None					
Corequisites:	None					
This course provides a brief overview of computer concepts. Emphasis is placed on the use of personal computers and software applications for personal and workplace use. Upon completion, students should be able to demonstrate basic personal computer skills. <i>This course is also available through the Virtual Learning Community (VLC).</i>						
CIS 113	Computer Basics		0	2	0	1
Prerequisites:						
Corequisites:						
This course introduces basic computer usage for non-computer majors. Emphasis is placed on developing basic personal computer skills. Upon completion, students should be able to demonstrate competence in basic computer applications sufficient to use computer-assisted instructional software.						

Course Descriptions

CIS 115	Intro to Programming & Logic		2	2	0	3
Prerequisites:	MAT 080 or MAT 090					
Corequisites:						
This course introduces computer programming and problem solving in a programming environment, including an introduction to operating systems, text editor, and a language translator. Topics include language syntax, data types, program organization, problem-solving methods, algorithm design, and logic control structures. Upon completion, students should be able to manage files with operating system commands, use top-down algorithm design, and implement algorithmic solutions in a programming language.						
CIS 120	Spreadsheet I		2	2	0	3
Prerequisites:	CIS 110 or CIS 111 or OST 137					
Corequisites:						
This course introduces basic spreadsheet design and development. Topics include writing formulas, using functions, enhancing spreadsheets, creating charts, and printing. Upon completion, students should be able to design and print basic spreadsheets and charts.						
CIS 130	Survey of Operating Systems		2	3	0	3
Prerequisites:						
Corequisites:						
The course covers operating system concepts which are necessary for maintaining and using computer systems. Topics include disk, file, and directory structures; installation and setup; resource allocation, optimization, and configuration; system security; and other related topics. Upon completion, students should be able to install and configure operating systems and optimize performance.						
CIS 152	Database Concepts & Applications		2	2	0	3
Prerequisites:	CIS 110, CIS 111, or CIS 115					
Corequisites:						
This course introduces database design and creation using a DBMS product. Topics include database terminology, usage in industry, design theory, types of DBMS models, and creation of simple tables, queries, reports, and forms. Upon completion, students should be able to create simple database tables, queries, reports, and forms which follow acceptable design practices.						
CIS 165	Desktop Publishing I		2	2	0	3
Prerequisites:						
Corequisites:						
This course provides an introduction to desktop publishing software capabilities. Emphasis is placed on efficient use of a page layout software package to create, design, and print publications; hardware/software compatibility; and integration of specialized peripherals. Upon completion, students should be able to prepare publications given design specifications.						
CIS 169	Business Presentations		1	2	0	2
Prerequisites:	CIS 110 or CIS 111					
Corequisites:						
This course provides hands-on experience with a graphics presentation package. Topics include terminology, effective chart usage, design and layout, integrating hardware components, and enhancing presentations with text and graphics. Upon completion, students should be able to design and demonstrate an effective presentation.						
CIS 170	Tech Support Functions I		2	2	0	3
Prerequisites:	CIS 115					
Corequisites:						
This course introduces a variety of diagnostic and instructional tools that are used to evaluate the performance of technical support management techniques and support technologies. Upon completion, students should be able to determine the best technologies to support and solve actual technical support problems.						

Course Descriptions

CIS 172	Intro to the Internet		2	3	0	3
Prerequisites:						
Corequisites:						
This course introduces the various navigational tools and services of the Internet. Topics include using Internet protocols, search engines, file compression/decompression, FTP, e-mail, listservers, and other related topics. Upon completion, students should be able to use Internet resources, retrieve/decompress files, and use e-mail, FTP, and other Internet tools.						
CIS 174	Network System Manager I		2	2	0	3
Prerequisites:						
Corequisites:						
This course covers effective network management. Topics include network file system design and security, login scripts and user menus, printing services, e-mail, and backup. Upon completion, students should be able to administer an office network system.						
CIS 175	Network Management I		2	2	0	3
Prerequisites:						
Corequisites:						
This course covers fundamental network administration and system management. Topics include accessing and configuring basic network services, managing directory services, and using network management software. Upon completion, students should be able to apply system administrator skills in developing a network management strategy.						
CIS 217	Computer Training & Support		2	2	0	3
Prerequisites:						
Corequisites:						
This course introduces computer training and support techniques. Topics include methods of adult learning, training design, delivery, and evaluation, creating documentation, and user support methods. Upon completion, students should be able to design and implement training and provide continued support for computer users.						
CIS 274	Network System Manager II		2	2	0	3
Prerequisites: CIS 174						
Corequisites:						
This course is a continuation of CIS 174 focusing on advanced network management, configuration, and installation. Emphasis is placed on server configuration files, startup procedures, server protocol support, memory and performance concepts, and management and maintenance. Upon completion, students should be able to install and upgrade networks and servers for optimal performance.						
CIS 275	Network Management II		2	2	0	3
Prerequisites: CIS 175						
Corequisites:						
This course is a continuation of CIS 175 focusing on advanced enterprise networks. Topics include directory service tree planning, management distribution and protection, improving network security, auditing the network, printing, networking, and system administration of an Internet node. Upon completion, students should be able to manage client services and network features and optimize network performance.						
CIS 286	Systems Analysis & Design		3	0	0	3
Prerequisites: CIS 115						
Corequisites:						
This course examines established and evolving methodologies for the analysis, design, and development of a business information system. Emphasis is placed on business systems characteristics, managing information systems projects, prototyping, CASE tools, and systems development life cycle phases. Upon completion, students should be able to analyze a problem and design an appropriate solution using a combination of tools and techniques.						

Course Descriptions

CIS 287	Network Support	2	2	0	3
Prerequisites: CIS 274 or CIS 275					
Corequisites:					
	This course provides experience using CD ROM and on-line research tools and hands-on experience for advanced hardware support and troubleshooting. Emphasis is placed on troubleshooting network adapter cards and cabling, network storage devices, the DOS workstation, and network printing. Upon completion, students should be able to analyze, diagnose, research, and fix network hardware problems.				
 CJC 100 Basic Law Enforcement Training					
		8	30	0	18
Prerequisites:					
Corequisites:					
This course covers the skills and knowledge needed for entry-level employment as a law enforcement officer in North Carolina. Emphasis is placed on topics and areas as defined by the North Carolina Administrative Code. Upon completion, students should be able to demonstrate competence in the topics and areas required for the state comprehensive examination. <i>This is a certificate-level course.</i>					
 CJC 111 Intro to Criminal Justice					
		3	0	0	3
Prerequisites:					
Corequisites:					
This course introduces the components and processes of the criminal justice system. Topics include history, structure, functions, and philosophy of the criminal justice system and their relationship to life in our society. Upon completion, students should be able to define and describe the major system components and their interrelationships and evaluate career options.					
 CJC 112 Criminology					
		3	0	0	3
Prerequisites:					
Corequisites:					
This course introduces deviant behavior as it relates to criminal activity. Topics include theories of crime causation; statistical analysis of criminal behavior; past, present, and future social control initiatives; and other related topics. Upon completion, students should be able to explain and discuss various theories of crime causation and societal response.					
 CJC 113 Juvenile Justice					
		3	0	0	3
Prerequisites:					
Corequisites:					
This course covers the juvenile justice system and related juvenile issues. Topics include an overview of the juvenile justice system, treatment and prevention programs, special areas and laws unique to juveniles, and other related topics. Upon completion, students should be able to identify/discuss juvenile court structure/procedures, function and jurisdiction of juvenile agencies, processing/detention of juveniles, and case disposition.					
 CJC 120 Interviews/Interrogations					
		1	2	0	2
Prerequisites:					
Corequisites:					
This course covers basic and special techniques employed in criminal justice interviews and interrogations. Emphasis is placed on the interview/interrogation process, including interpretation of verbal and physical behavior and legal perspectives. Upon completion, students should be able to conduct interviews/interrogations in a legal, efficient, and professional manner and obtain the truth from suspects, witnesses, and victims.					
 CJC 121 Law Enforcement Operations					
		3	0	0	3
Prerequisites:					
Corequisites:					
This course introduces fundamental law enforcement operations. Topics include the contemporary evolution of law enforcement operations and related issues. Upon completion, students should be able to explain theories, practices, and issues related to law enforcement operations.					

Course Descriptions

CJC 131 Criminal Law	3	0	0	3
Prerequisites:				
Corequisites:				
This course covers the history/evolution/principles and contemporary applications of criminal law. Topics include sources of substantive law, classification of crimes, parties to crime, elements of crimes, matters of criminal responsibility, and other related topics. Upon completion, students should be able to discuss the sources of law and identify, interpret, and apply the appropriate statutes/elements.				
CJC 132 Court Procedure & Evidence	3	0	0	3
Prerequisites:				
Corequisites:				
This course covers judicial structure/process/procedure from incident to disposition, kinds and degrees of evidence, and the rules governing admissibility of evidence in court. Topics include consideration of state and federal courts, arrest, search and seizure laws, exclusionary and statutory rules of evidence, and other related issues. Upon completion, students should be able to identify and discuss procedures necessary to establish a lawful arrest/search, proper judicial procedures, and the admissibility of evidence.				
CJC 141 Corrections	3	0	0	3
Prerequisites:				
Corequisites:				
This course covers the history, major philosophies, components, and current practices and problems of the field of corrections. Topics include historical evolution, functions of the various components, alternatives to incarceration, treatment programs, inmate control, and other related topics. Upon completion, students should be able to explain the various components, processes, and functions of the correctional system.				
CJC 211 Counseling	3	0	0	3
Prerequisites:				
Corequisites:				
This course introduces the basic elements of counseling and specific techniques applicable to the criminal justice setting. Topics include observation, listening, recording, interviewing, and problem exploration necessary to form effective helping relationships. Upon completion, students should be able to discuss and demonstrate the basic techniques of counseling.				
CJC 212 Ethics & Comm. Relations	3	0	0	3
Prerequisites:				
Corequisites:				
This course covers ethical considerations and accepted standards applicable to criminal justice organizations and professionals. Topics include ethical systems; social change, values, and norms; cultural diversity; citizen involvement in criminal justice issues; and other related topics. Upon completion, students should be able to apply ethical considerations to the decision-making process in identifiable criminal justice situations.				
CJC 213 Substance Abuse	3	0	0	3
Prerequisites:				
Corequisites:				
This course is a study of substance abuse in our society. Topics include the history and classifications of drug abuse and the social, physical, and psychological impact of drug abuse. Upon completion, students should be able to identify various types of drugs, their effects on human behavior and society, and treatment modalities.				

Course Descriptions

CJC 221	Investigative Principles	3	2	0	4
Prerequisites:					
Corequisites:					
This course introduces the theories and fundamentals of the investigative process. Topics include crime scene/incident processing, information gathering techniques, collection/preservation of evidence, preparation of appropriate reports, court presentations, and other related topics. Upon completion, students should be able to identify, explain, and demonstrate the techniques of the investigative process, report preparation, and courtroom presentation.					
CJC 225	Crisis Intervention	3	0	0	3
Prerequisites:					
Corequisites:					
This course introduces critical incident intervention and management techniques as they apply to operational criminal justice practitioners. Emphasis is placed on the victim/offender situation as well as job-related high stress, dangerous, or problem-solving citizen contacts. Upon completion, students should be able to provide insightful analysis of emotional, violent, drug-induced, and other critical and/or stressful incidents that require field analysis and/or resolution.					
CJC 231	Constitutional Law	3	0	0	3
Prerequisites:					
Corequisites:					
The course covers the impact of the Constitution of the United States and its amendments on the criminal justice system. Topics include the structure of the Constitution and its amendments, court decisions pertinent to contemporary criminal justice issues, and other related topics. Upon completion, students should be able to identify/discuss the basic structure of the United States Constitution and the rights/procedures as interpreted by the courts.					
CJC 232	Civil Liability	3	0	0	3
Prerequisites:					
Corequisites:					
This course covers liability issues for the criminal justice professional. Topics include civil rights violations, tort liability, employment issues, and other related topics. Upon completion, students should be able to explain civil trial procedures and discuss contemporary liability issues.					
CJC 241	Community-Based Corrections	3	0	0	3
Prerequisites:					
Corequisites:					
This course covers programs for convicted offenders that are used both as alternatives to incarceration and in post-incarceration situations. Topics include offenders, diversion, house arrest, restitution, community service, probation and parole, including both public and private participation, and other related topics. Upon completion, students should be able to identify/discuss the various programs from the perspective of the criminal justice professional, the offender, and the community.					
COE 111	Co-op Work Experience I	0	0	10	1
Prerequisites:					
Corequisites:					
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.					
COE 112	Co-op Work Experience I	0	0	20	2
Prerequisites:					
Corequisites:					
This course provides work experience with a college approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.					

Course Descriptions

COE 115 Work Exp Seminar I

1 0 0 1

Prerequisites:

Corequisites: COE 111, COE 112, COE 113, or COE 114

This course description may be written by the individual colleges.

COE 121 Co-op Work Experience II

0 0 10 1

Prerequisites: COE 111, COE 112, COE 113, or COE 114

Corequisites: Specified by Program

This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 122 Co-op Work Experience II

0 0 20 2

Prerequisites:

Corequisites:

This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 125 Work Exp Seminar II

1 0 0 1

Prerequisites:

Corequisites: COE 121, COE 122, COE 123, or COE 124

This course description may be written by the individual colleges.

COM 231 Public Speaking

3 0 0 3

Prerequisites:

Corequisites:

This course provides instruction and experience in preparation and delivery of speeches within a public setting and group discussion. Emphasis is placed on research, preparation, delivery, and evaluation of informative, persuasive, and special occasion public speaking. Upon completion, students should be able to prepare and deliver well-organized speeches and participate in group discussion with appropriate audiovisual support. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

CSC 134 C++ Programming

2 3 0 3

Prerequisites:

Corequisites:

This course introduces object-oriented computer programming using the C++ programming language. Topics include input/output operations, iteration, arithmetic operations, arrays, pointers, filters, and other related topics. Upon completion, students should be able to design, code, test, and debug C++ language programs. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

CSC 160 Intro to Internet Programming

2 2 0 3

Prerequisites: CIS*172

Corequisites:

This course introduces client-side Internet programming using HTML and Javascript. Topics include use of frames & tables, use of meta tags, Javascript techniques for site navigation. Upon completion, students should be able to write HTML documents that incorporate programming to provide web page organization and navigation functions.

Course Descriptions

CUL 110	Sanitation & Safety	2	0	0	2
Prerequisites:					
Corequisites:					
This course introduces the basic principles of sanitation and safety and their relationship to the hospitality industry. Topics include personal hygiene, sanitation and safety regulations, use and care of equipment, the principles of food-borne illness, and other related topics. Upon completion, students should be able to demonstrate an understanding of sanitation and safety procedures in the hospitality industry.					
CUL 120	Purchasing	2	0	0	2
Prerequisites:					
Corequisites:					
This course covers purchasing for hotels and restaurants. Emphasis is placed on procurement, yield tests, inventory control, specification, planning, forecasting, market trends, terminology, cost controls, pricing, and food service ethics. Upon completion, students should be able to apply effective purchasing techniques based on the end-use of the product.					
CUL 135	Food & Beverage Service	2	0	0	2
Prerequisites:					
Corequisites:					
This course covers the practical skills and knowledge for effective food and beverage service in a variety of settings. Topics include reservations, greeting and service of guests, styles of service, handling complaints, and sales and merchandising. Upon completion, students should be able to demonstrate competence in human relations and technical skills required in the service of foods and beverages.					
CUL 140	Basic Culinary Skills	2	6	0	5
Prerequisites:					
Corequisites:					
This course introduces the fundamental concepts, skills, and techniques involved in basic cookery. Emphasis is placed on recipe conversion, measurements, terminology, knife skills, safe food handling, cooking methods, flavorings, seasonings, stocks/sauces/soups, and other related topics. Upon completion, students should be able to exhibit the basic cooking skills used in the food service industry.					
CUL 160	Baking I	1	4	0	3
Prerequisites:					
Corequisites:					
This course covers basic ingredients, weights and measures, baking terminology, and formula calculations. Topics include yeast-raised products, quick breads, pastry dough, various cakes and cookies, and appropriate filling and finishing techniques. Upon completion, students should be able to prepare and evaluate baked products.					
ECM 168	Electronic Business	2	2	0	3
Prerequisites:					
Corequisites:					
This course provides a survey of the world of electronic business. Topics include the definition of electronic business, current practices as they evolve using Internet strategy in business, and application of basic business principles to the world of e-commerce. Upon completion, students should be able to define electronic business and demonstrate an understanding of the benefits of e-commerce as a foundation for developing plans leading to electronic business implementation.					
ECM 210	Introduction to E-Commerce	2	2	0	3
Prerequisites:					
Corequisites:					
This course introduces the concepts & tools to implement electronic commerce via the Internet. Topics include application & server software selection, securing transactions, use & verification of credit cards, publishing of catalogs, & site administration. Upon completion, students should be able to setup a working e-commerce Internet web site.					

Course Descriptions

ECM 220 E-Commerce Planning & Implementation 2 2 0 3

Prerequisites:

Corequisites:

This course builds on currently accepted business practices to develop a business plan and implementation model for e-commerce. Topics include analysis and synthesis of the planning cycle, cost/benefit analysis, technical systems, marketing, security, financial support, Internet strategies, website design, customer support and feedback and assessment. Upon completion, students should be able to develop a plan for e-commerce in a small to medium size business.

ECM 230 Capstone Project 1 6 0 3

Prerequisites: ECM*220

Corequisites:

This course provides experience in Electronic Commerce. Emphasis is placed on the implementation of an e-commerce model for an existing business. Upon completion, students should be able to successfully develop and implement a plan for e-commerce in a small to medium size business.

ECO 251 Principles of Microeconomics 3 0 0 3

Prerequisites:

Corequisites:

This course introduces economic analysis of individual, business, and industry choices in the market economy. Topics include the price mechanism, supply and demand, optimizing economic behavior, costs and revenue, market structures, factor markets, income distribution, market failure, and government intervention. Upon completion, students should be able to identify and evaluate consumer and business alternatives in order to efficiently achieve economic objectives. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

ECO 252 Principles of Macroeconomics 3 0 0 3

Prerequisites:

Corequisites:

This course introduces economic analysis of aggregate employment, income, and prices. Topics include major schools of economic thought; aggregate supply and demand; economic measures, fluctuations, and growth; money and banking; stabilization techniques; and international trade. Upon completion, students should be able to evaluate national economic components, conditions, and alternatives for achieving socioeconomic goals. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

EDU 111 Early Childhood Cred I 2 0 0 2

Prerequisites:

Corequisites:

This course introduces early childhood education and the role of the teacher in environments that encourage exploration and learning. Topics include professionalism, child growth and development, individuality, family, and culture. Upon completion, students should be able to identify and demonstrate knowledge of professional roles, major areas of child growth and development, and diverse families.

EDU 112 Early Childhood Cred II 2 0 0 2

Prerequisites:

Corequisites:

This course introduces developmentally appropriate practices, positive guidance, and standards of health, safety, and nutrition. Topics include the learning environment, planning developmentally appropriate activities, positive guidance techniques, and health, safety, and nutrition standards. Upon completion, students should be able to demonstrate developmentally appropriate activities and positive guidance techniques and describe health/sanitation/nutrition practices that promote healthy environments for children.

Course Descriptions

EDU 113 Family/Early Child Cred	2	0	0	2
Prerequisites:				
Corequisites:				
This course covers business/professional practices for family early childhood providers, developmentally appropriate practices, positive guidance, and methods of providing a safe and healthy environment. Topics include developmentally appropriate practices; health, safety and nutrition; and business and professionalism. Upon completion, students should be able to develop a handbook of policies, procedures, and practices for a family child care home.				
EDU 119 Early Childhood Education	4	0	0	4
Prerequisites:				
Corequisites:				
This course covers the foundations of the education profession, types of programs, professionalism, and planning quality programs for children. Topics include historical foundations, career options, types of programs, professionalism, observational skills, and planning developmentally appropriate schedules, environments, and activities for children. Upon completion, students should be able to demonstrate observational skills, identify appropriate schedules and environments, develop activity plans, and describe influences on the profession.				
EDU 131 Child, Family, & Community	3	0	0	3
Prerequisites:				
Corequisites:				
This course covers the relationships between the families, programs for children/schools, and the community. Emphasis is placed on establishing and maintaining positive collaborative relationships with families and community resources. Upon completion, students should be able to demonstrate strategies for effectively working with diverse families and identifying and utilizing community resources.				
EDU 144 Child Development I	3	0	0	3
Prerequisites:				
Corequisites:				
This course covers the theories of child development and the developmental sequences of children from conception through the pre-school years for early childhood educators. Emphasis is placed on sequences in physical/motor, social, emotional, cognitive, and language development and appropriate experiences for the young child. Upon completion, students should be able to identify developmental milestones, plan experiences to enhance development, and describe appropriate interaction techniques and environments for typical/atypical development.				
EDU 145 Child Development II	3	0	0	3
Prerequisites:				
Corequisites:				
This course covers theories of child development and developmental sequences of children from pre-school through middle childhood for early childhood educators. Emphasis is placed on characteristics of physical/motor, social, emotional, and cognitive/language development and appropriate experiences for children. Upon completion, students should be able to identify developmental characteristics, plan experiences to enhance development, and describe appropriate interaction techniques and environments.				
EDU 146 Child Guidance	3	0	0	3
Prerequisites:				
Corequisites:				
This course introduces practical principles and techniques for developmentally appropriate guidance. Emphasis is placed on encouraging self-esteem and cultural awareness, effective communication skills, and direct and indirect guidance techniques and strategies. Upon completion, students should be able to demonstrate strategies which encourage positive social interactions, promote conflict resolution, and develop self-control, self-motivation, and self-esteem in children.				

Course Descriptions

EDU 151 Creative Activities	3	0	0	3
Prerequisites:				
Corequisites:				
This course covers creative learning environments, planning and implementing developmentally appropriate experiences, and developing appropriate teaching materials for the classroom. Emphasis is placed on creative activities for children in art, music, movement and physical skills, and dramatics. Upon completion, students should be able to select and evaluate developmentally appropriate learning materials and activities.				
EDU 153 Health, Safety, & Nutrition	3	0	0	3
Prerequisites:				
Corequisites:				
This course focuses on promoting and maintaining the health and well-being of children. Topics include health and nutritional needs, safe and healthy environments, and recognition and reporting of child abuse and neglect. Upon completion, students should be able to set up and monitor safe indoor and outdoor environments and implement a nutrition education program.				
EDU 153A Health, Safety, & Nutrition Lab	0	2	0	1
Prerequisites:				
Corequisites: EDU 153				
This course provides a laboratory component to complement EDU 153. Emphasis is on practical experiences that enhance concepts introduced in the classroom. Upon completion, students should be able to demonstrate an understanding of the development & implementation of safe indoor/outdoor environments & nutrition education programs.				
EDU 171 Instructional Media	1	2	0	2
Prerequisites:				
Corequisites:				
This courses covers the development and maintenance of effective teaching materials and the operation of selected pieces of equipment. Topics include available community resources, various types of instructional materials and bulletin boards, and audiovisual and computer use with children. Upon completion, students should be able to construct and identify resources for instructional materials and bulletin boards and use audiovisual and computer equipment.				
EDU 185 Cognitive & Lang Act	3	0	0	3
Prerequisites:				
Corequisites:				
This course covers methods of developing cognitive and language/communication skills in children. Emphasis is placed on planning the basic components of language and cognitive processes in developing curriculum activities. Upon completion, students should be able to identify, plan, select materials and equipment, and implement and evaluate developmentally appropriate curriculum activities.				
EDU 221 Children w/Special Needs	3	0	0	3
Prerequisites: EDU 144 and EDU 145 or PSY 244 and PSY 245				
Corequisites:				
This course introduces working with children with special needs. Emphasis is placed on the characteristics and assessment of children and strategies for adapting the home and classroom environment. Upon completion, students should be able to recognize atypical development, make appropriate referrals, and work collaboratively to plan, implement, and evaluate inclusion strategies.				
EDU 234 Infants, Toddlers, & Twos	3	0	0	3
Prerequisites:				
Corequisites:				
This course covers the skills needed to effectively implement group care for infants, toddlers, and two-year olds. Emphasis is placed on child development and developmentally appropriate practices. Upon completion, students should be able to identify, plan, select materials and equipment, and implement and evaluate a developmentally appropriate curriculum.				

Course Descriptions

EDU 235 School-Age Dev & Program

2 0 0 2

Prerequisites:

Corequisites:

This course presents developmentally appropriate practices in group care for school-age children. Topics include principles of development, environmental planning, and positive guidance techniques. Upon completion, students should be able to discuss developmental principles for children five to twelve years of age and plan and implement age-appropriate activities.

EDU 251 Exploration Activities

3 0 0 3

Prerequisites:

Corequisites:

This course covers discovery experiences in science, math, and social studies. Emphasis is placed on developing concepts for each area and encouraging young children to explore, discover, and construct concepts. Upon completion, students should be able to discuss the discovery approach to teaching, explain major concepts in each area, and plan appropriate experiences for children.

EDU 259 Curriculum Planning

3 0 0 3

Prerequisites: EDU 112, EDU 113, or EDU 119

Corequisites:

This course covers early childhood curriculum planning. Topics include philosophy, curriculum, indoor and outdoor environmental design, scheduling, observation and assessment, and instructional planning and evaluation. Upon completion, students should be able to assess children and curriculum; plan for daily, weekly, and long-range instruction; and design environments with appropriate equipment and supplies.

EDU 261 Early Childhood Administration I

2 0 0 2

Prerequisites:

Corequisites:

This course covers the policies, procedures, and responsibilities for the management of early childhood education programs. Topics include implementation of goals, principles of supervision, budgeting and financial management, and meeting the standards for a NC Child Day Care license. Upon completion, students should be able to develop program goals, explain licensing standards, determine budgeting needs, and describe effective methods of personnel supervision.

EDU 262 Early Childhood Administration II

3 0 0 3

Prerequisites: EDU 261

Corequisites:

This course provides a foundation for budgetary, financial, and personnel management of the child care center. Topics include budgeting, financial management, marketing, hiring, supervision, and professional development of a child care center. Upon completion, students should be able to formulate marketing, financial management, and fund development plans and develop personnel policies, including supervision and staff development plans.

EDU 275 Effective Teacher Training

2 0 0 2

Prerequisites:

Corequisites:

This course provides specialized training using an experienced-based approach to learning. Topics include instructional preparation and presentation, student interaction, time management, learning expectations, evaluation, and curriculum principles and planning. Upon completion, students should be able to prepare and present a six-step lesson plan and demonstrate ways to improve students' time-on-task.

EDU 282 Early Childhood Literature

3 0 0 3

Prerequisites:

Corequisites:

This course covers the history, selection, and integration of literature and language in the early childhood curriculum. Topics include the history and selection of developmentally appropriate children's literature and the use of books and other media to enhance language and literacy in the classroom. Upon completion, students should be able to select appropriate books for storytelling, reading aloud, puppetry, flannel board use, and other techniques.

Course Descriptions

EDU 286 Early Childhood Issues Prerequisites: ENG 111 Corequisites: This course provides an opportunity to discuss the application of skills in a developmentally appropriate early childhood environment. Emphasis is placed on developing strategies for reaching competency goals and objectives and on planning and developing curriculum. Upon completion, students should be able to demonstrate competence in classroom management skills and in developing, implementing, and evaluating curriculum plans.	1	0	0	1
EDU 288 Adv Issues/Early Child Ed Prerequisites: Corequisites: This course covers advanced topics and issues in early childhood. Emphasis is placed on current advocacy issues, emerging technology, professional growth experiences, and other related topics. Upon completion, students should be able to list, discuss, and explain advanced current topics and issues in early childhood education.	2	0	0	2
ELC 111 Intro to Electricity Prerequisites: Corequisites: This course introduces the fundamental concepts of electricity and test equipment to non-electrical/electronics majors. Topics include basic DC and AC principles (voltage, resistance, current, impedance); components (resistors, inductors, and capacitors); power; and operation of test equipment. Upon completion, students should be able to construct and analyze simple DC and AC circuits using electrical test equipment.	2	2	0	3
ELC 112 DC/AC Electricity Prerequisites: Must take 112A before 112B Corequisites: This course introduces the fundamental concepts of and computations related to DC/AC electricity. Emphasis is placed on DC/AC circuits, components, operation of test equipment; and other related topics. Upon completion, students should be able to construct, verify, and analyze simple DC/AC circuits.	3	6	0	5
ELC 113 Basic Wiring I Prerequisites: Corequisites: This course introduces the care/usage of tools and materials used in electrical installations and the requirements of the National Electrical Code. Topics include NEC, electrical safety, and electrical blueprint reading; planning, layout; and installation of electrical distribution equipment; lighting; overcurrent protection; conductors; branch circuits; and conduits. Upon completion, students should be able to properly install conduits, wiring, and electrical distribution equipment associated with basic electrical installations.	2	6	0	4
ELC 115 Industrial Wiring Prerequisites: ELC 113 Corequisites: This course covers layout, planning, and installation of wiring systems in industrial facilities. Emphasis is placed on industrial wiring methods and materials. Upon completion, students should be able to install industrial systems and equipment.	2	6	0	4
ELC 117 Motors & Controls Prerequisites: ELC 111 or ELC 112 or ELC 131 Corequisites: This course introduces the fundamental concepts of motors and motor controls. Topics include ladder diagrams, pilot devices, contactors, motor starters, motors, and other control devices. Upon completion, students should be able to properly select, connect, and troubleshoot motors and control circuits.	2	6	0	4

Course Descriptions

ELC 119	NEC Calculations		1	2	0	2
Prerequisites:	ELC 112A and ELC 126 or MAT 171					
Corequisites:						
This course covers branch circuit, feeder, and service calculations. Emphasis is placed on sections of the National Electrical Code related to calculations. Upon completion, students should be able to use appropriate code sections to size wire, conduit, and overcurrent devices for branch circuits, feeders, and service.						
ELC 126	Electrical Computations		2	2	0	3
Prerequisites:	None					
Corequisites:	None					
This course introduces the fundamental applications of mathematics which are used by an electrical/electronics technician. Topics include whole numbers, fractions, decimals, powers, roots, simple electrical formulas, and usage of a scientific calculator. Upon completion, students should be able to solve simple electrical mathematical problems.						
ELC 128	Intro to PLC		2	3	0	3
Prerequisites:						
Corequisites:						
This course introduces the programmable logic controller (PLC) and its associated applications. Topics include ladder logic diagrams, input/output modules, power supplies, surge protection, selection/installation of controllers, and interfacing of controllers with equipment. Upon completion, students should be able to install PLCs and create simple programs.						
ELC 229	Applications Project		1	3	0	2
Prerequisites:	ELC 112, ELC 113, or ELC 140					
Corequisites:						
This course provides an individual and/or integrated team approach to a practical project as approved by the instructor. Topics include project selection and planning, implementation and testing, and a final presentation. Upon completion, students should be able to plan and implement an applications-oriented project.						
ELN 131	Electronic Devices		3	3	0	4
Prerequisites:	ELC 112, ELC 131, or ELC 140					
Corequisites:						
This course includes semiconductor-based devices such as diodes, bipolar transistors, FETs, thermistors, and related components. Emphasis is placed on analysis, selection, biasing, and applications in power supplies, small signal amplifiers, and switching and control circuits. Upon completion, students should be able to construct, analyze, verify, and troubleshoot discrete component circuits using appropriate techniques and test equipment.						
ELN 132	Linear IC Applications		3	3	0	4
Prerequisites:	ELN*131 or BMT*113					
Corequisites:						
This course introduces the characteristics and applications of linear integrated circuits. Topics include op-amp circuits, differential amplifiers, instrumentation amplifiers, waveform generators, active filters, PLLs, and IC voltage regulators. Upon completion, students should be able to construct, analyze, verify, and troubleshoot linear integrated circuits using appropriate techniques and test equipment.						
ELN 133	Digital Electronics		3	3	0	4
Prerequisites:						
Corequisites:						
This course covers combinational and sequential logic circuits. Topics include number systems, Boolean algebra, logic families, MSI and LSI circuits, AC/DC converters, and other related topics. Upon completion, students should be able to construct, analyze, verify, and troubleshoot digital circuits using appropriate techniques and test equipment.						

Course Descriptions

ELN 229 Industrial Electronics	2	4	0	4
Prerequisites: ELC 112, ELC 131, or ELC 140				
Corequisites:				
This course covers semiconductor devices used in industrial applications. Topics include the basic theory, application, and operating characteristics of semiconductor devices (filters, rectifiers, FET, SCR, Diac, Triac, Op-amps, etc). Upon completion, students should be able to install and/or troubleshoot these devices for proper operation in an industrial electronic circuit.				
ELN 232 Intro to Microprocessors	3	3	0	4
Prerequisites: ELN 133				
Corequisites:				
This course introduces microprocessor architecture and microcomputer systems including memory and input/output interfacing. Topics include assembly language programming, bus architecture, bus cycle types, I/O systems, memory systems, interrupts, and other related topics. Upon completion, students should be able to interpret, analyze, verify, and troubleshoot fundamental microprocessor circuits and programs using appropriate techniques and test equipment.				
ELN 275 Troubleshooting	1	2	0	2
Prerequisites:				
Corequisites: ELN 133 and ELN 141				
This course covers techniques of analyzing and repairing failures in electronic equipment. Topics include safety, signal tracing, use of service manuals, and specific troubleshooting methods for analog, digital, and other electronics-based circuits and systems. Upon completion, students should be able to logically diagnose and isolate faults and perform necessary repairs to meet manufacturers' specifications.				
EMS 110 EMT-Basic	4	6	0	6
Prerequisites: Enrollment in EMS program				
Corequisites:				
This course introduces basic emergency medical care. Topics include preparatory, airway, patient assessment, medical emergencies, trauma, infants and children, and operations. Upon completion, students should be able to demonstrate the skills necessary to achieve North Carolina State or National Registry EMT-Basic certification.				
EMS 120 Intermediate Interventions	2	3	0	3
Prerequisites: EMS 110 and EMS 111				
Corequisites: EMS 121 or EMS 122 and EMS 130 and EMS 131				
This course is designed to provide the necessary information for interventions appropriate to the EMT-Intermediate and is required for intermediate certification. Topics include automated external defibrillation, basic cardiac electrophysiology, intravenous therapy, venipuncture, acid-base balance, and fluids and electrolytes. Upon completion, students should be able to properly establish an IV line, obtain venous blood, utilize AEDs, and correctly interpret arterial blood gases.				
EMS 121 EMS Clinical Practicum I	0	0	6	2
Prerequisites: EMS 110 and EMS 111				
Corequisites: EMS 120, EMS 130, and EMS 131				
This course is the initial hospital and field internship and is required for intermediate and paramedic certification. Emphasis is placed on intermediate-level care. Upon completion, students should be able to demonstrate competence with intermediate-level skills.				

Course Descriptions

EMS 130	Pharmacology I for EMS	1	3	0	2
Prerequisites: EMS 110 and minimum ASSET score of 40 in Elementary Algebra or successful completion of MAT 070					
Corequisites: EMS 120 and EMS 131					
This course introduces the fundamental principles of pharmacology and medication administration and is required for intermediate and paramedic certification. Topics include terminology, pharmacokinetics, pharmacodynamics, weights, measures, drug calculations, legislation, and administration routes. Upon completion, students should be able to accurately calculate drug dosages, properly administer medications, and demonstrate general knowledge of pharmacology.					
EMS 131	Adv Airway Management	1	2	0	2
Prerequisites: EMS 110					
Corequisites: EMS 120 and EMS 130					
This course is designed to provide advanced airway management techniques and is required for intermediate and paramedic certification. Topics include respiratory anatomy and physiology, airway, ventilation, adjuncts, surgical intervention, and rapid sequence intubation. Upon completion, students should be able to properly utilize all airway adjuncts and pharmacology associated with airway control and maintenance.					
EMS 140	Rescue Scene Management	1	3	0	2
Prerequisites:					
Corequisites:					
This course introduces rescue scene management and is required for paramedic certification. Topics include response to hazardous material conditions, medical incident command, and extrication of patients from a variety of situations. Upon completion, students should be able to recognize and manage rescue operations based upon initial and follow-up scene assessment.					
EMS 150	Emergency Vehicles & EMS Comm	1	3	0	2
Prerequisites:					
Corequisites:					
This course examines the principles governing emergency vehicles, maintenance of emergency vehicles, and EMS communication equipment and is required for paramedic certification. Topics include applicable motor vehicle laws affecting emergency vehicle operation, defensive driving, collision avoidance techniques, communication systems, and information management systems. Upon completion, students should have a basic knowledge of emergency vehicles, maintenance, and communication needs.					
EMS 210	Adv Patient Assessment	1	3	0	2
Prerequisites: EMS 120, EMS 130, EMS 131, and either EMS 121					
Corequisites:					
This course covers advanced patient assessment techniques and is required for paramedic certification. Topics include initial assessment, medical-trauma history, field impression, complete physical exam process, on-going assessment, and documentation skills. Upon completion, students should be able to utilize basic communication skills and record and report collected patient data.					
EMS 220	Cardiology	2	6	0	4
Prerequisites: EMS 120, EMS 130, and EMS 131					
Corequisites:					
This course provides an in-depth study of cardiovascular emergencies and is required for paramedic certification. Topics include anatomy and physiology, pathophysiology, rhythm interpretation, cardiac pharmacology, and patient treatment. Upon completion, students should be able to certify at the Advanced Cardiac Life Support Provider level utilizing American Heart Association guidelines.					
EMS 221	EMS Clinical Practicum II	0	0	9	3
Prerequisites: EMS 121; or EMS 122 and COE 111					
Corequisites:					
This course is a continuation of the hospital and field internship required for paramedic certification. Emphasis is placed on advanced-level care. Upon completion, students should be able to demonstrate continued progress in advanced-level patient care.					

Course Descriptions

EMS 231	EMS Clinical Practicum III	0	0	9	3
Prerequisites:	EMS 221; or EMS 222 and COE 121				
Corequisites:	This course is a continuation of the hospital and field internship required for paramedic certification. Emphasis is placed on advanced-level care. Upon completion, students should be able to demonstrate continued progress in advanced-level patient care.				
EMS 235	EMS Management	2	0	0	2
Prerequisites:	Enrollment in EMS program				
Corequisites:	This course stresses the principles of managing a modern emergency medical service system. Topics include structure and function of municipal governments, EMS grantsmanship, finance, regulatory agencies, system management, legal issues, and other topics relevant to the EMS manager. Upon completion, students should be able to understand the principles of managing emergency medical service delivery systems.				
EMS 240	Special Needs Patients	1	3	0	2
Prerequisites:	EMS 120 and EMS 121 or EMS 122, EMS 130, and EMS 131				
Corequisites:	This course includes concepts of crisis intervention and techniques of dealing with special needs patients and is required for paramedic certification. Topics include behavioral emergencies, abuse, assault, challenged patients, personal well-being, home care, and psychotherapeutic pharmacology. Upon completion, students should be able to recognize and manage frequently encountered special needs patients.				
EMS 241	EMS Clinical Practicum IV	0	0	9	3
Prerequisites:	EMS 231; or EMS 232 and COE 131				
Corequisites:	This course is a continuation of the hospital and field internship required for paramedic certification. Emphasis is placed on advanced-level care. Upon completion, students should be able to provide advanced-level patient care as an entry-level paramedic.				
EMS 250	Advanced Medical Emergencies	2	3	0	3
Prerequisites:	EMS 120, EMS 130, EMS 131, and either EMS 121 or EMS 122				
Corequisites:	This course provides an in-depth study of medical conditions frequently encountered in the prehospital setting and is required for paramedic certification. Topics include pulmonology, neurology, endocrinology, anaphylaxis, gastroenterology, toxicology, and environmental emergencies integrating case presentation and emphasizing pharmacotherapeutics. Upon completion, students should be able to recognize and manage frequently encountered medical conditions based upon initial patient impression.				
EMS 260	Advanced Trauma Emergencies	1	3	0	2
Prerequisites:	EMS 120, EMS 130, EMS 131, and either EMS 121 or EMS 122				
Corequisites:	This course provides in-depth study of trauma including pharmacological interventions for conditions frequently encountered in the prehospital setting and is required for paramedic certification. Topics include hemorrhage control, shock, burns, and trauma to head, spine, soft tissue, thoracic, abdominal, and musculoskeletal areas with case presentations utilized for special problems situations. Upon completion, students should be able to recognize and manage trauma situations based upon patient impressions and should meet requirements of BTLS or PHTLS courses.				
EMS 270	Life Span Emergencies	2	2	0	3
Prerequisites:	EMS 120, EMS 130, and EMS 131				
Corequisites:	This course, required for paramedic certification, covers medical/ethical/legal issues and the spectrum of age-specific emergencies from conception through death. Topics include gynecological, obstetrical, neonatal, pediatric, and geriatric emergencies and pharmacological therapeutics. Upon completion, students should be able to recognize and treat age-specific emergencies and certify at the Pediatric Advanced Life Support Provider level.				

Course Descriptions

EMS 280 EMS Bridging Course	2	2	0	3
Prerequisites:				
Corequisites:				
This course is designed to bridge the knowledge gained in a continuing education paramedic program with the knowledge gained in an EMS curriculum program. Topics include patient assessment, documentation, twelve-lead ECG analysis, thrombolytic agents, cardiac pacing, and advanced pharmacology. Upon completion, students should be able to perform advanced patient assessment documentation using the problem-oriented medical record format and manage complicated patients.				
 EMS 285 EMS Capstone				
Prerequisites: EMS 220, EMS 250, and EMS 260	1	3	0	2
Corequisites:				
This course provides an opportunity to demonstrate problem-solving skills as a team leader in simulated patient scenarios and is required for paramedic certification. Emphasis is placed on critical thinking, integration of didactic and psychomotor skills, and effective performance in simulated emergency situations. Upon completion, students should be able to recognize and appropriately respond to a variety of EMS-related events.				
 ENG 070 Basic Language Skills				
Prerequisites:	2	2	0	3
Corequisites:				
This course introduces the fundamentals of standard written English. Emphasis is placed on effective word choice, recognition of sentences and sentence parts, and basic usage. Upon completion, students should be able to generate a variety of sentence types that clearly express ideas. <i>This course does not satisfy the developmental reading and writing prerequisite for ENG 111 or ENG 111A.</i>				
 ENG 080 Writing Foundations				
Prerequisites: ENG 070 or ENG 075	3	2	0	4
Corequisites:				
This course introduces the writing process and stresses effective sentences. Emphasis is placed on applying the conventions of written English, reflecting standard usage and mechanics in structuring a variety of sentences. Upon completion, students should be able to write correct sentences and a unified, coherent paragraph. <i>This course does not satisfy the developmental reading and writing prerequisite for ENG 111 or ENG 111A.</i>				
 ENG 090 Composition Strategies				
Prerequisites: ENG 080 or ENG 085	3	0	0	3
Corequisites:				
This course provides practice in the writing process and stresses effective paragraphs. Emphasis is placed on learning and applying the conventions of standard written English in developing paragraphs within the essay. Upon completion, students should be able to compose a variety of paragraphs and a unified, coherent essay. <i>This course satisfies the developmental writing requirement for ENG 111 and ENG 111A.</i>				
 ENG 090A Comp Strategies Lab				
Prerequisites: ENG 080 or ENG 085	0	2	0	1
Corequisites: ENG 090				
This writing lab is designed to practice the skills introduced in ENG 090. Emphasis is placed on learning and applying the conventions of standard written English in developing paragraphs within the essay. Upon completion, students should be able to compose a variety of paragraphs and a unified, coherent essay.				

Course Descriptions

ENG 095	Reading & Comp Strategies	5	0	0	5
Prerequisites:	ENG 080 and RED 080; or ENG 085				
Corequisites:	None				
This course uses whole language to strengthen proficiency in reading and writing for college. Emphasis is placed on applying critical reading skills to narrative and expository texts and on using the writing process. Upon completion, students should be able to comprehend, analyze, and evaluate college texts and to compose essays in preparation for college writing. <i>This course integrates ENG 090 and RED 090. This course satisfies the developmental reading and writing prerequisites for ENG 111 and ENG 111A.</i>					
ENG 101	Applied Communications I	3	0	0	3
Prerequisites:					
Corequisites:					
This course is designed to enhance reading and writing skills for the workplace. Emphasis is placed on technical reading, job-related vocabulary, sentence writing, punctuation, and spelling. Upon completion, students should be able to identify main ideas with supporting details and produce mechanically correct short writings appropriate to the workplace. <i>This is a diploma-level course.</i>					
ENG 102	Applied Communications II	3	0	0	3
Prerequisites:					
Corequisites:					
This course is designed to enhance writing and speaking skills for the workplace. Emphasis is placed on generating short writings such as job application documents, memoranda, and reports and developing interpersonal communication skills with employees and the public. Upon completion, students should be able to prepare effective, short, and job-related written and oral communications. <i>This is a diploma-level course.</i>					
ENG 111	Expository Writing	3	0	0	3
Prerequisites:	ENG 090 and RED 090; or ENG 095				
Corequisites:					
This course is the required first course in a series of two designed to develop the ability to produce clear expository prose. Emphasis is placed on the writing process including audience analysis, topic selection, thesis support and development, editing, and revision. Upon completion, students should be able to produce unified, coherent, well-developed essays using standard written English. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in English composition.</i>					
ENG 112	Argument-Based Research	3	0	0	3
Prerequisites:	ENG 111				
Corequisites:	None				
This course, the second in a series of two, introduces research techniques, documentation styles, and argumentative strategies. Emphasis is placed on analyzing data and incorporating research findings into documented argumentative essays and research projects. Upon completion, students should be able to summarize, paraphrase, interpret, and synthesize information from primary and secondary sources using standard research format and style. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in English composition. This course is also available through the Virtual Learning Community (VLC).</i>					

Course Descriptions

ENG 113 Literature-Based Research	3	0	0	3
Prerequisites: ENG 111				
Corequisites:				
This course, the second in a series of two, expands the concepts developed in ENG 111 by focusing on writing that involves literature-based research and documentation. Emphasis is placed on critical reading and thinking and the analysis and interpretation of prose, poetry, and drama: plot, characterization, theme, cultural context, etc. Upon completion, students should be able to construct mechanically sound, documented essays and research papers that analyze and respond to literary works. In addition, this course includes oral presentations of research projects. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in English composition.</i>				
ENG 114 Professional Research & Reporting	3	0	0	3
Prerequisites: ENG 111				
Corequisites:				
This course, the second in a series of two, is designed to teach professional communication skills. Emphasis is placed on research, listening, critical reading and thinking, analysis, interpretation, and design used in oral and written presentations. Upon completion, students should be able to work individually and collaboratively to produce well-designed business and professional written and oral presentations. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in English composition.</i>				
ENG 131 Introduction to Literature	3	0	0	3
Prerequisites: ENG 111				
Corequisites: ENG 112, ENG 113, or ENG 114				
This course introduces the principal genres of literature. Emphasis is placed on literary terminology, devices, structure, and interpretation. Upon completion, students should be able to analyze and respond to literature. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.</i>				
ENG 231 American Literature I	3	0	0	3
Prerequisites: ENG 112, ENG 113, or ENG 114				
Corequisites:				
This course covers selected works in American literature from its beginnings to 1865. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.</i>				
ENG 232 American Literature II	3	0	0	3
Prerequisites: ENG 112, ENG 113, or ENG 114				
Corequisites:				
This course covers selected works in American literature from 1865 to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.</i>				
ENG 233 Major American Writers	3	0	0	3
Prerequisites: ENG 112, ENG 113, or ENG 114				
Corequisites:				
This course provides an intensive study of the works of several major American authors. Emphasis is placed on American history, culture, and the literary merits. Upon completion, students should be able to interpret, analyze, and evaluate the works studied. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.</i>				

Course Descriptions

ENG 241	British Literature I		3	0	0	3
Prerequisites:	ENG 112, ENG 113, or ENG 114					
Corequisites:						
This course covers selected works in British literature from its beginnings to the Romantic Period. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.</i>						
ENG 242	British Literature II		3	0	0	3
Prerequisites:	ENG 112 or ENG 113 or ENG 114					
Corequisites:						
This course covers selected works in British literature from the Romantic Period to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.</i>						
ENG 243	Major British Writers		3	0	0	3
Prerequisites:	ENG 112, ENG 113, or ENG 114					
Corequisites:						
This course provides an intensive study of the works of several major British authors. Emphasis is placed on British history, culture, and the literary merits. Upon completion, students should be able to interpret, analyze, and evaluate the works studied. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.</i>						
ENG 261	World Literature I		3	0	0	3
Prerequisites:	ENG 112 or ENG 113 or ENG 114					
Corequisites:						
This course introduces selected works from the Pacific, Asia, Africa, Europe, and the Americas from their literary beginnings through the seventeenth century. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.</i>						
ENG 262	World Literature II		3	0	0	3
Prerequisites:	ENG 112 or ENG 113 or ENG 114					
Corequisites:						
This course introduces selected works from the Pacific, Asia, Africa, Europe, and the Americas from the eighteenth century to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.</i>						
ENG 271	Contemporary Literature		3	0	0	3
Prerequisites:	ENG*112 or ENG*113 or ENG*114					
Corequisites:						
This course includes a study of contemporary literature. Emphasis is placed on literary and cultural trends of selected texts. Upon completion, students should be able to interpret, analyze, and respond to the literature. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.</i>						
FOR 121	Dendrology		2	6	0	4
Prerequisites:						
Corequisites:						
This course covers field identification, classifications, uses, and nomenclature of trees. Emphasis is placed on silvics, characteristics, commercial importance, and wildlife benefits of trees. Upon completion, students should be able to identify trees and understand their uses.						

Course Descriptions

FOR 123	Forest Botany	2	3	0	3
Prerequisites:					
Corequisites:					
This course introduces the structures and processes of forest plants. Emphasis is placed on dissection and direct examination of roots, shoots, and leaves. Upon completion, students should be able to identify plant parts and understand their functions.					
FOR 131	Forest Measurements	2	3	0	3
Prerequisites:					
Corequisites:					
This course introduces basic land and tree measurement equipment and mapping techniques. Emphasis is placed on developing skills for land, tree, and log measurements. Upon completion, students should be able to accurately use land and tree measurement equipment.					
FOR 151	Forest Equipment Operation	1	6	0	3
Prerequisites:					
Corequisites:					
This course covers the basics of forest equipment safety and operation. Emphasis is placed on preventive maintenance and safe operating procedures. Upon completion, students should be able to match a machine to a job and perform basic machine tasks.					
FOR 171	Intro to Forest Resources	3	0	0	3
Prerequisites:					
Corequisites:					
This course introduces the relationships within the forest and its various uses. Emphasis is placed on forest history, ecology, protection, management, policies, and practices. Upon completion, students should be able to discuss the relationship of the forest and its use to the welfare of mankind.					
FOR 173	Soils & Hydrology	2	3	0	3
Prerequisites:					
Corequisites:					
This course covers concepts of soils and water including physical and chemical soil properties. Emphasis is placed on soil sampling, identification, plant-site relationships, water movement, and properties. Upon completion, students should be able to relate soil and water characteristics to forest growth and water quality.					
FOR 175	Wildlife/Environmental Studies	2	3	0	3
Prerequisites:					
Corequisites:					
This course provides an overview of wildlife and environmental issues pertaining to the ecological, social, and economic aspects of forestry. Topics include wildlife management, wetland delineation, endangered species detection, protection, landowner rights, liabilities, regulations, and law. Upon completion, students should be able to demonstrate a knowledge of how wildlife and environmental issues affect forestry in the United States.					
FOR 213	Remote Sensing	2	3	0	3
Prerequisites:					
Corequisites:					
This course introduces indirect methods for gathering information. Topics include the use of aerial photography and digital imagery for land description, quantification, and qualification. Upon completion, students should be able to use remote sensing devices and data in forest decision making.					
FOR 215	Intro to GIS/GPS	1	4	0	3
Prerequisites:					
Corequisites:					
This course introduces geographic information systems and global positioning devices. Emphasis is placed on the use of existing hardware and software to create and update computer generated maps. Upon completion, students should be able to understand the uses and limitations of GIS and GPS devices in forestry applications.					

Course Descriptions

FOR 225	Silvics & Silviculture	3	3	0	4
Prerequisites:					
Corequisites:					
	This course covers the establishment, development, care, and harvesting of forest stands. Emphasis is placed on the application of various techniques used to control stand establishment, composition, and growth. Upon completion, students should be able to understand and apply appropriate forest stand improvement techniques.				
FOR 232	Forest Mensuration	2	6	0	4
Prerequisites: FOR 131					
Corequisites:					
	This course provides applications of previously covered measurement techniques to the volume estimation and valuation of forest stands. Emphasis is placed on applications of various timber cruising methods. Upon completion, students should be able to determine the size, volume, and quality of forest stands.				
FOR 234	Forest Surveying	2	6	0	4
Prerequisites:					
Corequisites:					
	This course covers the basic concepts of plane surveying: distance and angle measurement, leveling with a variety of instruments, field note organization, and computation. Emphasis is placed on boundary location and acreage determination. Upon completion, students should be able to survey a tract of land.				
FOR 240	Forest Protection	2	3	0	3
Prerequisites:					
Corequisites:					
	This course covers the forces that affect the health and vigor of the nation's forests. Emphasis is placed on wildfire management, prescribed burning, entomology, pathology, and forest health. Upon completion, students should be able to identify the major pests which affect the forest and understand and recommend control methods.				
FOR 245	Forest Pesticides	2	3	0	3
Prerequisites:					
Corequisites:					
	This course provides a basic understanding of the importance of forest pesticides. Topics include prescriptions, methods, regulations, laws, and safety. Upon completion, students should be able to safely plan, implement, and execute a pesticide action plan in a forest environment.				
FOR 271	Forest Management	2	3	0	3
Prerequisites: FOR 225 and FOR 232					
Corequisites:					
	This course is designed as a capstone course for forest management majors to apply skills previously learned. Emphasis is placed on recommendations forest managers make to provide services on forest lands to meet the owners' objectives. Upon completion, students should be able to develop forest management plans for various forest ownerships.				
FOR 282	Forest Recreation	2	3	0	3
Prerequisites:					
Corequisites:					
	This course covers the principles and problems involved in the utilization of our natural resources for recreational purposes. Topics include planning, development, and maintenance of trails, campgrounds, waterways, and wilderness areas. Upon completion, students should be able to understand the challenges and demands on our natural resources for recreational purposes.				

Course Descriptions

FOR 285	Logging & Marketing		2	3	0	3
Prerequisites:						
Corequisites:						
This course covers logging systems commonly used in the Southeast. Emphasis is placed on roading, matching equipment to job requirements, safety, legal requirements, and primary manufacturing of forest products. Upon completion, students should be able to supervise a logging operation.						
GEL 111	Introductory Geology		3	2	0	4
Prerequisites:						
Corequisites:						
This course introduces basic landforms and geological processes. Topics include rocks, minerals, volcanoes, fluvial processes, geological history, plate tectonics, glaciers, and coastal dynamics. Upon completion, students should be able to describe basic geological processes that shape the earth. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.</i>						
GRO 120	Gerontology		3	0	0	3
Prerequisites: PSY 150						
Corequisites:						
This course covers the psychological, social, and physical aspects of aging. Emphasis is placed on the factors that promote mental and physical well being. Upon completion, students should be able to recognize the aging process and its psychological, social, and physical aspects.						
GRO 240	Gerontology Care Managing		2	0	0	2
Prerequisites: GRO 120						
Corequisites:						
This course covers community resources and discusses care management, including assessment, care planning, evaluation, issues of family, high risk, and self-care. Topics include funding, eligibility for community and health resources, care management protocols, care plan development, and identification of major resources and barriers to self-care. Upon completion, students will be able to develop a care plan for older adults at various levels of needs, including community and health resources.						
GSM 111	Gunsmithing I		2	12	0	6
Prerequisites:						
Corequisites:						
This course introduces hand tools, blueprints, and basic machine tools used in gunsmithing. Emphasis is placed on safety and the completion of projects from blueprints using hand and machine tools. Upon completion, students should be able to read and work from blueprints using hand tools and make basic machine tool setups.						
GSM 120	Gunsmithing Tools		2	12	0	6
Prerequisites:						
Corequisites:						
This course covers the manufacture of tools used in the gunsmithing trade. Emphasis is placed on the production of tools used for gunsmithing from working drawings. Upon completion, students should be able to use blueprints to produce tools and fixtures for use in gunsmithing.						
GSM 123	Basic Stockmaking		2	12	0	6
Prerequisites:						
Corequisites:						
This course introduces the design, layout, and proper wood selection for stocks. Topics include building stocks by hand, one-butts stocks, and fore-ends for a two-piece shotgun. Upon completion, students should be able to choose a suitable piece of wood, lay out a stock, and produce a butt stock and fore-end for a firearm.						

Course Descriptions

GSM 125	Barrel Fitting/Alteration		3	9	0	6
Prerequisites:						
Corequisites:						
This course covers custom barrel fitting, chambering, and action alterations. Emphasis is placed on safety and completion of custom barreled actions using hand and machine tools and welding equipment. Upon completion, students should be able to perform alterations to various firearms, including custom-barreled actions, recoil pads, and choke tubes.						
GSM 127	General Repair		3	9	0	6
Prerequisites:						
Corequisites:						
This course introduces the design and function of firearms, sight mounting, and basic reloading of ammunition. Emphasis is placed on safety and the completion of repair projects using hand and machine tools and the furnace. Upon completion, students should be able to diagnose and correct basic malfunctions, produce and fix simple parts, choose and install sights, and perform basic reloading skills.						
GSM 223	Rifle Stockmaking		2	12	0	6
Prerequisites:						
Corequisites:						
This course introduces inletting, shaping, and finishing of custom rifle stocks. Emphasis is placed on the design and completion of a custom rifle stock using hand and machine tools. Upon completion, students should be able to lay out a rifle stock, inlet the barrel action, and shape and finish a custom rifle stock.						
GSM 225	Gunmetal Refinishing		2	12	0	6
Prerequisites:						
Corequisites:						
This course introduces gun metal finishes. Topics include metal polishing and the finishing of steel, aluminum, and castings using hand tools and buffing equipment. Upon completion, students should be able to caustic blue, rust blue, anodize, parkerize, and color-case harden gunmetal.						
GSM 227	Advanced Repair Technology		2	12	0	6
Prerequisites:						
Corequisites:						
This course covers advanced repair techniques and trigger designs on rifles and shotguns. Emphasis is placed on repairing various firearms and adjusting trigger pulls to safe industry standards using fixtures and hand and machine tools. Upon completion, students should be able to safely adjust and repair various firearms.						
GSM 230	Handgun Technology		2	9	0	5
Prerequisites:						
Corequisites:						
This course covers the design, function, and customizing of handguns. Emphasis is placed on repairs and custom alterations. Upon completion, students should be able to perform repairs on revolvers and semi-automatic pistols and customize handguns.						
GSM 235	Current Gunsmithing Techniques		2	12	0	6
Prerequisites:						
Corequisites:						
This course introduces current materials and gunsmithing techniques. Emphasis is placed on material characteristics, applications, and tooling requirements. Upon completion, students should be able to demonstrate competence in current gunsmithing techniques such as composite stockmaking and synthetic bedding.						

Course Descriptions

HIS 114 Comparative World History	3	0	0	3
Prerequisites: Corequisites: This course provides a comparison of western and non-western cultures. Emphasis is placed on historical developments and their impact on the modern world through religion, politics, economics, and social developments. Upon completion, students should be able to compare and contrast western and non-western cultures. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.</i>				
HIS 131 American History I	3	0	0	3
Prerequisites: Corequisites: This course is a survey of American history from pre-history through the Civil War era. Topics include the migrations to the Americas, the colonial and revolutionary periods, the development of the Republic, and the Civil War. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in early American history. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.</i>				
HIS 132 American History II	3	0	0	3
Prerequisites: Corequisites: This course is a survey of American history from the Civil War era to the present. Topics include industrialization, immigration, the Great Depression, the major American wars, the Cold War, and social conflict. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in American history since the Civil War. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.</i>				
HIS 167 The Vietnam War	3	0	0	3
Prerequisites: Corequisites: This course covers the American political and military involvement in Vietnam from 1944 to 1975. Topics include the French colonial policy, Vietnamese nationalism, the war in France, American involvement, and resolution of the conflict. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments that influenced the Vietnam War.				
HIS 236 North Carolina History	3	0	0	3
Prerequisites: None Corequisites: None This course is a study of geographical, political, economic, and social conditions existing in North Carolina from America's discovery to the present. Topics include native and immigrant backgrounds; colonial, antebellum, and Reconstruction periods; party politics; race relations; and the transition from an agrarian to an industrial economy. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in North Carolina. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.</i>				
HSE 110 Intro to Human Services	2	2	0	3
Prerequisites: Corequisites: This course introduces the human services field, including the history, agencies, roles, and careers. Topics include personal/professional characteristics, diverse populations, community resources, disciplines in the field, systems, ethical standards, and major theoretical and treatment approaches. Upon completion, students should be able to identify the knowledge, skills, and roles of the human services worker.				

Course Descriptions

HSE 112 Group Process I		1	2	0	2
Prerequisites: Enrollment in the Human Services program					
Corequisites:					
This course introduces interpersonal concepts and group dynamics. Emphasis is placed on self-awareness facilitated by experiential learning in small groups with analysis of personal experiences and the behavior of others. Upon completion, students should be able to show competence in identifying and explaining how people are influenced by their interactions in group settings. This course includes an oral communication component.					
HSE 123 Interviewing Techniques		2	2	0	3
Prerequisites:					
Corequisites:					
This course covers the purpose, structure, focus, and techniques employed in effective interviewing. Emphasis is placed on observing, attending, listening, responding, recording, and summarizing of personal histories with instructor supervision. Upon completion, students should be able to perform the basic interviewing skills needed to function in the helping relationship. This course includes an oral communication component.					
HSE 125 Counseling		2	2	0	3
Prerequisites: PSY 150					
Corequisites:					
This courses covers the major approaches to psychotherapy and counseling, including theory, characteristics, and techniques. Emphasis is placed on facilitation of sel-exploration, problem solving, decision making, and personal growth. Upon completion, students should be able to understand various theories of counseling and demonstrate counseling techniques. This course includes an oral communication component.					
HSE 210 Human Services Issues		2	0	0	2
Prerequisites:					
Corequisites:					
This courses covers current issues and trends in the field of human services. Emphasis is placed on contemporary topics with relevance to special issues in a multifaceted field. Upon completion, students should be able to integrate the knowledge, skills, and experiences gained in classroom and clinical experiences with emerging trends in the field. This course includes an oral communication component.					
HSE 220 Case Management		2	2	0	3
Prerequisites: HSE 110					
Corequisites:					
This courses covers the variety of tasks associated with professional case management. Topics include treatment planning, needs assessment, referral procedures, and follow-up and integration of services. Upon completion, students should be able to effectively manage the care of the whole person from initial contact through termination of services.					
HSE 225 Crisis Intervention		3	0	0	3
Prerequisites:					
Corequisites:					
This course introduces the basic theories and principles of crisis intervention. Emphasis is place don identifying and demonstrating appropriate and differential techniques for intervening in various crisis situations. Upon completion, students should be able to assess crisis situations and respond appropriately. This course include an oral communication component.					
HSE 227 Children & Adolescents in Crisis		3	0	0	3
Prerequisites:					
Corequisites:					
This course covers the crises affecting children and adolescents in contemporary society. Emphasis is placed on abuse and neglect, suicide and murder, dysfunctional family living, poverty, and violence. Upon completion, students should be able to identify and discuss intervention strategies and available services for the major contemporary crises affecting children and adolescents.					

Course Descriptions

HYD 110	Hydraulics/Pneumatics I		2	3	0	3
Prerequisites:						
Corequisites:						
This course introduces the basic components and functions of hydraulic and pneumatic systems. Topics include standard symbols, pumps, control valves, control assemblies, actuators, FRL, maintenance procedures, and switching and control devices. Upon completion, students should be able to understand the operation of a fluid power system, including design, application, and troubleshooting.						
HYD 180	Pneumatics in Automation		2	3	0	3
Prerequisites:						
Corequisites:						
This course introduces the basic components and functions of pneumatic systems and their application to automated machinery. Topics include standard symbols, compressors, control valves, control circuits, actuators, maintenance procedures, switching and control devices as applied to automated machinery. Upon completion, students should be able to demonstrate an understanding of the operation of compressed air and vacuum systems including design, troubleshooting, and applications.						
ISC 110	Workplace Safety		1	0	0	1
Prerequisites:						
Corequisites:						
This course introduces the basic concepts of workplace safety. Topics include fire, ladders, lifting, lock-out/tag-out, personal protective devices, and other workplace safety issues related to OSHA compliance. Upon completion, students should be able to demonstrate an understanding of the components of a safe workplace.						
ISC 131	Quality Management		3	0	0	3
Prerequisites:						
Corequisites:						
This course provides a study and analysis of the aspects and implications of quality management that lead to customer satisfaction through continuous quality improvement. Topics include Total Quality Management, ISO 9000, organizing for quality, supplier/vendor relationships, and the role of leadership in quality management. Upon completion, students should be able to demonstrate an understanding of quality management concepts and techniques.						
ITN 110	Intro to Web Graphics		2	2	0	3
Prerequisites:						
Corequisites:						
This course is the first of two courses covering the creation of web graphics, addressing problems peculiar to WWW display using appropriate software. Topics include web graphics file types, type conversion, RGB color, the browser-safe palette, elementary special effects, image maps, and other related topics. Upon completion, students should be able to create graphics such as banners, buttons, backgrounds, and other graphics for Web pages.						
ITN 120	Intro Internet Multimedia		2	2	0	3
Prerequisites:						
Corequisites:						
This is the first of two courses covering the creation of Internet Multimedia. Topics include Internet multimedia file types, file type conversion, acquisition of digital audio/video, streaming audio/video and graphics animation plug-in programs and other related topics. Upon completion, students should be able to create Internet multimedia presentations utilizing a variety of methods and applications.						

Course Descriptions

ITN 130	Web Site Management		2	2	0	3
Prerequisites:						
Corequisites:						
This course covers the issues involved in web site architecture. Topics include operating system directory structures, web site structural design, web site navigation, web site maintenance, backup and security. Upon completion, students should be able to design a web site directory plan optimized for navigation and ease of maintenance.						
ITN 140	Web Development Tools		2	2	0	3
Prerequisites:						
Corequisites:						
This course provides an introduction to web development software suites. Topics include the creation of web sites and applets using web development software. Upon completion, students should be able to create entire web sites and supporting applets.						
ITN 150	Internet Protocols		2	2	0	3
Prerequisites:						
Corequisites:						
This course introduces the student to the application protocols used on the Internet. Topics include HTTP, Secure HTTP, TCP/IP, and related applications such as FTP, TELNET, and PING. Upon completion, students should be able to use the protocols as they pertain to the Internet, as well as, setup and maintain these protocols.						
ITN 170	Intro to Internet Database		2	2	0	3
Prerequisites:						
Corequisites:						
This is the first of two courses introducing the use of databases to store, retrieve and query data through HTML forms. Topics include database design for Internet databases, use of ODBC-compliant databases. Upon completion, students should be able to create and maintain a database that will collect, query and report on data via an HTML form.						
ITN 260	Intro to E-Commerce		2	2	0	3
Prerequisites:						
Corequisites:						
This course introduces the concepts and tools to implement electronic commerce via the Internet. Topics include application and server software selection, securing transactions, use and verification of credit cards, publishing of catalogs, and site administration. Upon completion, students should be able to setup a working e-commerce Internet web site.						
ITN 270	Adv Internet Databases		2	2	0	3
Prerequisites:	ITN*170					
Corequisites:						
This is the second of two courses on Internet databases. Topics include database distribution and replication, data warehousing, integration of desktop and Internet database structures. Upon completion, students should be able to design and implement an Internet database.						
MAT 050	Basic Math Skills		3	2	0	4
Prerequisites:						
Corequisites:						
This course is designed to strengthen basic math skills. Topics include properties, rounding, estimating, comparing, converting, and computing whole numbers, fractions, and decimals. Upon completion, students should be able to perform basic computations and solve relevant mathematical problems.						

Course Descriptions

MAT 060 Essential Mathematics	3	2	0	4
Prerequisites: MAT 050				
Corequisites:				
This course is a comprehensive study of mathematical skills which should provide a strong mathematical foundation to pursue further study. Topics include principles and applications of decimals, fractions, percents, ratio and proportion, order of operations, geometry, measurement, and elements of algebra and statistics. Upon completion, students should be able to perform basic computations and solve relevant, multi-step mathematical problems using technology where appropriate.				
 MAT 070 Introductory Algebra	 3	 2	 0	 4
Prerequisites: MAT 060				
Corequisites: RED 080 or ENG 085				
This course establishes a foundation in algebraic concepts and problem solving. Topics include signed numbers, exponents, order of operations, simplifying expressions, solving linear equations and inequalities, graphing, formulas, polynomials, factoring, and elements of geometry. Upon completion, students should be able to apply the above concepts in problem solving using appropriate technology.				
 MAT 080 Intermediate Algebra	 3	 2	 0	 4
Prerequisites: MAT 070				
Corequisites: RED 080 or ENG 085				
This course continues the study of algebraic concepts with emphasis on applications. Topics include factoring; rational expressions; rational exponents; rational, radical, and quadratic equations; systems of equations; inequalities; graphing; functions; variations; complex numbers; and elements of geometry. Upon completion, students should be able to apply the above concepts in problem solving using appropriate technology.				
 MAT 101 Applied Mathematics I	 2	 2	 0	 3
Prerequisites: MAT 060				
Corequisites:				
This course is a comprehensive review of arithmetic with basic algebra designed to meet the needs of certificate & diploma programs. Topics include arithmetic & geometric skills used in measurement, ratio & proportion, exponents & roots, applications of percent, linear equations, formulas, and statistics. Upon completion, students should be able to solve practical problems in their specific areas of study. <i>This course is intended for certificate & diploma programs.</i>				
 MAT 115 Mathematical Models	 2	 2	 0	 3
Prerequisites: MAT 070 with a minimum grade of C				
Corequisites:				
This course develops the ability to utilize mathematical skills and technology to solve problems at a level found in nonmathematics-intensive programs. Topics include applications to percent, ratio and proportion, formulas, statistics, functional notation, linear functions and their groups, probability sampling techniques, scatter plots, and modeling. Upon completion, students should be able to solve practical problems, reason and communicate with mathematics, and worked confidently, collaboratively, and independently.				
 MAT 120 Geometry & Trigonometry	 2	 2	 0	 3
Prerequisites: MAT 070				
Corequisites:				
This course introduces the concepts of plane trigonometry and geometry with emphasis on applications to problem solving. Topics include the basic definitions and properties of plane and solid geometry, area and volume, right triangle trigonometry, and oblique triangles. Upon completion, students should be able to solve applied problems both independently and collaboratively using technology.				

Course Descriptions

MAT 140 Survey of Mathematics	3	0	0	3
Prerequisites: MAT 070				
Corequisites:				
This course provides an introduction in a non-technical setting to selected topics in mathematics. Topics include, but are not limited to, sets, logic, probability, statistics, matrices, mathematical systems, geometry, topology, mathematics of finance, and modeling. Upon completion, students should be able to understand a variety of mathematical applications, think logically, and be able to work collaboratively and independently. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.</i>				
MAT 151 Statistics I	3	0	0	3
Prerequisites: MAT 080 or MAT 090				
Corequisites:				
This course provides a project-based approach to the study of basic probability, descriptive and inferential statistics, and decision making. Emphasis is placed on measures of central tendency and dispersion, correlation, regression, discrete and continuous probability distributions, quality control, population parameter estimation, and hypothesis testing. Upon completion, students should be able to describe important characteristics of a set of data and draw inferences about a population from sample data. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.</i>				
MAT 165 Finite Mathematics	3	0	0	3
Prerequisites: MAT 161				
Corequisites:				
This course provides topics used to formulate models and to solve and interpret solutions using an algorithmic approach. Topics include linear algebra, linear programming, simplex method, sets and counting, probability, mathematics of finance, and logic. Upon completion, students should be able to demonstrate both an understanding of the theoretical concepts of finite mathematics and the ability to solve related problems. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.</i>				
MAT 171 Precalculus Algebra	3	0	0	3
Prerequisites: MAT 080 or MAT 090				
Corequisites:				
This is the first of two courses designed to emphasize topics which are fundamental to the study of calculus. Emphasis is placed on equations and inequalities, functions (linear, polynomial, rational), systems of equations and inequalities, and parametric equations. Upon completion, students should be able to solve practical problems and use appropriate models for analysis and predictions. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.</i>				
MAT 172 Precalculus Trigonometry	3	0	0	3
Prerequisites: MAT 171				
Corequisites:				
This is the second of two courses designed to emphasize topics which are fundamental to the study of calculus. Emphasis is placed on properties and applications of transcendental functions and their graphs, right and oblique triangle trigonometry, conic sections, and vectors. Upon completion, students should be able to solve practical problems and use appropriate models for analysis and prediction. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.</i>				

Course Descriptions

MAT 263	Brief Calculus		3	0	0	3
Prerequisites:	MAT 161					
Corequisites:						
This course introduces concepts of differentiation and integration and their applications to solving problems; the course is designed for students needing one semester of calculus. Topics include functions, graphing, differentiation, and integration with emphasis on applications drawn from business, economics, and biological and behavioral sciences. Upon completion, students should be able to demonstrate an understanding of the use of basic calculus and technology to solve problems and to analyze and communicate results. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.</i>						
MAT 271	Calculus I		3	2	0	4
Prerequisites:	MAT 172 or MAT 175					
Corequisites:						
This course covers in depth the differential calculus portion of a three-course calculus sequence. Topics include limits, continuity, derivatives, and integrals of algebraic and transcendental functions of one variable, with applications. Upon completion, students should be able to apply differentiation and integration techniques to algebraic and transcendental functions. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.</i>						
MAT 272	Calculus II		3	2	0	4
Prerequisites:	MAT 271					
Corequisites:						
This course provides a rigorous treatment of integration and is the second calculus course in a three-course sequence. Topics include applications of definite integrals, techniques of integration, indeterminate forms, improper integrals, infinite series, conic sections, parametric equations, polar coordinates, and differential equations. Upon completion, students should be able to use integration and approximation techniques to solve application problems. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.</i>						
MEC 111	Machine Processes I		2	3	0	3
Prerequisites:						
Corequisites:						
This course introduces safety, hand tools, machine processes, measuring instruments, and the operation of machine shop equipment. Topics include safety, measuring tools, and the basic setup and operation of lathes, milling machines, drill presses, and saws. Upon completion, students should be able to manufacture a simple part to a specified tolerance.						
MEC 130	Mechanisms		2	2	0	3
Prerequisites:						
Corequisites:						
This course introduces the purpose and action of various mechanical devices. Topics include cams, cables, gear train, differentials, screws, belts, pulleys, shafts, levers, lubricants, and other devices used to transmit or control signals. Upon completion, students should be able to analyze, maintain and troubleshoot the components of mechanical systems.						
MEC 172	Intro to Metallurgy		2	2	0	3
Prerequisites:						
Corequisites:						
This course covers the production, properties, testing, classification, microstructure, and heat-treating effects of ferrous and non-ferrous metals. Topics include the iron-carbon phase diagram, ITT diagram, ANSI code, quenching, senescing, and other processes concerning metallurgical transformations. Upon completion, students should be able to understand the iron-carbon phase diagram, ITT diagram, microstructure images, and other phenomena concerning the behavior of metals.						

Course Descriptions

MED 110 Orientation to Medical Assisting	1	0	0	1
Prerequisites:				
Corequisites:				
This course covers the history of medicine and the role of the medical assistant in the health care setting. Emphasis is placed on professionalism, communication, attitude, behaviors, and duties in the medical environment. Upon completion, students should be able to project a positive attitude and promote the profession of medical assisting.				
 MED 114 Prof Interactions in Health Care				
Prerequisites:				
Corequisites:				
This course is designed to identify various patient behaviors encountered in the medical setting. Emphasis is placed on stressors related to illness, cultural influences, death and dying, and needs specific to patients. Upon completion, students should be able to utilize appropriate methods of verbal and nonverbal communication with empathy and impartiality.				
 MED 118 Medical Law and Ethics				
Prerequisites:				
Corequisites:				
This course covers legal relationships of physicians and patients, contractual agreements, professional liability, malpractice, medical practice acts, informed consent, and bioethical issues. Emphasis is placed on legal terms, professional attitudes, and the principles and basic concepts of ethics and laws involved in providing medical services. Upon completion, students should be able to meet the legal and ethical responsibilities of a multi-skilled health professional.				
 MED 121 Medical Terminology I				
Prerequisites:				
Corequisites:				
This course introduces prefixes, suffixes, and word roots used in the language of medicine. Topics include medical vocabulary and the terms that relate to the anatomy, physiology, pathological conditions, and treatment of selected systems. Upon completion, students should be able to pronounce, spell, and define medical terms as related to selected body systems and their pathological disorders.				
 MED 122 Medical Terminology II				
Prerequisites: MED 121				
Corequisites:				
This course is the second in a series of medical terminology courses. Topics include medical vocabulary and the terms that relate to the anatomy, physiology, pathological conditions, and treatment of selected systems. Upon completion, students should be able to pronounce, spell, and define medical terms as related to selected body systems and their pathological disorders.				
 MED 130 Administrative Office Procedures I				
Prerequisites:				
Corequisites:				
This course introduces medical office administrative procedures. Topics include appointment processing, written and oral communications, medical records, patient orientation, and safety. Upon completion, students should be able to perform basic administrative skills within the medical environment.				
 MED 131 Administrative Office Procedures II				
Prerequisites: MED 130				
Corequisites:				
This course is the second in a series and provides medical office procedures in both economic and management skills. Topics include physical plant maintenance, equipment and supplies, liability coverage, medical economics, and introductory insurance procedures. Upon completion, students should be able to manage the economics of the medical office and supervise personnel.				

Course Descriptions

MED 134 Medical Transcription	2	2	0	3
Prerequisites: MED 121				
Corequisites:				
This course provides the basic knowledge, understanding, and skills required to complete medical reports and transcribe medical dictation. Emphasis is placed on correct punctuation, capitalization, and spelling. Upon completion, students should be able to demonstrate competence in medical transcription.				
 MED 140 Exam Room Procedures I				
Prerequisites:	3	4	0	5
Corequisites:				
This course provides instruction in clinical examining room procedures. Topics include asepsis, infection control, assisting with exams and treatment, patient education, preparation and administration of medications, EKG, vital signs, and medical emergencies. Upon completion, students should be able to demonstrate competence in exam room procedures.				
 MED 150 Laboratory Procedures I				
Prerequisites:	3	4	0	5
Corequisites:				
This course provides instruction in basic lab techniques used by the medical assistant. Topics include lab safety, quality control, collecting and processing specimens, performing selective tests, phlebotomy, screening and follow-up of test results, and OSHA/CLIA regulations. Upon completion, students should be able to perform basic lab tests/skills based on course topics.				
 MED 232 Medical Insurance Coding				
Prerequisites: MED 131	1	3	0	2
Corequisites:				
This course is designed to build upon the coding skills introduced in MED 131. Emphasis is placed on advanced diagnostic and procedural coding in the outpatient facility. Upon completion, students should be able to demonstrate proficiency in coding for reimbursement.				
 MED 260 MED Clinical Externship				
Prerequisites:	0	0	15	5
Corequisites:				
This course provides the opportunity to apply clinical, laboratory, and administrative skills in a medical facility. Emphasis is placed on enhancing competence in clinical and administrative skills necessary for comprehensive patient care and strengthening professional communications and interactions. Upon completion, students should be able to function as an entry-level health care professional.				
 MED 264 Medical Assisting Overview				
Prerequisites:	2	0	0	2
Corequisites:				
This course provides an overview of the complete medical assisting curriculum. Emphasis is placed on all facets of medical assisting pertinent to administrative, laboratory, and clinical procedures performed in the medical environment. Upon completion, students should be able to demonstrate competence in the areas covered on the national certification examination for medical assistants.				
 MED 270 Symptomatology				
Prerequisites:	2	2	0	3
Corequisites:				
This course covers the study of disease symptoms and the appropriate actions taken by medical assistants in a medical facility in relation to these symptoms. Emphasis is placed on interviewing skills and appropriate triage, preparing patients for procedures, and screening test results. Upon completion, students should be able to recognize how certain symptoms relate to specific diseases, recognize emergency situations, and take appropriate actions.				

Course Descriptions

MED 272 Drug Therapy		3	0	0	3
Prerequisites: MED 140					
Corequisites:					
This course focuses on major drug groups, including their side effects, interactions, methods of administration, and proper documentation. Emphasis is placed on the theory of drug administration. Upon completion, students should be able to identify, spell, recognize side effects of, and document the most commonly used medications in a physician's office.					
MED 276 Patient Education		1	2	0	2
Prerequisites:					
Corequisites:					
This course is designed to provide communication skills, basic education principles, and knowledge of available community resources and to apply this knowledge to the clinical setting. Emphasis is placed on identifying appropriate community resources, developing patient education materials, and perfecting written and oral communication skills. Upon completion, students should be able to instruct, communicate effectively, and act as a liaison between the patient and community agencies.					
MEG 110 Tools, Term, & Procedures		2	6	0	4
Prerequisites:					
Corequisites:					
This course covers tools, equipment, terminology, and materials used for metal engraving. Topics include basic tool geometry, basic tool design and construction, basic engraving cuts, and the care and maintenance of tools and equipment. Upon completion, students should be able to design and construct basic engraving tools and make basic engraving cuts in metals.					
MEG 111 Scroll Cutting & Design		2	9	0	5
Prerequisites:					
Corequisites:					
This course introduces the techniques of drawing and engraving basic bias scroll designs. Topics include elements of scroll design, drawing techniques, and basic scroll engraving skills. Upon completion, students should be able to engrave a product suitable for the metal engraving marketplace.					
MEG 114 Bolino		2	6	0	4
Prerequisites:					
Corequisites:					
This course introduces the bolino method of push engraving in ferrous and non-ferrous metals. Emphasis is placed on making basic tools, lettering, fine-line engraving, printing plates, various scrolls, and the use of microscopes. Upon completion, students should be able to apply a variety of bolino engravings to ferrous and non-ferrous metals.					
MEG 115 Lettering & Calligraphy		2	3	0	3
Prerequisites:					
Corequisites:					
This course covers the anatomy, layouts, and cutting of the four basic letter types. Emphasis is placed on lettering anatomy, balanced lettering layout, hammer chisel methods, and the use of a paragraph. Upon completion, students should be able to form a responsive layout using a combination of letter styles.					
MEG 116 Flush & Raised Inlay		2	9	0	5
Prerequisites:					
Corequisites:					
This course introduces different applications of inlay techniques. Topics include flush inlay, overlay inlay, sculptured inlay, wire inlay, die sculpture, oak leaves, and graverbox engraving. Upon completion, students should be able to apply a variety of inlay techniques to a metal object.					

Course Descriptions

MEG 117	Engraving Applications	2	6	0	4
Prerequisites:	MEG 111				
Corequisites:					
This course is designed to simulate real-life marketplace experiences for the metal engraver. Emphasis is placed on the independent applications of production and custom engravings according to simulated work orders. Upon completion, students should be able to apply engraving skills and knowledge competently in the marketplace.					
MEG 118	Advanced Scroll Drawing	1	3	0	2
Prerequisites:	MEG 111				
Corequisites:					
This course provides the opportunity to develop personal application of the elements of design into scroll drawings. Emphasis is placed on design elements, creativity, advanced scroll anatomy, and developing personal styles. Upon completion, students should be able to incorporate their own unique style of scroll drawings into complex geometric shapes.					
MKT 120	Principles of Marketing	3	0	0	3
Prerequisites:					
Corequisites:					
This course introduces principles and problems of marketing goods and services. Topics include promotion, placement, and pricing strategies for products. Upon completion, students should be able to apply marketing principles in organizational decision making.					
MNT 110	Intro to Maintenance Procedures	1	3	0	2
Prerequisites:					
Corequisites:					
This course covers basic maintenance fundamentals for power transmission equipment. Topics include equipment inspection, lubrication, alignment, and other scheduled maintenance procedures. Upon completion, students should be able to demonstrate knowledge of accepted maintenance procedures and practices according to current industry standards.					
MUS 110	Music Appreciation	3	0	0	3
Prerequisites:					
Corequisites:					
This course is a basic survey of the music of the Western world. Emphasis is placed on the elements of music, terminology, composers, form, and style within a historical perspective. Upon completion, students should be able to demonstrate skills in basic listening and understanding of the art of music. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.</i>					
NET 110	Data Communication/Networking	2	2	0	3
Prerequisites:					
Corequisites:					
This course introduces data communication and networking. Topics include telecommunication standards, protocols, equipment, network topologies, communication software, LANs, WANs, the Internet, and network operating systems. Upon completion, students should be able to demonstrate understanding of the fundamentals of telecommunication and networking.					
NET 260	Internet Development & Support	3	0	0	3
Prerequisites:	NET 110				
Corequisites:					
This course covers issues relating to the development and implementation of Internet related tools and services. Topics include Internet organization, site registration, E-mail servers, Web servers, Web page development, legal issues, firewalls, multimedia, TCP/IP, service providers, FTP, list servers, and gateways. Upon completion, students should be able to develop and support the Internet services needed within an organization.					

Course Descriptions

NUR 101 Practical Nursing I	7	6	6	11
Prerequisites: Enrollment in the Practical Nursing program				
Corequisites:				
This course introduces concepts as related to the practical nurse's caregiver and discipline-specific roles. Emphasis is placed on the nursing process, legal/ethical/professional issues, wellness/illness patterns, and basic nursing skills. Upon completion, students should be able to demonstrate beginning understanding of nursing process to promote/maintain/restore optimum health for diverse clients throughout the life span. <i>This is a diploma-level course.</i>				
NUR 102 Practical Nursing II	8	0	12	12
Prerequisites: NUR 101				
Corequisites:				
This course includes more advanced concepts as related to the practical nurse's caregiver and discipline-specific roles. Emphasis is placed on the nursing process, delegation, cost effectiveness, legal/ethical/professional issues, and wellness/illness patterns. Upon completion, students should be able to begin participating in the nursing process to promote/maintain/restore optimum health for diverse clients throughout the life span. <i>This is a diploma-level course.</i>				
NUR 103 Practical Nursing III	6	0	12	10
Prerequisites:NUR102				
Corequisites:				
This course focuses on use of nursing/related concepts by practical nurses as providers of care/members of discipline in collaboration with health team members. Emphasis is placed on the nursing process, wellness/illness patterns, entry-level issues, accountability, advocacy, professional development, evolving technology, and changing health care delivery systems. Upon completion, students should be able to use the nursing process to promote/maintain/restore optimum health for diverse clients throughout the life span. <i>This is a diploma-level course.</i>				
NUT 110 Nutrition	3	0	0	3
Prerequisites:				
Corequisites:				
This course covers basic principles of nutrition and their relationship to human health. Topics include meeting nutritional needs of healthy people, menu modification based on special dietary needs, food habits, and contemporary problems associated with food selection. Upon completion, students should be able to apply basic nutritional concepts as they relate to health and well-being.				
OST 122 Office Computations	1	2	0	2
Prerequisites:				
Corequisites:				
This course introduces the keypad and the touch method using the electronic calculator. Topics include mathematical functions in business applications. Upon completion, students should be able to use the electronic calculator to solve a wide variety of problems commonly encountered in business.				
OST 131 Keyboarding	1	2	0	2
Prerequisites:				
Corequisites:				
This course covers basic keyboarding skills. Emphasis is placed on the touch system, correct techniques, and development of speed and accuracy. Upon completion, students should be able to key at an acceptable speed and accuracy level using the touch system.				
OST 132 Keyboard Skill Building	1	2	0	2
Prerequisites: OST 131				
Corequisites:				
This course provides accuracy- and speed-building drills. Emphasis is placed on diagnostic tests to identify accuracy and speed deficiencies followed by corrective drills. Upon completion, students should be able to keyboard rhythmically with greater accuracy and speed.				

Course Descriptions

OST 134	Text Entry & Formatting	3	2	0	4
Prerequisites:					
Corequisites:					
This course is designed to provide the skills needed to increase speed, improve accuracy, and format documents. Topics include letters, memos, tables, and business reports. Upon completion, students should be able to produce mailable documents.					
OST 135	Adv Text Entry & Formatting	3	2	0	4
Prerequisites: OST*134					
Corequisites:					
This course is designed to incorporate computer application skills in the generation of office documents. Emphasis is placed on the production of letters, manuscripts, business forms, tabulation, legal documents, and newsletters. Upon completion, students should be able to make independent decisions regarding planning, style, and method of presentation.					
OST 136	Word Processing	1	2	0	2
Prerequisites:					
Corequisites:					
This course introduces word processing concepts and applications. Topics include preparation of a variety of documents and mastery of specialized software functions. Upon completion, students should be able to work effectively in a computerized word processing environment.					
OST 164	Text Editing Applications	3	0	0	3
Prerequisites:					
Corequisites:					
This course provides a comprehensive study of editing skills needed in the workplace. Emphasis is placed on grammar, punctuation, sentence structure, proofreading, and editing. Upon completion, students should be able to use reference materials to compose and edit text.					
OST 184	Records Management	1	2	0	2
Prerequisites:					
Corequisites:					
This course includes the creation, maintenance, protection, security, and disposition of records stored in a variety of media forms. Topics include alphabetic, geographic, subject, and numeric filing methods. Upon completion, students should be able to set up and maintain a records management system.					
OST 223	Machine Transcription I	1	2	0	2
Prerequisites: OST 134, OST 136, and OST 164					
Corequisites:					
This course covers the use of transcribing machines to produce mailable documents. Emphasis is placed on appropriate formatting, advanced text editing skills, and transcription techniques. Upon completion, students should be able to transcribe documents into mailable copy.					
OST 224	Machine Transcription II	1	2	0	2
Prerequisites: OST 223					
Corequisites:					
This course provides advanced transcription skills. Emphasis is placed on specialized transcription features. Upon completion, students should be able to transcribe complex business documents into mailable copy with minimal assistance.					
OST 236	Adv Word/Information Processing	2	2	0	3
Prerequisites: OST 136 or OST 135					
Corequisites:					
This course develops proficiency in the utilization of advanced word/information processing functions. Topics include tables, graphics, macros, sorting, document assembly, merging, and newspaper and brochure columns. Upon completion, students should be able to produce a variety of complex business documents.					

Course Descriptions

OST 286 Professional Development	2	0	0	2
Prerequisites:				
Corequisites:				
This course covers the personal competencies and qualities needed to project a professional image in the office. Topics include interpersonal skills, health lifestyles, appearance, attitude, personal and professional growth, multicultural awareness, and professional etiquette. Upon completion, students should be able to demonstrate these attributes in the classroom, office, and society.				
OST 289 Office Systems Management	2	2	0	3
Prerequisites: OST 164 and OST 134 or OST 136				
Corequisites:				
This course provides a capstone course for the office professional. Topics include administrative office procedures, imaging, communication techniques, ergonomics, and equipment utilization. Upon completion, students should be able to function proficiently in a changing office environment.				
PCC 110 Intro to Pottery	3	15	0	8
Prerequisites:				
Corequisites:				
This course introduces pottery making for potters, including clay preparation, wheel throwing and trimming, surface decoration, and glazing and firing techniques. Topics include clay bodies and the mixing process, potter's wheel basics, glazing, kiln loading and firing, and safety issues. Upon completion, students should be able to prepare clay; center and throw basic forms; trim, mix, and apply basic glazes; and load and fire bisque kilns.				
PCC 111 Functional Pottery I	3	15	0	8
Prerequisites:				
Corequisites:				
This course covers the important elements of designing and producing utilitarian pottery, including wall thickness, balance and proportion, surface decoration, and glazing and firing techniques. Topics include bowls, mugs, plates, casseroles, stemware, and bottles, with emphasis on safe glazing and supervised firing. Upon completion, students should be able to produce a variety of functional pots, apply a glaze, and load and assist firing a kiln.				
PCC 114 Raku	1	3	0	2
Prerequisites:				
Corequisites:				
This course introduces clay bodies, glazes, kilns, and firing techniques necessary for making and safely firing raku pottery. Topics include clay properties, glaze types, kiln design, firing techniques, and historical information and safety related to the raku process. Upon completion, students should be able to make, glaze, and fire a variety of raku projects.				
PCC 118 Clay: Special Study	0	4	0	2
Prerequisites:				
Corequisites:				
This course provides a format in which to explore personal interests in clay with instructor supervision. Emphasis is placed on student proposals and student-instructor-developed contractual agreements specifying goals, deadlines, and evaluation criteria. Upon completion, students should be able to complete clay works as specified in student-instructor-designed contractual agreements.				
PCC 130 Pottery Production	2	9	0	5
Prerequisites:				
Corequisites:				
This course covers the production of similar functional forms that have a harmony of form, function, and design. Emphasis is placed on producing similar pottery forms, such as mugs, pitchers, plates, lidded containers, bottles, stemware, and teapots. Upon completion, students should be able to produce on the wheel multiples of the same form that are similar in size, shape, and properties.				

Course Descriptions

PCC 132 Glaze Formulation	1	3	0	2
Prerequisites:				
Corequisites:				
This course provides an in-depth study of glazes used on pottery. Emphasis is placed on performing glaze tests, analyzing glazes, mixing a variety of glazes, and correcting glaze faults. Upon completion, students should be able to demonstrate an understanding of glaze chemical qualities and formulate new glazes.				
PCC 210 Functional Pottery II	3	15	0	8
Prerequisites: PCC 111				
Corequisites:				
This course expands previous wheel throwing skills & involves larger, more complicated forms, production skills, slip & glaze theory, kiln theory, & glaze firing. Topics include centering & throwing larger amounts of clay, production techniques, record keeping, studio layout, kiln design, & fuel systems. Upon completion, students should be able to produce pots with competent handles, proper lids, & matching multiple forms & identifying kiln properties & burner types.				
PCC 211 Decorative Pottery	3	15	0	8
Prerequisites: PCC 111				
Corequisites:				
This course continues previous functional skill development, including limited production and one-of-a-kind pieces with emphasis on forming techniques. Topics include multiple cylinder forms, thrown additions, production skills, glaze testing, surface decoration, and firing techniques. Upon completion, students should be able to produce entry-level professional work for show and sale using a variety of forming and finishing techniques.				
PHY 151 College Physics I	3	2	0	4
Prerequisites: MAT 161 or MAT 171				
Corequisites: None				
This course uses algebra- and trigonometry-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include units and measurement, vectors, linear kinematics and dynamics, energy, power, momentum, fluid mechanics, and heat. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.</i>				
PSY 141 Psychology of Death & Dying	3	0	0	3
Prerequisites:				
Corequisites:				
This course presents psychological perspectives on death and dying. Topics include the culturally diverse aspects of death and the grieving process, adjustment mechanisms, interventions, and the psychological and ethical dimensions of death and dying. Upon completion, students should be able to demonstrate an understanding of the psychosocial aspects of death and dying.				
PSY 150 General Psychology	3	0	0	3
Prerequisites:				
Corequisites:				
This course provides an overview of the scientific study of human behavior. Topics include history, methodology, biopsychology, sensation, perception, learning, motivation, cognition, abnormal behavior, personality theory, social psychology, and other relevant topics. Upon completion, students should be able to demonstrate a basic knowledge of the science of psychology. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.</i>				

Course Descriptions

PSY 241 Developmental Psychology	3	0	0	3
Prerequisites: PSY 150				
Corequisites:				
This course is a study of human growth and development. Emphasis is placed on major theories and perspectives as they relate to the physical, cognitive, and psychosocial aspects of development from conception to death. Upon completion, students should be able to demonstrate knowledge of development across the life span. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.</i>				
PSY 255 Introduction to Exceptionality	3	0	0	3
Prerequisites: PSY 150				
Corequisites:				
This course introduces the psychology of the exceptional person. Topics include theoretical perspectives, terminology, and interventions pertaining to various handicapping conditions as well as the resulting psychosocial adjustments. Upon completion, student should be able to demonstrate a basic understanding of the potentials and limitations of the exceptional person.				
PSY 263 Educational Psychology	3	0	0	3
Prerequisites: PSY 150				
Corequisites:				
This course examines the application of psychological theories and principles to the educational process and setting. Topics include learning and cognitive theories, achievement motivation, teaching and learning styles, teacher and learner roles, assessment, and developmental issues. Upon completion, students should be able to demonstrate an understanding of the application of psychological theory to educational practice.				
PSY 264 Counseling Techniques	2	2	0	3
Prerequisites: PSY 150				
Corequisites:				
This course introduces basic counseling skills, models, and methods used in helping relationships. Emphasis is placed on listening, communication and interviewing skills, practical exercises and techniques, intervention strategies, and self-awareness in helping relationships. Upon completion, students should be able to demonstrate basic helping skills.				
PSY 265 Behavioral Modification	3	0	0	3
Prerequisites: PSY 150				
Corequisites:				
This course is an applied study of factors influencing human behavior and strategies for behavioral change. Emphasis is placed on cognitive-behavioral theory, behavioral assessment, practical applications of conditioning techniques, and maintenance of adaptive behavior patterns. Upon completion, students should be able to implement basic leaning principles to effect behavioral changes in self and others.				
PSY 281 Abnormal Psychology	3	0	0	3
Prerequisites: PSY 150				
Corequisites:				
This course provides an examination of the various psychological disorders, as well as theoretical, clinical, and experimental perspectives of the study of psychopathology. Emphasis is placed on terminology, classification, etiology, assessment, and treatment of the major disorders. Upon completion, students should be able to distinguish between normal and abnormal behavior patterns well as demonstrate knowledge of etiology, symptoms, and therapeutic techniques. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.</i>				

Course Descriptions

RED 070 Essential Reading Skills	3	2	0	4
Prerequisites:				
Corequisites:				
This course is designed for those with limited reading skills. Emphasis is placed on basic word attack skills, vocabulary, transitional words, paragraph organization, basic comprehension skills, and learning strategies. Upon completion, students should be able to demonstrate competence in the skills required for RED 080. <i>This course does not satisfy the developmental reading prerequisite for ENG 111 or ENG 111A.</i>				
RED 080 Intro to College Reading	3	2	0	4
Prerequisites: RED 070 or ENG 075				
Corequisites:				
This course introduces effective reading and inferential thinking skills in preparation for RED 090. Emphasis is placed on vocabulary, comprehension, and reading strategies. Upon completion, students should be able to determine main ideas and supporting details, recognize basic patterns of organization, draw conclusions, and understand vocabulary in context. <i>This course does not satisfy the developmental reading prerequisite for ENG 111 or ENG 111A.</i>				
RED 090 Improved College Reading	3	2	0	4
Prerequisites: RED 080 or ENG 085				
Corequisites:				
This course is designed to improve reading and critical thinking skills. Topics include vocabulary enhancement; extracting implied meaning; analyzing author's purpose, tone, and style; and drawing conclusions and responding to written material. Upon completion, students should be able to comprehend and analyze college-level reading material. <i>This course satisfies the developmental reading prerequisite for ENG 111 or ENG 111A.</i>				
REL 110 World Religions	3	0	0	3
Prerequisites:				
Corequisites:				
This course introduces the world's major religious traditions. Topics include Primal religions, Hinduism, Buddhism, Islam, Judaism, and Christianity. Upon completion, students should be able to identify the origins, history, beliefs, and practices of the religions studied. <i>This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.</i>				
REL 211 Intro to Old Testament	3	0	0	3
Prerequisites:

Corequisites:					
	This course covers mounting and painting fish, including skin mounts, reproductions, fish identifications, coloration, and habitat construction. Emphasis is placed on methods of measuring, skinning, preserving and restoring color to skin-mounted fish, and the preparation and painting of reproduction fish. Upon completion, students should be able to successfully complete all steps necessary to mount and paint skin-mounted specimens and prepare and paint reproduction fish. <i>This is a diploma-level course.</i>				

Course Descriptions

TXY 103	Mammal Taxidermy	6	18	0	12
Prerequisites:					
Corequisites:					
This course covers mounting game heads and life-size mammals with shop experience in mounting selected species and the construction of habitats. Emphasis is placed on proper measuring techniques, skinning, form selection, and mounting procedures. Upon completion, students should be able to skin, preserve, and mount mammals to achieve a life-like appearance, including proper color restoration.					
<i>This is a diploma-level course.</i>					
TXY 105	Bird Taxidermy	3	9	0	6
Prerequisites:					
Corequisites:					
This course covers bird taxidermy, including the application of commercial forms, artificial heads, and wrapped bodies. Emphasis is placed on federal laws governing migratory birds and techniques used to skin, degrease, preserve, and mount specimens. Upon completion, students should be able to skin, degrease, preserve, and mount birds to achieve a life-like appearance, including proper color restoration.					
<i>This is a diploma-level course.</i>					
WLD 112	Basic Welding Processes	1	3	0	2
Prerequisites:					
Corequisites:					
This course introduces basic welding and cutting. Emphasis is placed on beads applied with gases, mild steel fillers, and electrodes and the capillary action of solder. Upon completion, students should be able to set up welding and oxy-fuel equipment and perform welding, brazing, and soldering processes.					

Continuing Education & Community Services

PURPOSE

Education is a process that continues throughout an individual's life. The recent rapid developments in technology have made it imperative that individuals make purposeful plans in order to keep abreast of these developments. It is the College's aim to afford all individuals in Montgomery County the opportunity to develop to their fullest potential in whatever areas of vocational and cultural endeavor that they desire. The Continuing Education and Community Services Division plays a vital role in providing those opportunities. Through a variety of programs and services the Division provides opportunities for initial workforce development, occupational training and retraining, basic skills development, and academic and personal enrichment.

ADMISSION

Any adult who has reached the age of eighteen (18) and is not enrolled in public school is eligible to enroll in Adult Continuing Education classes.

FEES

Some fees are charged for adult continuing education classes. Such fees, when charged, are due and payable upon entry. Books and supplies are available through the College bookstore.

There may be fees charged for lab usage or materials. North Carolina residents who are age 65 or older may not be required to pay registration fees except in the case of self-supporting courses. Note: Tuition and registration fees, set by the North Carolina State Board of Community Colleges and the General Assembly, are subject to change.

REGISTRATION FEE REFUNDS

A student who officially withdraws from an extension class prior to the first class meeting is eligible for a 100% refund upon request to the Continuing Education and Community Services Division. After the respective class begins, a 75% refund may be granted upon request if the student officially withdraws from class prior to or on the 10% point of the scheduled hours of the class. In the case of contact hour classes, a student is eligible for a 100% refund if the student officially withdraws from class prior to the first class meeting. After the class has begun, a student may receive a 75% refund if he or she officially withdraws on or before 10 calendar days from the first day of class. Students are eligible for a 100% refund if the class is canceled by the College. No registration refunds are permitted for self-supporting classes except in the case of class cancellation by the College.

CERTIFICATES

Certificates may be awarded to students meeting requirements for any of the classes and programs for adults.

CLASS LOCATIONS & PROGRAM DELIVERY

A number of adult classes are held on the College campus. Classes are also conducted in the community and in businesses of the Montgomery Community College service area whenever a sufficient number of students have indicated an interest. Instruction for continuing education classes, workshops, and seminars place emphasis on the adult learner's needs. We understand that some persons may be coming back to improve themselves after being away from a classroom for a number of years. Others are continuous learners wanting instruction to be focused, enjoyable, and respectful of their busy personal and job schedules. To better meet the needs of adult learners, we offer a variety of instructional delivery options. Commonly, instruction is provided through the traditional classroom with an instructor. Other options include programs delivered through the Internet, video conference and combination of traditional classroom and self-directed computer assisted instruction.

CLASS FORMATION

Generally, Continuing Education classes are established on a demand basis. Different program areas have different requirements for number of students, cost, and places to meet. Course offerings reflect the needs and interests of the citizens. This means that Montgomery Community College counts on its public to request courses. If you desire a course which has not been announced, contact the Continuing Education Office of Montgomery Community College. Your cooperation in recruiting a group of your friends and neighbors for a course is appreciated.

ENROLLMENT

Students must pre-register for all classes by completing the Continuing Education registration form and submitting the appropriate fee (when applicable) by scheduled deadlines as advertised.

Continuing Education & Community Services

OCCUPATIONAL COURSE REPETITION POLICY

Students may repeat occupational courses once at the regular registration fee. Registration fees for additional repeats will be assessed for the full amount of the per student cost for the class.

CEU'S

A CEU is a unit designation recognized by the Southern Association of Colleges and Schools (SACS) and is awarded for selected Adult Continuing Education classes at Montgomery Community College. The CEU signifies the class is organized for a quality instructional program. CEU's are earned at a rate of one (1) CEU for each ten (10) hours of class.

AREAS OF STUDY IN CONTINUING EDUCATION AND COMMUNITY SERVICES

Areas of study in Continuing Education and Community Services include the following:

- Occupational Training Programs
- Community Services/Self-Supporting Programs
- Business and Industry Services
- Small Business Center Services
- Adult Basic Skills Programs
- Human Resources Development

Distance Learning

Distance learning allows students to complete training without time and place restrictions. Students are not required to attend classes in a specific location at a specific time. Information and telecommunications technologies provide linkages between the students and instructor. The learning is self-paced to match the learning style of the student, and the student can take occupational or self-supporting programs via the Internet. Most importantly, this approach to learning allows the student to get the training that is needed, when it is needed.

Occupational Training Programs

Occupational training is accomplished via cooperation with industry, professional groups, and other interested groups as well as through research of local and regional career opportunities in providing varied programs for the expressed purpose of updating and upgrading skills whereby the working person might enjoy a more satisfying and financially rewarding occupation. These classes may be held at any appropriate meeting place whether it be in industrial firms, public school buildings, libraries, or at the College.

Continuing Education & Community Services

Allied Health and Emergency Services

When medical or emergency services are necessary, having the best trained individuals caring for you is very important. The division offers several programs in allied health and emergency services. All programs are designed to meet local, state and other guidelines relative to requirements for certification purposes. Program areas are:

- CPR/First Aid
- Basic Emergency Medical Technician
- Fire and Rescue Service
- Nursing Assistant I & II
- Phlebotomy Technician

Certification and License Renewal

Certification and license renewal courses are offered periodically in a variety of areas. The issuing agency determines how often renewal is needed and the number of hours required. Courses for renewal are:

- Real Estate
- CPR/First Aid
- Nursing Assistant Refresher
- Educators
- Firearms Training

Industrial Maintenance

A number of short courses are available for entry and upgrade of industrial maintenance skills. The courses areas include hydraulics, pneumatics, PLC programming, electronic control circuits, welding, electrical safety, mechanical power transmissions, DC controls, bearings, electrical code, AC/DC electronics, gears and gear trains, control wiring, load wiring, lockout/tag-out, and confined space entry.

Law Enforcement Training

Staff development and ongoing in-service training is a necessity for law enforcement today. Legal updates, firearms re-certification, S.W.A.T., and search and seizure are just some of the types of training made available to law enforcement agencies through continuing education. All training is designed to meet the needs of state, county, city, and other law enforcement agencies.

Community Services/Self-Supporting Programs

Short, personal enrichment courses are the mainstay of Community Services/Self Supporting programs. Courses are offered in many locations throughout Montgomery County. Courses may be offered day, evening or weekend. Community Services courses may be offered with fee exemptions for North Carolina senior citizens age 65 or older. There are no fee exemptions allowed for self-supporting courses.

NRA Short-Term Gunsmithing and Law Enforcement Armorer School

Short-term courses are designed for individuals interested in learning new techniques or perfecting old techniques in the addressed fields of study. Courses are offered on a self-supported basis allowing no fee exemptions. Fees do not include hand tools or supplies.

Business and Industry Services

Many training programs and services are available to area businesses and industries, governmental agencies, and public service organizations. The training programs are customized to meet individual company needs. With the assistance of specially appropriated state tax dollars, these training programs are within the budgets of all local firms. Call the College for more information on the Continuing Education Division's business and industry programs. Our staff in Business and Industry Services at Montgomery Community College can assist your efforts to develop and train your employees by working side by side with you and your staff. Our overall scope of services includes:

- assessment of employee skills to determine need for training;
- job analysis and work procedure writing;
- employee development planning;
- training plan development;
- training program and course design;
- training delivery to employees (to include office, plant production, maintenance, process management, and management at all levels);
- trainer training;
- training documentation;
- training evaluation to include employee competency and program cost.

Focused Industry Training

Funded by special legislative appropriation, Focused Industry Training enables the College to assist existing industries with employee training, including industries with a small number of trainees. The program provides needs assessment for the training of skilled and semi-skilled workers, consultation and planning assistance to industries relating to training needs, and customized training for individual industries or occupational groups.

Continuing Education & Community Services

New and Expanding Industry Training

This program stimulates the creation of challenging and rewarding jobs for the citizens of our area by developing training resources into a comprehensive education service for companies new to Montgomery County and for existing companies involved in major expansion efforts. Most often, training is conducted on-site at the industry where the trainee is to be employed. Alternative training sites can be arranged, if the company has that need.

The Small Business Center

The objective of the Small Business Center is to increase the success rate and the number of viable small businesses in Montgomery County by providing high quality, readily accessible assistance to prospective and existing small business owners and their employees. MCC's Small Business Center is a community-based provider of education and training, counseling, information and referral.

Adult Basic Skills Programs

For the adult who was unable to complete public school, a series of basic courses are offered county-wide. These courses are free of charge to adults. Courses start at grade one and end with the high school equivalency certificate/General Education Development (GED).

Adult Basic Education (ABE)

General Education Development (GED)

Montgomery Community College offers combined Adult Basic Education (ABE) and General Education Development (GED) classes. These classes are designed for adults with or without high school diplomas to improve reading, writing and math skills and to prepare them for the GED Exam. Before enrolling in a class, an individual must attend a Basic Skills Registration Session. Minors (16-17 years of age) may enroll in the program but need to obtain a Minor's

Release Form to be completed by a parent or legal guardian and the Board of Education before registering. Classes are offered both day and evening in communities throughout the county and on the College campus. There is no cost for the ABE/GED classes, but there is a one time testing fee payable before taking the actual GED test. Montgomery Community College will assist interested organizations and groups of individuals in establishing new ABE/GED classes.

Continuing Education & Community Services

High School Equivalency Certificate - GED

General Educational Development (GED) tests are designed to measure the important knowledge and skills usually learned during high school but that one may have obtained through experience, reading, and informal training.

Successfully passing the five sections of the GED test allows the student to receive a high school equivalency certificate issued by the North Carolina State Board of Community Colleges. The tests are designed to measure a person's knowledge and skill in the following:

- Correct and effective English in written expression
(An essay on an assigned topic is required.)
- Effective reading, understanding, and interpretation of Social Studies
- Effective reading, understanding, and interpretation of Natural Science
- Effective reading, understanding, and interpretation of Literature
- Ability to solve problems in Mathematics

Each section requires from one to two hours. A student may select an area in which to work, successfully pass the test and move to the next area. There is no set procedure. A total score of at least 225 points with no single test score below 40 is passing.

The certificate is issued by the North Carolina State Board of Community Colleges. It is legally equal to a high school diploma and is recognized almost without exception by industry, agencies of the government, colleges, and other organizations and institutions.

Adult High School Diploma Program (AHS)

Montgomery Community College offers the Adult High School Diploma through an agreement of affiliation with the Montgomery County Public School System. Students are provided academic courses to complete graduation requirements. Before enrolling, prospective students must have been out of school for at least six months, attend an orientation session, and obtain an official transcript from the last high school attended. Minors (16-17 years of age) must first obtain a release form at MCC. A parent or legal guardian and the Board of Education must complete this release form. Day and evening classes are offered both in classroom and laboratory settings on the MCC campus. This flexibility enables students to work at their own pace and at times most convenient for them. The North Carolina Competency Test provided by the North Carolina Department of Instruction is offered to Adult High School students on the MCC campus at scheduled dates throughout the year.

English As A Second Language (ESL)

English as a Second Language (ESL) provides non-English speaking students the opportunity to learn the English language. Classes are centered around the objectives of developing language competency and cultural orientation. Any non-English speaking adult or any adult who wants to improve his/her English is eligible to enroll. Classes are offered both day and evening in communities throughout the county and on the College campus. There is no cost for the ESL classes. Montgomery Community College will assist any businesses interested in offering ESL classes for their employees.

Ingles Como Segundo Lenguaje (ESL)

Ingles como segundo lenguaje (ESL) ofrece a los estudiantes la oportunidad de aprender el idioma inglés. Se concentran las clases en los propósitos de desarrollar la competencia del idioma y la cultura. Cualquier adulto que no hable inglés o quiera mejorar el inglés puede participar en los cursos. Se ofrecen clases durante el día y la tarde en los pueblos del condado y en el colegio. No cuesta nada para las clases. También, Montgomery Community College ayudara a cualquier empresa en comenzar una nueva clase de inglés para los empleados.

Compensatory Education (CED)

Montgomery Community College offers Compensatory Education (CED) classes. These classes are designed to help mentally and emotionally challenged adults to become independent and to acquire skills needed for participation in our society. The program is affiliated with the Sandhills Center For Mental Health and the Association of Retarded Citizens (ARC).

Human Resources Development (HRD)

The Human Resources Development (HRD) program is pre-vocational, pre-employment, and placement training. It is designed to assist the chronically unemployed in finding employment and the underemployed in finding better employment.

The program provides structured pre-vocational training, counseling, and assistance into permanent employment or further education/training. The pre-vocational component provides students with instruction in basic communication skills and a basic orientation to the world of work. Students are taught positive self-concept. Other topics within the pre-vocational component are planning and reaching goals and making the transition to the workforce.

The students are encouraged to visit the JobLink Montgomery Career Center, located in the Student Services Division. The HRD Program and the JobLink Montgomery Career Center are in cooperative effort to offer counseling sessions and job referral services.
